Registrants' telephone number, including area code:
(913) 661-1500

Indicate by check mark whether the registrants (1) have filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrants were required to file such reports), and (2) have been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrants have submitted electronically and posted on their corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrants were required to submit and post such files). Yes No

Indicate by check mark whether the registrants are large accelerated filers, accelerated filers, non-accelerated filers, or smaller reporting companies. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Ferrellgas Partners, L.P.:
Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(do not check if a smaller reporting company)

Ferrellgas Partners Finance Corp, Ferrellgas, L.P. and Ferrellgas Finance Corp.:
Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(do not check if a smaller reporting company)

Indicate by check mark whether the registrants are shell companies (as defined in Rule 12b-2 of the Exchange Act).

Ferrellgas Partners, L.P. and Ferrellgas, L.P. Yes No
Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp. Yes No

At November 30, 2010, the registrants had common units or shares of common stock outstanding as follows:

Ferrellgas Partners, L.P.	70,826,910	Common Units
Ferrellgas Partners Finance Corp.	1,000	Common Stock
Ferrellgas, L.P.	n/a	n/a
Ferrellgas Finance Corp.	1,000	Common Stock

EACH OF FERRELLGAS PARTNERS FINANCE CORP. AND FERRELLGAS FINANCE CORP. MEET THE CONDITIONS SET FORTH IN GENERAL INSTRUCTION I (1)(A) AND (B) OF FORM 10-K AND ARE THEREFORE, WITH RESPECT TO EACH SUCH REGISTRANT, FILING THIS FORM 10-Q WITH THE REDUCED DISCLOSURE FORMAT.

FERRELLGAS PARTNERS, L.P. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2010

(Dollars in thousands, except per unit data, unless otherwise designated)

(unaudited)

A. Partnership organization and formation

Ferrellgas Partners, L.P. (“Ferrellgas Partners”) is a publicly traded limited partnership, owning an approximate 99% limited partner interest in Ferrellgas, L.P. (the “operating partnership”). Ferrellgas Partners and the operating partnership are collectively referred to as “Ferrellgas.” Ferrellgas, Inc. (the “general partner”), a wholly-owned subsidiary of Ferrell Companies, Inc. (“Ferrell Companies”), has retained a 1% general partner interest in Ferrellgas Partners and also holds an approximate 1% general partner interest in the operating partnership, representing an effective 2% general partner interest in Ferrellgas on a combined basis. As general partner, it performs all management functions required by Ferrellgas. At October 31, 2010, Ferrell Companies beneficially owned 20.3 million of Ferrellgas Partners’ outstanding common units.

The condensed consolidated financial statements of Ferrellgas reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the interim periods presented. All adjustments to the condensed consolidated financial statements were of a normal, recurring nature. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with (i) the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and (ii) the consolidated financial statements and accompanying notes, each as set forth in Ferrellgas’ Annual Report on Form 10-K for fiscal 2010.

B. Summary of significant accounting policies

(1) Nature of operations:

Ferrellgas Partners is a holding entity that conducts no operations and has two subsidiaries, Ferrellgas Partners Finance Corp. and the operating partnership. Ferrellgas Partners owns a 100% equity interest in Ferrellgas Partners Finance Corp., whose only business activity is to act as the co-issuer and co-obligor of any debt issued by Ferrellgas Partners. The operating partnership is the only operating subsidiary of Ferrellgas Partners.

The operating partnership is engaged primarily in the distribution of propane and related equipment and supplies in the United States. The propane distribution market is seasonal because propane is used primarily for heating in residential and commercial buildings. Therefore, the results of operations for the three months ended October 31, 2010 and 2009 are not necessarily indicative of the results to be expected for a full fiscal year. The operating partnership serves approximately one million residential, industrial/commercial, portable tank exchange, agricultural, wholesale and other customers in all 50 states, the District of Columbia and Puerto Rico.

(2) *Accounting estimates:*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from these estimates. Significant estimates impacting the condensed consolidated financial statements include accruals that have been established for contingent liabilities, pending claims and legal actions arising in the normal course of business, useful lives of property, plant and equipment assets, residual values of tanks, capitalization of customer tank installation costs, amortization methods of intangible assets, valuation methods used to value sales returns and allowances, allowance for doubtful accounts, financial derivative contracts and stock and unit-based compensation calculations.

[Table of Contents](#)

(3) *Supplemental cash flow information:*

Certain cash flow and significant non-cash activities are presented below:

	For the three months ended October 31,	
	2010	2009
CASH PAID FOR:		
Interest	\$ 17,065	\$ 12,481
Income taxes	—	—
NON-CASH INVESTING ACTIVITIES:		
Issuance of common units in connection with acquisitions	1,625	3,061
Issuance of liabilities in connection with acquisitions	538	5,494
Property, plant and equipment additions	474	619

See Note B — Summary of significant accounting policies - (5) New accounting standards — Transfers of financial assets and variable interest entities — below for a discussion of the non-cash impact of the adoption of new accounting standards during the current year period.

(4) *Accounts receivable securitization:*

Through its wholly-owned and consolidated subsidiary Ferrellgas Receivables, LLC (“Ferrellgas Receivables”), the operating partnership has agreements to securitize, on an ongoing basis, a portion of its trade accounts receivable. See Note B — Summary of significant accounting policies - (5) New accounting standards — Transfers of financial assets and variable interest entities — below regarding a new accounting standard for financial asset transfers that was effective August 1, 2010.

(5) *New accounting standards:*

Transfers of financial assets and variable interest entities

In June 2009, the Financial Accounting Standards Board (“FASB”) issued two amendments to existing GAAP, one of which eliminates the concept of a qualifying special-purpose-entity (QSPEs). The second amends guidance applicable to variable interest entities (VIEs). The provisions of these amendments require Ferrellgas to evaluate all VIE’s to determine whether they must be consolidated.

As a result of the prospective adoption of these amendments on August 1, 2010, Ferrellgas Receivables is now accounted for as a consolidated subsidiary. Upon adoption, Ferrellgas recognized \$107.9 million of “Accounts receivable pledged as collateral, net,” \$0.6 million of “Other assets, net” and \$47.0 million of “Collateralized notes payable,” derecognized \$44.9 million of “Notes receivable from Ferrellgas Receivables” and \$15.3 million of “Retained interest in Ferrellgas Receivables” and recorded a \$1.3 million “Cumulative effect of a change in accounting principle.”

Subsequent to adoption, expenses associated with these transactions are now recorded in “Interest expense” and are no longer recorded in “Loss on transfer of accounts receivable related to the accounts receivable securitization” or “Service income related to the accounts receivable securitization” in the condensed consolidated statements of earnings. Additionally, borrowings and repayments associated with these transactions are now recorded in “Cash flows from financing activities” and no longer recorded in “Cash flows from operating activities” in the condensed consolidated statements of cash flows. The adoption of these amendments did not have a significant impact on Ferrellgas’ debt covenant agreements.

[Table of Contents](#)

C. Supplemental financial statement information

Inventories consist of the following:

	October 31, 2010	July 31, 2010
Propane gas and related products	\$ 149,017	\$ 146,805
Appliances, parts and supplies	20,801	20,106
Inventories	<u>\$ 169,818</u>	<u>\$ 166,911</u>

In addition to inventories on hand, Ferrellgas enters into contracts primarily to buy propane for supply procurement purposes. Most of these contracts have terms of less than one year and call for payment based on market prices at the date of delivery. All supply procurement fixed price contracts have terms of fewer than 24 months. As of October 31, 2010, Ferrellgas had committed, for supply procurement purposes, to take delivery of approximately 106.5 million net gallons of propane at fixed prices.

Other current liabilities consist of the following:

	October 31, 2010	July 31, 2010
Accrued interest	\$ 27,248	\$ 20,412
Accrued payroll	10,171	20,464
Customer deposits and advances	36,003	23,280
Other	53,061	43,898
Other current liabilities	<u>\$ 126,483</u>	<u>\$ 108,054</u>

Loss (gain) on disposal of assets and other consists of the following:

	For the three months ended October 31,			
	2010		2009	
Loss (gain) on disposal of assets	\$	(232)	\$	876
Loss on transfer of accounts receivable related to the accounts receivable securitization		—		1,760
Service income related to the accounts receivable securitization		—		(974)
Loss (gain) on disposal of assets and other	<u>\$</u>	<u>(232)</u>	<u>\$</u>	<u>1,662</u>

See Note B — Summary of significant accounting policies - (5) New accounting standards — Transfers of financial assets and variable interest entities — for a discussion of changes in accounting for accounts receivable securitization transactions.

Shipping and handling expenses are classified in the following condensed consolidated statements of earnings line items:

	For the three months ended October 31,			
	2010		2009	
Operating expense	\$	42,284	\$	43,781
Depreciation and amortization expense		1,481		1,303
Equipment lease expense		3,361		3,863
	<u>\$</u>	<u>47,126</u>	<u>\$</u>	<u>48,947</u>

[Table of Contents](#)

D. Accounts and notes receivable, net and accounts receivable securitization

Accounts and notes receivable, net consist of the following:

	October 31, 2010	July 31, 2010
Accounts receivable pledged as collateral	\$ 122,092	\$ —
Accounts receivable	51,243	33,725
Note receivable from Ferrellgas Receivables	—	44,927
Retained interest in Ferrellgas Receivables	—	15,323
Other	260	269
Less: Allowance for doubtful accounts	(5,988)	(5,010)
Accounts and notes receivable, net	<u>\$ 167,607</u>	<u>\$ 89,234</u>

See Note B — Summary of significant accounting policies - (5) New accounting standards - Transfers of financial assets and variable interest entities - for a discussion of amendments to existing GAAP which required Ferrellgas to begin consolidating its previously unconsolidated QSPE, Ferrellgas Receivables, effective August 1, 2010. Upon consolidation, Ferrellgas now recognizes accounts receivable that have been sold by the operating partnership to Ferrellgas Receivables as “Accounts receivable pledged as collateral” and eliminates the previously recognized “Note receivable from Ferrellgas Receivables” and “Retained interest in Ferrellgas Receivables.”

The operating partnership, through Ferrellgas Receivables, securitizes a portion of its trade accounts receivable through a commercial paper conduit for proceeds of up to \$145.0 million. At October 31, 2010, \$122.1 million of trade accounts receivable were pledged as collateral against \$66.0 million of collateralized notes payable due to the commercial paper conduit. These accounts receivable pledged as collateral are bankruptcy remote from the operating partnership. The operating partnership does not provide any guarantee or similar support to the collectability of these accounts receivable pledged as collateral.

The operating partnership structured Ferrellgas Receivables in order to facilitate securitization transactions while complying with Ferrellgas' various debt covenants. If the covenants were compromised, funding from the facility could be restricted or suspended, or its costs could increase. As of October 31, 2010, the operating partnership had received proceeds from trade accounts receivables securitized of \$66.0 million with the ability to receive proceeds of an additional \$6.0 million.

E. Debt

Short-term borrowings

Ferrellgas classified a portion of its credit facility borrowings as short-term because it was used to fund working capital needs that management had intended to pay down within the 12 month period following each balance sheet date. As of October 31, 2010 and July 31, 2010, \$90.5 million and \$67.2 million, respectively, were classified as short-term borrowings. For further discussion see the secured credit facility section below.

Long-term debt

Long-term debt consists of the following:

8

Senior notes

See Note K — Subsequent events for discussion of a new long term debt issuance.

Secured credit facility

Ferrellgas' secured credit facility provides \$400.0 million in revolving credit for loans and has a \$200.0 million sublimit for letters of credit. This credit facility matures in November 2012.

The credit facility contains various affirmative and negative covenants and default provisions, as well as requirements with respect to the maintenance of specified financial ratios and limitations on the making of loans and investments.

As of October 31, 2010, Ferrellgas had total borrowings outstanding under its credit facility of \$200.3 million, of which \$109.8 million was classified as long-term debt. As of July 31, 2010, Ferrellgas had total borrowings outstanding under its credit facility of \$167.0 million, of which \$99.8 million was classified as long-term debt.

Borrowings under the credit facility had a weighted average interest rate of 4.31% at October 31, 2010. All borrowings under the credit facility bear interest, at Ferrellgas' option, at a rate equal to either:

- for Base Rate Loans or Swing Line Loans, the Base Rate, which is defined as the higher of i) the federal funds rate plus 0.50%, ii) Bank of America's prime rate; or iii) the Eurodollar Rate plus 1%; plus a margin varying from 2.50% to 3.25% (as of October 31, 2010, the margin was 2.75%); or
- for Eurodollar Rate Loans, the Eurodollar Rate, which is defined as the LIBOR Rate plus a margin varying from 3.50% to 4.25% (as of October 31, 2010, the margin was 3.75%).

As of October 31, 2010, the federal funds rate and Bank of America's prime rate were 0.20% and 3.25%, respectively. As of October 31, 2010, the one-month and three-month Eurodollar Rates were 0.33% and 0.40%, respectively.

9

[Table of Contents](#)

In addition, an annual commitment fee is payable at a per annum rate of 0.50% times the actual daily amount by which the facility exceeds the sum of (i) the outstanding amount of revolving credit loans and (ii) the outstanding amount of letter of credit obligations.

The obligations under this credit facility are secured by substantially all assets of the operating partnership, the general partner and certain subsidiaries of the operating partnership but specifically excluding (a) assets that are subject to the operating partnership's accounts receivable securitization facility, (b) the general partner's equity interest in Ferrellgas Partners and (c) equity interest in certain unrestricted subsidiaries. Such obligations are also guaranteed by the general partner and certain subsidiaries of the operating partnership.

Letters of credit outstanding at October 31, 2010 totaled \$49.9 million and were used primarily to secure insurance arrangements and to a lesser extent, product purchases. Letters of credit outstanding at July 31, 2010 totaled \$47.1 million and were used primarily to secure insurance arrangements and to a lesser extent, product purchases. At October 31, 2010, Ferrellgas had available letter of credit remaining capacity of \$149.8 million. At July 31, 2010, Ferrellgas had available letter of credit remaining capacity of \$152.9 million.

The scheduled annual principal payments on long-term debt are as follows:

For the year ended July 31,	Scheduled annual principal payments
2011	\$ 31,405
2012	2,394
2013	32,101
2014	1,747
2015	1,760
Thereafter	1,082,556
Total	\$ 1,151,963

See Note K — Subsequent events for discussion about the effect of equity and debt issuances and senior note and credit facility repayments after October 31, 2010 on scheduled annual principal payments.

F. Partners' capital

Common unit issuance

During the three months ended October 31, 2010, Ferrellgas issued \$1.6 million of common units in connection with the acquisition of propane distribution assets. The general partner contributed \$39 thousand to Ferrellgas to maintain its effective 2% general partner interest in connection with all common unit issuances.

[Table of Contents](#)

Partnership distributions paid

Ferrellgas Partners has paid the following distributions:

	For the three months ended October 31,	
	2010	2009
Public common unit holders	\$ 22,433	\$ 21,777
Ferrell Companies (1)	10,040	10,040
FCI Trading Corp. (2)	98	98
Ferrell Propane, Inc. (3)	26	26
James E. Ferrell (4)	2,177	2,177
General partner	351	345
	\$ 35,125	\$ 34,463

- (1) Ferrell Companies is the owner of the general partner and a 29% beneficial owner of Ferrellgas' common units and thus a related party.
- (2) FCI Trading Corp. ("FCI Trading") is an affiliate of the general partner and thus a related party.
- (3) Ferrell Propane, Inc. ("Ferrell Propane") is controlled by the general partner and thus a related party.
- (4) James E. Ferrell is the Executive Chairman and Chairman of the Board of Directors of the general partner and thus a related party.

On November 19, 2010, Ferrellgas Partners declared a cash distribution of \$0.50 per common unit for the three months ended October 31, 2010, which is expected to be paid on December 15, 2010.

Included in this cash distribution are the following amounts expected to be paid to related parties:

Ferrell Companies	\$ 10,040
FCI Trading Corp.	98
Ferrell Propane, Inc.	26
James E. Ferrell	2,177
General partner	358

See additional discussions about transactions with related parties in Note H — Transactions with related parties.

Other comprehensive income ("OCI")

See Note G — Derivatives — for details regarding changes in fair value on risk management financial derivatives recorded within OCI for the three months ended October 31, 2010.

General partner's commitment to maintain its capital account

Ferrellgas Partners partnership agreement allows the general partner to have an option to maintain its effective 2% general partner interest concurrent with the issuance of other additional equity.

The general partner made noncash contributions totaling \$69 thousand to Ferrellgas to maintain its effective 2% general partner interest in connection with employee stock ownership and stock-based compensation charges.

G. Derivatives

Commodity Price Risk Management

Ferrellgas' risk management activities primarily attempt to mitigate price risks related to the purchase, storage, transport and sale of propane generally in the contract and spot markets from major domestic energy companies on a short-term basis. Ferrellgas attempts to mitigate these price risks

[Table of Contents](#)

through the use of financial derivative instruments and forward propane purchase and sales contracts.

Ferrellgas' risk management strategy involves taking positions in the forward or financial markets that are equal and opposite to Ferrellgas' positions in the physical products market in order to minimize the risk of financial loss from an adverse price change. This risk management strategy is successful when Ferrellgas' gains or losses in the physical product markets are offset by its losses or gains in the forward or financial markets. These financial derivatives are designated as cash flow hedges.

Ferrellgas' risk management activities include the use of financial derivative instruments including, but not limited to, price swaps, options, futures and basis swaps to seek protection from adverse price movements and to minimize potential losses. Ferrellgas enters into these financial derivative instruments directly with third parties in the over-the-counter market and with brokers who are clearing members with the New York Mercantile Exchange. Ferrellgas also enters into forward propane purchase and sales contracts with counterparties. These forward contracts qualify for the normal purchase normal sales exception within GAAP guidance and are therefore not recorded by Ferrellgas prior to settlement on its financial statements.

Cash Flow Hedging Activity

Ferrellgas uses financial derivative instruments for risk management purposes to hedge a portion of its exposure to market fluctuations in propane prices. These financial derivative instruments are designated as cash flow hedging instruments, thus the effective portions of changes in the fair value of the financial derivatives are recorded in OCI prior to settlement and are subsequently recognized in the condensed consolidated statements of earnings in "Cost of product sold — propane and other gas liquids sales" when the forward or forecasted propane sales transaction impacts earnings. The effectiveness of cash flow hedges is evaluated at inception and on an on-going basis. Changes in the fair value of cash flow hedges due to hedge ineffectiveness, if any, are recognized in "Cost of product sold — propane and other gas liquids sales." During the three months ended October 31, 2010 and 2009, Ferrellgas did not recognize any gain or loss in earnings related to hedge ineffectiveness and did not exclude any component of the financial derivative contract gain or loss from the assessment of hedge effectiveness related to these cash flow hedges.

The fair value of the financial derivative instruments below are included within "Prepaid expenses and other current assets" and "Other current liabilities" on the condensed consolidated balance sheets:

	October 31, 2010	July 31, 2010
Derivatives — Price risk management assets	\$ 4,772	\$ 1,882
Derivatives — Price risk management liabilities	510	2,039

Ferrellgas had the following cash flow hedge activity included in OCI in the condensed consolidated statements of partners' capital:

	For the three months ended October 31,	
	2010	2009
Fair value gain adjustment classified as OCI with offset in Price risk management assets and Price risk management liabilities	\$ 5,002	\$ 7,083
Reclassification of net gains originally recorded within OCI to Cost of product sold — propane and other gas liquids	583	70

Ferrellgas expects to reclassify net gains of approximately \$3.8 million to earnings during the next 12 months. These net gains are expected to be offset by margins on propane sales commitments Ferrellgas has with its customers that qualify for the normal purchase normal sales exception.

[Table of Contents](#)

During the three months ended October 31, 2010 and 2009, Ferrellgas had no reclassifications to earnings resulting from discontinuance of any cash flow hedges arising from the probability of the original forecasted transactions not occurring within the originally specified period of time defined within the

hedging relationship.

As of October 31, 2010, Ferrellgas had financial derivative contracts covering 1.1 million barrels of propane that were entered into as cash flow hedges of forward and forecasted purchases of propane.

During the three months ended October 31, 2010 and 2009, four counterparties represented 95% and 76%, respectively, of net settled cash flow hedging positions reported in "Cost of product sold — propane and other gas liquids sales." During the three months ended October 31, 2010 and 2009, Ferrellgas neither held nor entered into financial derivative contracts that contained credit risk related contingency features.

In accordance with GAAP, Ferrellgas determines the fair value of its assets and liabilities subject to fair value measurement by using the highest possible "Level" as defined within the GAAP hierarchy. The three levels defined by the GAAP hierarchy are as follows:

- Level 1 — Quoted prices available in active markets for identical assets or liabilities.
- Level 2 — Pricing inputs not quoted in active markets but either directly or indirectly observable.
- Level 3 — Significant inputs to pricing that have little or no transparency with inputs requiring significant management judgment or estimation.

Ferrellgas considers over-the-counter derivative instruments entered into directly with third parties as Level 2 valuation since the values of these derivatives are quoted by third party brokers and are on an exchange for similar transactions. The market prices used to value Ferrellgas' derivatives have been determined using independent third party prices, readily available market information, broker quotes, and appropriate valuation techniques.

At October 31, 2010 and July 31, 2010, all derivative assets and liabilities qualified for classification as Level 2 - other observable inputs as defined by the GAAP hierarchy. All financial derivatives assets and liabilities were non-trading positions.

H. Transactions with related parties

General partner

Ferrellgas has no employees and is managed and controlled by its general partner. Pursuant to Ferrellgas' partnership agreements, the general partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on behalf of Ferrellgas and all other necessary or appropriate expenses allocable to Ferrellgas or otherwise reasonably incurred by its general partner in connection with operating Ferrellgas' business. These costs primarily include compensation and benefits paid to employees of the general partner who perform services on Ferrellgas' behalf and are reported in the condensed consolidated statements of earnings as follows:

	For the three months ended October 31,	
	2010	2009
Operating expense	\$ 50,011	\$ 53,311
General and administrative expense	6,463	6,455

See additional discussions about transactions with the general partner and related parties in Note F — Partners' capital.

[Table of Contents](#)

Board of Directors

Elizabeth Solberg, a member of the general partner's Board of Directors, serves as the General Manager of Fleishman-Hillard Inc. During the three months ended October 31, 2010 and 2009, Ferrellgas paid Fleishman-Hillard Inc. \$33 thousand and \$42 thousand, respectively, for marketing and communications services.

I. Contingencies

Ferrellgas' operations are subject to all operating hazards and risks normally incidental to handling, storing, transporting and otherwise providing for use by consumers of combustible liquids such as propane. As a result, at any given time, Ferrellgas is threatened with or named as a defendant in various lawsuits arising in the ordinary course of business. Other than as discussed below, Ferrellgas is not a party to any legal proceedings other than various claims and lawsuits arising in the ordinary course of business. It is not possible to determine the ultimate disposition of these matters; however, management is of the opinion that there are no known claims or contingent claims that are reasonably expected to have a material adverse effect on the financial condition, results of operations and cash flows of Ferrellgas.

Ferrellgas has been named as a defendant in lawsuits filed in multiple federal and state courts that seek to certify nationwide or statewide classes related to its Blue Rhino branded propane tank exchange activities. The plaintiffs in each case generally allege that Ferrellgas failed to inform consumers of the amount of propane contained in propane tanks they purchased and that Ferrellgas violated anti-trust laws by allegedly conspiring with a competitor. The federal cases have been coordinated for multidistrict treatment in the United States District Court for the Western District of Missouri. Based on Ferrellgas' business and consumer notification practices in its Blue Rhino tank exchange operations, Ferrellgas believes that all of these claims are without merit and intends to defend the claims vigorously.

Ferrellgas has also been named as a defendant in a class action lawsuit filed in the United States District Court in Kansas. The complaint alleges that Ferrellgas violates consumer protection laws in the manner Ferrellgas sets prices and fees for its customers. Based on Ferrellgas' business practices, Ferrellgas believes that the claims are without merit and intends to defend the claims vigorously.

J. Net loss per common unitholders' interest

Below is a calculation of the basic and diluted net loss per common unitholders' interest in the condensed consolidated statements of earnings for the periods indicated. In accordance with guidance issued by the FASB regarding participating securities and the two-class method, Ferrellgas calculates net earnings per common unitholders' interest for each period presented according to distributions declared and participation rights in undistributed earnings,

as if all of the earnings for the period had been distributed. In periods with undistributed earnings above certain levels, the calculation according to the two-class method results in an increased allocation of undistributed earnings to the general partner and a dilution of the earnings to the limited partners. Due to the seasonality of the propane business, the dilution effect of the guidance on the two-class method typically impacts only the three months ending January 31. There was not a dilutive effect resulting from this guidance on basic and diluted net loss per common unitholders' interest for the three months ended October 31, 2010 and 2009.

In periods with year-to-date net losses, the allocation of the net losses to the limited partners and the general partner will be determined based on the same allocation basis specified in the Ferrellgas Partners' partnership agreement that would apply to periods in which there were no undistributed earnings. Ferrellgas typically incurs net losses in the three month period ended October 31.

[Table of Contents](#)

	For the three months ended October 31,	
	2010	2009
Common unitholders' interest in net loss	\$ (27,763)	\$ (32,338)
Weighted average common units outstanding (in thousands)	69,559.6	68,507.9
Dilutive securities	—	—
Weighted average common units outstanding plus dilutive securities	<u>69,559.6</u>	<u>68,507.9</u>
Basic and diluted net loss per common unitholders' interest	\$ (0.40)	\$ (0.47)

K. Subsequent events

Ferrellgas has evaluated events and transactions occurring after the balance sheet date through the date Ferrellgas' condensed consolidated financial statements were issued, and concluded that, other than the events discussed below, there were no events or transactions occurring during this period that required recognition or disclosure in its financial statements.

During November 2010, the operating partnership issued \$500.0 million in aggregate principal amount of new 6.50% senior notes due 2021 at an offering price equal to par. The operating partnership received \$491.3 million of net proceeds after deducting initial purchase discounts and estimated expenses of the offering. The operating partnership applied the net proceeds to a cash tender offer to purchase any and all of its \$450.0 million 6.75% fixed rate senior notes due May 1, 2014 and to redeem any such notes that remain outstanding after November 30, 2010. As of November 30, 2010, the operating partnership had purchased \$368.6 million of the senior notes pursuant to the cash tender offer. The operating partnership used the remaining proceeds to reduce outstanding indebtedness under the credit facility by \$111.9 million and to pay the related make whole and interest payments of \$10.8 million. The operating partnership then issued an irrevocable notice to redeem prior to the end of December 2010 the remaining \$81.4 million outstanding principal amount of the 6.75% senior notes due 2014 and their related make-whole payments.

During November 2010, Ferrellgas entered into an agreement with an institutional investor relating to a non-brokered registered direct offering of 1.2 million common units. Net proceeds of approximately \$30.0 million were used to reduce outstanding indebtedness under the credit facility.

FERRELLGAS, L.P. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2010

(Dollars in thousands, unless otherwise designated)

(unaudited)

A. Partnership organization and formation

Ferrellgas, L.P. is a limited partnership that owns and operates propane distribution and related assets. Ferrellgas Partners, L.P. (“Ferrellgas Partners”), a publicly traded limited partnership, owns an approximate 99% limited partner interest in, and consolidates, Ferrellgas, L.P. Ferrellgas, Inc. (the “general partner”), a wholly-owned subsidiary of Ferrell Companies, Inc. (“Ferrell Companies”), holds an approximate 1% general partner interest in Ferrellgas, L.P. and performs all management functions required by Ferrellgas, L.P.

Ferrellgas, L.P. owns a 100% equity interest in Ferrellgas Finance Corp., whose only business activity is to act as the co-issuer and co-obligor of any debt issued by Ferrellgas, L.P.

The condensed consolidated financial statements of Ferrellgas, L.P. and subsidiaries reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the interim periods presented. All adjustments to the condensed consolidated financial statements were of a normal, recurring nature. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with (i) the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and (ii) the consolidated financial statements and accompanying notes, each as set forth in Ferrellgas, L.P.’s Annual Report on Form 10-K for fiscal 2010.

B. Summary of significant accounting policies

(1) Nature of operations:

Ferrellgas, L.P. is engaged primarily in the distribution of propane and related equipment and supplies in the United States. The propane distribution market is seasonal because propane is used primarily for heating in residential and commercial buildings. Therefore, the results of operations for the three months ended October 31, 2010 and 2009 are not necessarily indicative of the results to be expected for a full fiscal year. Ferrellgas, L.P. serves approximately one million residential, industrial/commercial, portable tank exchange, agricultural, wholesale and other customers in all 50 states, the District of Columbia and Puerto Rico.

(2) Accounting estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ

from these estimates. Significant estimates impacting the condensed consolidated financial statements include accruals that have been established for contingent liabilities, pending claims and legal actions arising in the normal course of business, useful lives of property, plant and equipment assets, residual values of tanks, capitalization of customer tank installation costs, amortization methods of intangible assets, valuation methods used to value sales returns and allowances, allowance for doubtful accounts, financial derivative contracts and stock and unit-based compensation calculations.

(3) *Supplemental cash flow information:*

Certain cash flow and significant non-cash activities are presented below:

[Table of Contents](#)

	For the three months ended October 31,	
	2010	2009
CASH PAID FOR:		
Interest	\$ 17,065	\$ 12,481
Income taxes	—	—
NON-CASH INVESTING ACTIVITIES:		
Assets contributed from Ferrellgas Partners in connection with acquisitions	1,625	3,061
Issuance of liabilities in connection with acquisitions	538	5,494
Property, plant and equipment additions	474	619

See Note B — Summary of significant accounting policies - (5) New accounting standards — Transfers of financial assets and variable interest entities — below for a discussion of the non-cash impact of the adoption of new accounting standards during the current year period.

(4) *Accounts receivable securitization:*

Through its wholly-owned and consolidated subsidiary Ferrellgas Receivables, LLC (“Ferrellgas Receivables”), Ferrellgas, L.P. has agreements to securitize, on an ongoing basis, a portion of its trade accounts receivable. See Note B — Summary of significant accounting policies - (5) New accounting standards — Transfers of financial assets and variable interest entities — below regarding a new accounting standard for financial asset transfers that was effective August 1, 2010.

(5) *New accounting standards:*

Transfers of financial assets and variable interest entities

In June 2009, the Financial Accounting Standards Board (“FASB”) issued two amendments to existing GAAP, one of which eliminates the concept of a qualifying special-purpose-entity (QSPEs). The second amends guidance applicable to variable interest entities (VIEs). The provisions of these amendments require Ferrellgas, L.P. to evaluate all VIE’s to determine whether they must be consolidated.

As a result of the prospective adoption of these amendments on August 1, 2010, Ferrellgas Receivables is now accounted for as a consolidated subsidiary. Upon adoption, Ferrellgas, L.P. recognized \$107.9 million of “Accounts receivable pledged as collateral, net,” \$0.6 million of “Other assets, net” and \$47.0 million of “Collateralized notes payable,” derecognized \$44.9 million of “Notes receivable from Ferrellgas Receivables” and \$15.3 million of “Retained interest in Ferrellgas Receivables” and recorded a \$1.3 million “Cumulative effect of a change in accounting principle.”

Subsequent to adoption, expenses associated with these transactions are now recorded in “Interest expense” and are no longer recorded in “Loss on transfer of accounts receivable related to the accounts receivable securitization” or “Service income related to the accounts receivable securitization” in the condensed consolidated statements of earnings. Additionally, borrowings and repayments associated with these transactions are now recorded in “Cash flows from financing activities” and no longer recorded in “Cash flows from operating activities” in the condensed consolidated statements of cash flows. The adoption of these amendments did not have a significant impact on Ferrellgas, L.P.’s debt covenant agreements.

C. Supplemental financial statement information

Inventories consist of the following:

[Table of Contents](#)

	October 31, 2010	July 31, 2010
Propane gas and related products	\$ 149,017	\$ 146,805
Appliances, parts and supplies	20,801	20,106
Inventories	<u>\$ 169,818</u>	<u>\$ 166,911</u>

In addition to inventories on hand, Ferrellgas, L.P. enters into contracts primarily to buy propane for supply procurement purposes. Most of these contracts have terms of less than one year and call for payment based on market prices at the date of delivery. All supply procurement fixed price contracts have terms of fewer than 24 months. As of October 31, 2010, Ferrellgas, L.P. had committed, for supply procurement purposes, to take delivery of approximately 106.5 million net gallons of propane at fixed prices.

Other current liabilities consist of the following:

	2010	2010
Accrued interest	\$ 18,123	\$ 17,324
Accrued payroll	10,171	20,464
Customer deposits and advances	36,003	23,280
Other	52,915	43,667
Other current liabilities	<u>\$ 117,212</u>	<u>\$ 104,735</u>

Loss (gain) on disposal of assets and other consists of the following:

	For the three months ended October 31,	
	2010	2009
Loss (gain) on disposal of assets	\$ (232)	\$ 876
Loss on transfer of accounts receivable related to the accounts receivable securitization	—	1,760
Service income related to the accounts receivable securitization	—	(974)
Loss (gain) on disposal of assets and other	<u>\$ (232)</u>	<u>\$ 1,662</u>

See Note B — Summary of significant accounting policies - (5) New accounting standards — Transfers of financial assets and variable interest entities — for a discussion of changes in accounting for accounts receivable securitization transactions.

Shipping and handling expenses are classified in the following condensed consolidated statements of earnings line items:

	For the three months ended October 31,	
	2010	2009
Operating expense	\$ 42,284	\$ 43,781
Depreciation and amortization expense	1,481	1,303
Equipment lease expense	3,361	3,863
	<u>\$ 47,126</u>	<u>\$ 48,947</u>

[Table of Contents](#)

D. Accounts and notes receivable, net and accounts receivable securitization

Accounts and notes receivable, net consist of the following:

	October 31, 2010	July 31, 2010
Accounts receivable pledged as collateral	\$ 122,092	\$ —
Accounts receivable	51,243	33,725
Note receivable from Ferrellgas Receivables	—	44,927
Retained interest in Ferrellgas Receivables	—	15,323
Other	260	269
Less: Allowance for doubtful accounts	(5,988)	(5,010)
Accounts and notes receivable, net	<u>\$ 167,607</u>	<u>\$ 89,234</u>

See Note B — Summary of significant accounting policies - (5) New accounting standards - Transfers of financial assets and variable interest entities - for a discussion of amendments to existing GAAP which required Ferrellgas, L.P. to begin consolidating its previously unconsolidated QSPE, Ferrellgas Receivables, effective August 1, 2010. Upon consolidation, Ferrellgas, L.P. now recognizes accounts receivable that have been sold to Ferrellgas Receivables as “Accounts receivable pledged as collateral” and eliminates the previously recognized “Note receivable from Ferrellgas Receivables” and “Retained interest in Ferrellgas Receivables.”

Ferrellgas, L.P., through Ferrellgas Receivables, securitizes a portion of its trade accounts receivable through a commercial paper conduit for proceeds of up to \$145.0 million. At October 31, 2010, \$122.1 million of trade accounts receivable were pledged as collateral against \$66.0 million of collateralized notes payable due to the commercial paper conduit. These accounts receivable pledged as collateral are bankruptcy remote from Ferrellgas, L.P. Ferrellgas, L.P. does not provide any guarantee or similar support to the collectability of these accounts receivable pledged as collateral.

Ferrellgas, L.P. structured Ferrellgas Receivables in order to facilitate securitization transactions while complying with Ferrellgas, L.P.’s various debt covenants. If the covenants were compromised, funding from the facility could be restricted or suspended, or its costs could increase. As of October 31, 2010, Ferrellgas, L.P. had received proceeds from trade accounts receivables securitized of \$66.0 million with the ability to receive proceeds of an additional \$6.0 million.

E. Debt

Short-term borrowings

Ferrellgas, L.P. classified a portion of its credit facility borrowings as short-term because it was used to fund working capital needs that management had intended to pay down within the 12 month period following each balance sheet date. As of October 31, 2010 and July 31, 2010, \$90.5 million and \$67.2 million, respectively, were classified as short-term borrowings. For further discussion see the secured credit facility section below.

Long-term debt

Long-term debt consists of the following:

	October 31, 2010	July 31, 2010
Senior notes		
Fixed rate, 6.75% due 2014, net of unamortized discount of \$20,781 and \$21,974 at October 31, 2010 and July 31, 2010, respectively	\$ 429,219	\$ 428,026
Fixed rate, 9.125%, due 2017, net of unamortized discount of \$3,774 and \$3,870 at October 31, 2010 and July 31, 2010, respectively	296,226	296,130
Secured credit facility , variable interest rate, expiring 2012 (net of \$90.5 million and \$67.2 million classified as short-term borrowings at October 31, 2010 and July 31, 2010, respectively)	109,818	99,797
Notes payable , 9.4% and 9.5% weighted average interest rate at October 31, 2010 and July 31, 2010, respectively, due 2011 to 2016, net of unamortized discount of \$2,863 and \$2,876 at October 31, 2010 and July 31, 2010, respectively	9,282	9,475
	844,545	833,428
Less: current portion, included in other current liabilities on the condensed consolidated balance sheets	2,641	2,340
Long-term debt	<u>\$ 841,904</u>	<u>\$ 831,088</u>

Senior notes

See Note J — Subsequent events for discussion of a new long term debt issuance.

Secured credit facility

Ferrellgas, L.P.'s secured credit facility provides \$400.0 million in revolving credit for loans and has a \$200.0 million sublimit for letters of credit. This credit facility matures in November 2012.

The credit facility contains various affirmative and negative covenants and default provisions, as well as requirements with respect to the maintenance of specified financial ratios and limitations on the making of loans and investments.

As of October 31, 2010, Ferrellgas, L.P. had total borrowings outstanding under its credit facility of \$200.3 million, of which \$109.8 million was classified as long-term debt. As of July 31, 2010, Ferrellgas, L.P. had total borrowings outstanding under its credit facility of \$167.0 million, of which \$99.8 million was classified as long-term debt.

Borrowings under the credit facility had a weighted average interest rate of 4.31% at October 31, 2010. All borrowings under the credit facility bear interest, at Ferrellgas, L.P.'s option, at a rate equal to either:

- for Base Rate Loans or Swing Line Loans, the Base Rate, which is defined as the higher of i) the federal funds rate plus 0.50%, ii) Bank of America's prime rate; or iii) the Eurodollar Rate plus 1%; plus a margin varying from 2.50% to 3.25% (as of October 31, 2010, the margin was 2.75%); or
- for Eurodollar Rate Loans, the Eurodollar Rate, which is defined as the LIBOR Rate plus a margin varying from 3.50% to 4.25% (as of October 31, 2010, the margin was 3.75%).

[Table of Contents](#)

As of October 31, 2010, the federal funds rate and Bank of America's prime rate were 0.20% and 3.25%, respectively. As of October 31, 2010, the one-month and three-month Eurodollar Rates were 0.33% and 0.40%, respectively.

In addition, an annual commitment fee is payable at a per annum rate of 0.50% times the actual daily amount by which the facility exceeds the sum of (i) the outstanding amount of revolving credit loans and (ii) the outstanding amount of letter of credit obligations.

The obligations under this credit facility are secured by substantially all assets of Ferrellgas, L.P., the general partner and certain subsidiaries of Ferrellgas, L.P. but specifically excluding (a) assets that are subject to Ferrellgas, L.P.'s accounts receivable securitization facility, (b) the general partner's equity interest in Ferrellgas Partners and (c) equity interest in certain unrestricted subsidiaries. Such obligations are also guaranteed by the general partner and certain subsidiaries of Ferrellgas, L.P.

Letters of credit outstanding at October 31, 2010 totaled \$49.9 million and were used primarily to secure insurance arrangements and to a lesser extent, product purchases. Letters of credit outstanding at July 31, 2010 totaled \$47.1 million and were used primarily to secure insurance arrangements and to a lesser extent, product purchases. At October 31, 2010, Ferrellgas, L.P. had available letter of credit remaining capacity of \$149.8 million. At July 31, 2010, Ferrellgas, L.P. had available letter of credit remaining capacity of \$152.9 million.

The scheduled annual principal payments on long-term debt are as follows:

<u>For the year ended July 31,</u>	<u>Scheduled annual principal payments</u>
2011	\$ 31,405
2012	2,394
2013	32,101

2014	1,747
2015	1,760
Thereafter	802,556
Total	<u>\$ 871,963</u>

See Note J — Subsequent events for discussion about the effect of equity and debt issuances and senior note and credit facility repayments after October 31, 2010 on scheduled annual principal payments.

F. Partners' capital

Partnership contributions

During October 2010, Ferrellgas, L.P. received asset contributions of \$1.6 million in connection with the acquisition of propane distribution assets. The general partner contributed \$20 thousand to Ferrellgas, L.P. to maintain its 1.0101% general partner interest in connection with all common unit issuances.

Partnership distributions paid

Ferrellgas, L.P. has paid the following distributions:

27

[Table of Contents](#)

	For the three months ended October 31,	
	2010	2009
Ferrellgas Partners	\$ 35,125	\$ 34,463
General partner	359	352
	<u>\$ 35,484</u>	<u>\$ 34,815</u>

On November 19, 2010, Ferrellgas, L.P. declared distributions for the three months ended October 31, 2010 to Ferrellgas Partners and the general partner of \$47.8 million and \$0.5 million, respectively, which is expected to be paid on December 15, 2010.

See additional discussions about transactions with related parties in Note H — Transactions with related parties.

Other comprehensive income ("OCI")

See Note G — Derivatives — for details regarding changes in fair value on risk management financial derivatives recorded within OCI for the three months ended October 31, 2010.

General partner's commitment to maintain its capital account

Ferrellgas, L.P.'s partnership agreement allows the general partner to have an option to maintain its 1.0101% general partner interest concurrent with the issuance of other additional equity.

The general partner made noncash contributions totaling \$35 thousand to Ferrellgas, L.P. to maintain its 1.0101% general partner interest in connection with employee stock ownership and stock-based compensation charges.

G. Derivatives

Commodity Price Risk Management

Ferrellgas, L.P.'s risk management activities primarily attempt to mitigate price risks related to the purchase, storage, transport and sale of propane generally in the contract and spot markets from major domestic energy companies on a short-term basis. Ferrellgas, L.P. attempts to mitigate these price risks through the use of financial derivative instruments and forward propane purchase and sales contracts.

Ferrellgas, L.P.'s risk management strategy involves taking positions in the forward or financial markets that are equal and opposite to Ferrellgas, L.P.'s positions in the physical products market in order to minimize the risk of financial loss from an adverse price change. This risk management strategy is successful when Ferrellgas, L.P.'s gains or losses in the physical product markets are offset by its losses or gains in the forward or financial markets. These financial derivatives are designated as cash flow hedges.

Ferrellgas, L.P.'s risk management activities include the use of financial derivative instruments including, but not limited to, price swaps, options, futures and basis swaps to seek protection from adverse price movements and to minimize potential losses. Ferrellgas, L.P. enters into these financial derivative instruments directly with third parties in the over-the-counter market and with brokers who are clearing members with the New York Mercantile Exchange. Ferrellgas, L.P. also enters into forward propane purchase and sales contracts with counterparties. These forward contracts qualify for the normal purchase normal sales exception within GAAP guidance and are therefore not recorded by Ferrellgas, L.P. prior to settlement on its financial statements.

28

[Table of Contents](#)

Cash Flow Hedging Activity

Ferrellgas, L.P. uses financial derivative instruments for risk management purposes to hedge a portion of its exposure to market fluctuations in propane prices. These financial derivative instruments are designated as cash flow hedging instruments, thus the effective portions of changes in the fair value of the financial derivatives are recorded in OCI prior to settlement and are subsequently recognized in the condensed consolidated statements of earnings in "Cost of product sold — propane and other gas liquids sales" when the forward or forecasted propane sales transaction impacts earnings. The effectiveness of cash flow hedges is evaluated at inception and on an on-going basis. Changes in the fair value of cash flow hedges due to hedge ineffectiveness, if any, are recognized in "Cost of product sold — propane and other gas liquids sales." During the three months ended October 31, 2010 and 2009, Ferrellgas, L.P. did not recognize any gain or loss in earnings related to hedge ineffectiveness and did not exclude any component of the financial derivative contract gain or loss from the assessment of hedge effectiveness related to these cash flow hedges.

The fair value of the financial derivative instruments below are included within "Prepaid expenses and other current assets" and "Other current liabilities" on the condensed consolidated balance sheets:

	October 31, 2010	July 31, 2010
Derivatives — Price risk management assets	\$ 4,772	\$ 1,882
Derivatives — Price risk management liabilities	510	2,039

Ferrellgas, L.P. had the following cash flow hedge activity included in OCI in the condensed consolidated statement of partners' capital:

	For the three months ended October 31,	
	2010	2009
Fair value gain adjustment classified as OCI with offset in Price risk management assets and Price risk management liabilities	\$ 5,002	\$ 7,083
Reclassification of net gains originally recorded within OCI to Cost of product sold — propane and other gas liquids	583	70

Ferrellgas, L.P. expects to reclassify net gains of approximately \$3.8 million to earnings during the next 12 months. These net gains are expected to be offset by margins on propane sales commitments Ferrellgas, L.P. has with its customers that qualify for the normal purchase normal sales exception.

During the three months ended October 31, 2010 and 2009, Ferrellgas, L.P. had no reclassifications to earnings resulting from discontinuance of any cash flow hedges arising from the probability of the original forecasted transactions not occurring within the originally specified period of time defined within the hedging relationship.

As of October 31, 2010, Ferrellgas, L.P. had financial derivative contracts covering 1.1 million barrels of propane that were entered into as cash flow hedges of forward and forecasted purchases of propane.

During the three months ended October 31, 2010 and 2009, four counterparties represented 95% and 76%, respectively, of net settled cash flow hedging positions reported in "Cost of product sold — propane and other gas liquids sales." During the three months ended October 31, 2010 and 2009, Ferrellgas, L.P. neither held nor entered into financial derivative contracts that contained credit risk related contingency features.

In accordance with GAAP, Ferrellgas, L.P. determines the fair value of its assets and liabilities subject to fair value measurement by using the highest possible "Level" as defined within the GAAP hierarchy.

[Table of Contents](#)

The three levels defined by the GAAP hierarchy are as follows:

- Level 1 — Quoted prices available in active markets for identical assets or liabilities.
- Level 2 — Pricing inputs not quoted in active markets but either directly or indirectly observable.
- Level 3 — Significant inputs to pricing that have little or no transparency with inputs requiring significant management judgment or estimation.

Ferrellgas, L.P. considers over-the-counter derivative instruments entered into directly with third parties as Level 2 valuation since the values of these derivatives are quoted by third party brokers and are on an exchange for similar transactions. The market prices used to value Ferrellgas, L.P.'s derivatives have been determined using independent third party prices, readily available market information, broker quotes, and appropriate valuation techniques.

At October 31, 2010 and July 31, 2010, all derivative assets and liabilities qualified for classification as Level 2 - other observable inputs as defined by the GAAP hierarchy. All financial derivatives assets and liabilities were non-trading positions.

H. Transactions with related parties

General partner

Ferrellgas, L.P. has no employees and is managed and controlled by its general partner. Pursuant to Ferrellgas, L.P.'s partnership agreement, the general partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on behalf of Ferrellgas, L.P., and all other necessary or appropriate expenses allocable to Ferrellgas, L.P. or otherwise reasonably incurred by its general partner in connection with operating Ferrellgas, L.P.'s business. These costs primarily include compensation and benefits paid to employees of the general partner who perform services on Ferrellgas, L.P.'s behalf and are reported in the condensed consolidated statements of earnings as follows:

	For the three months ended October 31,	
	2010	2009
Operating expense	\$ 50,011	\$ 53,311

See additional discussions about transactions with the general partner and related parties in Note F — Partners' capital.

Board of Directors

Elizabeth Solberg, a member of the general partner's Board of Directors, serves as the General Manager of Fleishman—Hillard Inc. During the three months ended October 31, 2010 and 2009, Ferrellgas, L.P. paid Fleishman-Hillard Inc. \$33 thousand and \$42 thousand, respectively for marketing and communications services.

I. Contingencies

Ferrellgas, L.P.'s operations are subject to all operating hazards and risks normally incidental to handling, storing, transporting and otherwise providing for use by consumers of combustible liquids such as propane. As a result, at any given time, Ferrellgas, L.P. is threatened with or named as a defendant in various lawsuits arising in the ordinary course of business. Other than as discussed below, Ferrellgas, L.P. is not a party to any legal proceedings other than various claims and lawsuits arising in the ordinary course of business. It is not possible to determine the ultimate disposition of these matters; however, management is of the opinion that there are no known claims or contingent

[Table of Contents](#)

claims that are reasonably expected to have a material adverse effect on the financial condition, results of operations and cash flows of Ferrellgas, L.P.

Ferrellgas, L.P. has been named as a defendant in lawsuits filed in multiple federal and state courts that seek to certify nationwide or statewide classes related to its Blue Rhino branded propane tank exchange activities. The plaintiffs in each case generally allege that Ferrellgas, L.P. failed to inform consumers of the amount of propane contained in propane tanks they purchased and that Ferrellgas, L.P. violated anti-trust laws by allegedly conspiring with a competitor. The federal cases have been coordinated for multidistrict treatment in the United States District Court for the Western District of Missouri. Based on Ferrellgas, L.P.'s business and consumer notification practices in its Blue Rhino tank exchange operations, Ferrellgas, L.P. believes that all of these claims are without merit and intends to defend the claims vigorously.

Ferrellgas, L.P. has also been named as a defendant in a class action lawsuit filed in the United States District Court in Kansas. The complaint alleges that Ferrellgas, L.P. violates consumer protection laws in the manner Ferrellgas, L.P. sets prices and fees for its customers. Based on Ferrellgas, L.P.'s business practices, Ferrellgas, L.P. believes that the claims are without merit and intends to defend the claims vigorously.

J. Subsequent events

Ferrellgas, L.P. has evaluated events and transactions occurring after the balance sheet date through the date Ferrellgas, L.P.'s condensed consolidated financial statements were issued, and concluded that, other than the events discussed below, there were no events or transactions occurring during this period that required recognition or disclosure in its financial statements.

During November 2010, Ferrellgas, L.P. issued \$500.0 million in aggregate principal amount of new 6.50% senior notes due 2021 at an offering price equal to par. Ferrellgas, L.P. received \$491.3 million of net proceeds after deducting initial purchase discounts and estimated expenses of the offering. Ferrellgas, L.P. applied the net proceeds to a cash tender offer to purchase any and all of its \$450.0 million 6.75% fixed rate senior notes due May 1, 2014 and to redeem any such notes that remain outstanding after November 30, 2010. As of November 30, 2010, Ferrellgas, L.P. had purchased \$368.6 million of the senior notes pursuant to the cash tender offer. Ferrellgas, L.P. used the remaining proceeds to reduce outstanding indebtedness under the credit facility by \$111.9 million and to pay the related make whole and interest payments of \$10.8 million. Ferrellgas, L.P. then issued an irrevocable notice to redeem prior to the end of December 2010 the remaining \$81.4 million outstanding principal amount of the 6.75% senior notes due 2014 and their related make-whole payments.

During November 2010, Ferrellgas, L.P. entered into an agreement with an institutional investor relating to a non-brokered registered direct offering of 1.2 million common units. Net proceeds of approximately \$30.0 million were used to reduce outstanding indebtedness under the credit facility.

NOTES TO CONDENSED FINANCIAL STATEMENTS
October 31, 2010
(unaudited)

A. Formation

Ferrellgas Finance Corp. (the "Finance Corp."), a Delaware corporation, was formed on January 16, 2003 and is a wholly-owned subsidiary of Ferrellgas, L.P. (the "Partnership").

The condensed financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the interim periods presented. All adjustments to the condensed financial statements were of a normal, recurring nature.

The Finance Corp. has nominal assets, does not conduct any operations, has no employees and serves as co-issuer and co-obligor for debt securities of the Partnership.

B. Subsequent events

During November 2010, the Partnership issued \$500.0 million in aggregate principal amount of new 6.50% senior notes due 2021 at an offering price equal to par. The Partnership received \$491.3 million of net proceeds after deducting initial purchase discounts and estimated expenses of the offering. The Partnership applied the net proceeds to a cash tender offer to purchase any and all of its \$450.0 million 6.75% fixed rate senior notes due May 1, 2014 and to redeem any such notes that remain outstanding after November 30, 2010. As of November 30, 2010, the Partnership had purchased \$368.6 million of the senior notes pursuant to the cash tender offer. The Partnership used

33

the remaining proceeds to reduce outstanding indebtedness under the credit facility by \$111.9 million and to pay the related make whole and interest payments of \$10.8 million. The Partnership then issued an irrevocable notice to redeem prior to the end of December 2010 the remaining \$81.4 million outstanding principal amount of the 6.75% senior notes due 2014 and their related make-whole payments.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Our management's discussion and analysis of financial condition and results of operations relates to Ferrellgas Partners, L.P. and Ferrellgas, L.P.

Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp. have nominal assets, do not conduct any operations and have no employees other than officers. Ferrellgas Partners Finance Corp. serves as co-issuer and co-obligor for debt securities of Ferrellgas Partners, L.P. and Ferrellgas Finance Corp. serves as co-issuer and co-obligor for debt securities of Ferrellgas, L.P. Accordingly, and due to the reduced disclosure format, a discussion of the results of operations, liquidity and capital resources of Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp. is not presented in this section.

In this Quarterly Report on Form 10-Q, unless the context indicates otherwise:

- "us," "we," "our," "ours," or "consolidated" are references exclusively to Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas Partners Finance Corp., Ferrellgas, L.P. and Ferrellgas Finance Corp., except when used in connection with "common units," in which case these terms refer to Ferrellgas Partners, L.P. without its consolidated subsidiaries;
- "Ferrellgas Partners" refers to Ferrellgas Partners, L.P. itself, without its consolidated subsidiaries;
- the "operating partnership" refers to Ferrellgas, L.P., together with its consolidated subsidiaries, including Ferrellgas Finance Corp.;
- our "general partner" refers to Ferrellgas, Inc.;
- "Ferrell Companies" refers to Ferrell Companies, Inc., the sole shareholder of our general partner;
- "unitholders" refers to holders of common units of Ferrellgas Partners;
- "customers" refers to customers other than our wholesale customers or our other bulk propane distributors or marketers;
- "retail sales" refers to Propane and other gas liquid sales: Retail — Sales to End Users or the volume of propane sold primarily to our residential, industrial/commercial and agricultural customers;
- "wholesale sales" refers to Propane and other gas liquid sales: Wholesale — Sales to Resellers or the volume of propane sold primarily to our portable tank exchange customers and bulk propane sold to wholesale customers;
- "other gas sales" refers to Propane and other gas liquid sales: Other Gas Sales or the volume of bulk propane sold to other third party propane distributors or marketers and the volume of refined fuel sold;
- "propane sales volume" refers to the volume of propane sold to our retail sales and wholesale sales customers; and
- "Notes" refers to the notes of the condensed consolidated financial statements of Ferrellgas Partners or the operating partnership, as applicable.

Ferrellgas Partners is a holding entity that conducts no operations and has two direct subsidiaries, Ferrellgas Partners Finance Corp. and the operating partnership. Ferrellgas Partners' only significant assets are its approximate 99% limited partnership interest in the operating partnership and its 100% equity interest in Ferrellgas Partners Finance Corp. The common units of Ferrellgas Partners are listed on the New York Stock Exchange and our activities are primarily conducted through the operating

partnership.

The operating partnership was formed on April 22, 1994, and accounts for substantially all of our consolidated assets, sales and operating earnings, except for interest expense related to the senior notes co-issued by Ferrellgas Partners and Ferrellgas Partners Finance Corp.

Our general partner performs all management functions for us and our subsidiaries and holds a 1% general partner interest in Ferrellgas Partners and an approximate 1% general partner interest in the operating partnership. The parent company of our general partner, Ferrell Companies, beneficially owns approximately 29% of our outstanding common units. Ferrell Companies is owned 100% by an employee stock ownership trust.

We file annual, quarterly, and other reports and information with the SEC. You may read and download our SEC filings over the Internet from several commercial document retrieval services as well as at the SEC's website at www.sec.gov. You may also read and copy our SEC filings at the SEC's Public Reference Room located at 100 F Street, NE, Washington, DC 20549. Please call the SEC at 1-800-SEC-0330 for further information concerning the Public

Reference Room and any applicable copy charges. Because our common units are traded on the New York Stock Exchange, under the ticker symbol of “FGP,” we also provide our SEC filings and particular other information to the New York Stock Exchange. You may obtain copies of these filings and such other information at the offices of the New York Stock Exchange located at 11 Wall Street, New York, New York 10005. In addition, our SEC filings are available on our website at www.ferrellgas.com at no cost as soon as reasonably practicable after our electronic filing or furnishing thereof with the SEC. Please note that any Internet addresses provided in this Quarterly Report on Form 10-Q are for informational purposes only and are not intended to be hyperlinks. Accordingly, no information found and/or provided at such Internet addresses is intended or deemed to be incorporated by reference herein.

The following is a discussion of our historical financial condition and results of operations and should be read in conjunction with our historical condensed consolidated financial statements and accompanying Notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

The discussions set forth in the “Results of Operations” and “Liquidity and Capital Resources” sections generally refer to Ferrellgas Partners and its consolidated subsidiaries. However, in these discussions there exist two material differences between Ferrellgas Partners and the operating partnership. Those material differences are:

- because Ferrellgas Partners has outstanding \$280.0 million in aggregate principal amount of 8.625% senior notes due fiscal 2020, the two partnerships incur different amounts of interest expense on their outstanding indebtedness; see the statements of earnings in their respective condensed consolidated financial statements and Note E — Debt in the respective notes to their condensed consolidated financial statements; and
- Ferrellgas Partners issued common units during both fiscal 2010 and fiscal 2011.

Overview

We are a leading distributor of propane and related equipment and supplies to customers primarily in the United States and conduct our business as a single reportable operating segment. We believe that we are the second largest retail marketer of propane in the United States as measured by the volume of our retail sales in fiscal 2010, and the largest national provider of propane by portable tank exchange.

We serve approximately one million residential, industrial/commercial, portable tank exchange, agricultural, wholesale and other customers in all 50 states, the District of Columbia and Puerto Rico. Our operations primarily include the distribution and sale of propane and related equipment and supplies with concentrations in the Midwest, Southeast, Southwest and Northwest regions of the United States. Our propane distribution business consists principally of transporting propane purchased from third parties to

[Table of Contents](#)

propane distribution locations and then to tanks on customers’ premises or to portable propane tanks delivered to nationwide and local retailers. Our portable tank exchange operations, nationally branded under the name Blue Rhino, are conducted through a network of independent and partnership-owned distribution outlets. Our market areas for our residential and agricultural customers are generally rural, but also include urban areas for industrial applications. Our market area for our industrial/commercial and portable tank exchange customers is generally urban.

In the residential and industrial/commercial markets, propane is primarily used for space heating, water heating, cooking and other propane fueled appliances. In the portable tank exchange market, propane is used primarily for outdoor cooking using gas grills. In the agricultural market, propane is primarily used for crop drying, space heating, irrigation and weed control. In addition, propane is used for a variety of industrial applications, including as an engine fuel which is burned in internal combustion engines that power vehicles and forklifts, and as a heating or energy source in manufacturing and drying processes.

The market for propane is seasonal because of increased demand during the months of November through March (the “winter heating season”) primarily for the purpose of providing heating in residential and commercial buildings. Consequently, sales and operating profits are concentrated in our second and third fiscal quarters, which are during the winter heating season. However, our propane by portable tank exchanges sales volume provides us increased operating profits during our first and fourth fiscal quarters due to its counter-seasonal business activities. These sales also provide us the ability to better utilize our seasonal resources at our propane distribution locations. Other factors affecting our results of operations include competitive conditions, volatility in energy commodity prices, demand for propane, timing of acquisitions and general economic conditions in the United States.

We use information on temperatures to understand how our results of operations are affected by temperatures that are warmer or colder than normal. We use the definition of “normal” temperatures based on information published by the National Oceanic and Atmospheric Administration (“NOAA”). Based on this information we calculate a ratio of actual heating degree days to normal heating degree days. Heating degree days are a general indicator of weather impacting propane usage.

Weather conditions have a significant impact on demand for propane for heating purposes during the winter heating season. Accordingly, the volume of propane used by our customers for this purpose is directly affected by the severity of the winter weather in the regions we serve and can vary substantially from year to year. In any given region, sustained warmer-than-normal temperatures will tend to result in reduced propane usage, while sustained colder-than-normal temperatures will tend to result in greater usage. Although there is a direct correlation between weather and customer usage, there is a natural time lag between the onset of cold weather and increased sales to customers. If the United States were to experience a cooling trend we could expect nationwide demand for propane to increase which could lead to greater sales, income and liquidity availability. Conversely, if the United States were to experience a warming trend we could expect nationwide demand for propane to decrease which could lead to a reduction in our sales, income and liquidity availability.

Our gross margin from the retail distribution of propane is primarily based on the cents-per-gallon difference between the sale price we charge our customers and our costs to purchase and deliver propane to our propane distribution locations. Our residential customers and portable tank exchange customers typically provide us a greater cents-per-gallon margin than our industrial/commercial, agricultural, wholesale and other customers. We track “Propane sales volumes,” “Revenues — Propane and other gas liquids sales” and “Gross margin — Propane and other gas liquids sales” by customer; however, we are not able to specifically allocate operating and other costs in a manner that would determine their specific profitability with a high degree of accuracy. The wholesale propane price per gallon is subject to various market conditions, including inflation, and may fluctuate based on changes in demand, supply and other energy commodity prices, primarily crude oil and natural gas, as propane prices tend to correlate with the fluctuations of these underlying commodities.

[Table of Contents](#)

storage, transport and sale of propane. We enter into propane sales commitments with a portion of our customers that provide for a contracted price agreement for a specified period of time. These commitments can expose us to product price risk if not immediately hedged with an offsetting propane purchase commitment.

Our open financial derivative purchase commitments are designated as hedges primarily for fiscal 2011 sales commitments and, as of October 31, 2010, have experienced net mark to market gains of approximately \$4.3 million. Because these financial derivative purchase commitments qualify for hedge accounting treatment, the resulting asset, liability and related mark to market gains or losses are recorded on the condensed consolidated balance sheets as "Prepaid expenses and other current assets," "Other current liabilities" and "Accumulated other comprehensive income (loss)," respectively, until settled. Upon settlement, realized gains or losses on these contracts will be reclassified to "Cost of product sold-propane and other gas liquid sales" in the condensed consolidated statements of earnings. These financial derivative purchase commitment net gains are expected to be offset by reduced margins on propane sales commitments that qualify for the normal purchase normal sale exception. At October 31, 2010 we estimate 89% of currently open financial derivative purchase commitments, the related propane sales commitments, and the resulting gross margin will be realized into earnings during the next twelve months.

Our business strategy is to:

- expand our operations through disciplined acquisitions and internal growth;
- capitalize on our national presence and economies of scale;
- maximize operating efficiencies through utilization of our technology platform; and
- align employee interests with our investors through significant employee ownership.

Forward-looking Statements

Statements included in this report include forward-looking statements. These forward-looking statements are identified as any statement that does not relate strictly to historical or current facts. These statements often use words such as "anticipate," "believe," "intend," "plan," "projection," "forecast," "strategy," "position," "continue," "estimate," "expect," "may," "will," or the negative of those terms or other variations of them or comparable terminology. These statements often discuss plans, strategies, events or developments that we expect or anticipate will or may occur in the future and are based upon the beliefs and assumptions of our management and on the information currently available to them. In particular, statements, express or implied, concerning our future operating results or our ability to generate sales, income or cash flow are forward-looking statements.

Forward-looking statements are not guarantees of performance. You should not put undue reliance on any forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions that could cause our actual results to differ materially from those expressed in or implied by these forward-looking statements. Many of the factors that will affect our future results are beyond our ability to control or predict.

Some of our forward-looking statements include the following:

- whether the operating partnership will have sufficient funds to meet its obligations, including its obligations under its debt securities, and to enable it to distribute to Ferrellgas Partners sufficient funds to permit Ferrellgas Partners to meet its obligations with respect to its existing debt and equity securities; and
- whether Ferrellgas Partners and the operating partnership will continue to meet all of the quarterly financial tests required by the agreements governing their indebtedness.

When considering any forward-looking statement, you should also keep in mind the risk factors set forth in the section in our Annual Report on Form 10-K for our fiscal 2010 entitled, "Item 1A. Risk Factors."

[Table of Contents](#)

Any of these risks could impair our business, financial condition or results of operations. Any such impairment may affect our ability to make distributions to our unitholders or pay interest on the principal of any of our debt securities. In addition, the trading price, if any, of our securities could decline as a result of any such impairment.

Except for our ongoing obligations to disclose material information as required by federal securities laws, we undertake no obligation to update any forward-looking statements or risk factors after the date of this Quarterly Report on Form 10-Q.

In addition, the classification of Ferrellgas Partners and the operating partnership as partnerships for federal income tax purposes means that we do not generally pay federal income taxes. We do, however, pay taxes on the income of our subsidiaries that are corporations. We rely on a legal opinion from our counsel, and not a ruling from the Internal Revenue Service, as to our proper classification for federal income tax purposes. See the section in our Annual Report on Form 10-K for our fiscal 2010 entitled, "Item 1A. Risk Factors — Tax Risks." The IRS could treat us as a corporation for tax purposes or changes in federal or state laws could subject us to entity-level taxation, which would substantially reduce the cash available for distribution to our unitholders.

Results of Operations

Three months ended October 31, 2010 compared to October 31, 2009

(amounts in thousands)			Favorable (Unfavorable) Variance
Three months ended October 31,	2010	2009	

Propane sales volumes (gallons):

Other income (expense), net	(178)	(307)
Net loss attributable to noncontrolling interest	(222)	(272)
Adjusted EBITDA	<u>\$ 21,552</u>	<u>\$ 33,279</u>

Propane sales volumes during the three months ended October 31, 2010 decreased 11.2 million gallons from that of the prior year period due primarily to 11.9 million of decreased gallon sales to our retail customers.

Retail sales volumes decreased primarily due to the impact of weather in the more highly concentrated geographic areas we serve that was approximately 27% warmer than that of the prior year period.

The wholesale market price at one of the major supply points, Mt. Belvieu, Texas, during the three months ended October 31, 2010, averaged 20% more than the prior year period. The wholesale market price averaged \$1.14 and \$0.95 per gallon during the three months ended October 31, 2010 and 2009, respectively.

Revenues - - Propane and other gas liquids sales

Retail sales increased \$16.2 million compared to the prior year period. This increase resulted primarily from a \$34.7 million increase in sales price per gallon which was driven by the increase in the wholesale market price of propane as discussed above, partially offset by a \$21.7 million decrease due primarily to lower propane sales volumes, as discussed above.

Wholesale sales increased \$9.2 million compared to the prior year period. This increase resulted primarily from a \$7.8 million increase in sales price per gallon which was driven by the increase in the wholesale market price of propane as discussed above.

Other gas sales increased \$15.5 million compared to the prior year period. This increase resulted primarily from an \$11.3 million increase due to higher propane sales volumes and a \$6.1 million increase in sales price per gallon.

[Table of Contents](#)

Gross margin - Propane and other gas liquids sales

Retail sales gross margin decreased \$10.2 million compared to the prior year period. This decrease resulted from an \$8.6 million decrease in propane sales volumes as discussed above and a \$2.6 million decrease in gross margin per gallon.

Wholesale sales gross margin decreased \$4.2 million compared to the prior year period. This decrease resulted primarily from a \$4.9 million decrease in gross margin per gallon.

Adjusted EBITDA

Adjusted EBITDA decreased \$11.7 million compared to the prior year period primarily due to a \$14.6 million decrease in gross margin from "Gross margin: Propane and other gas liquids sales" as discussed above, which was somewhat offset by a \$1.4 million decrease in "General and administrative expense" and a \$0.9 million decrease in "Operating expense". General and administrative expense decreased primarily due to a decrease of \$1.5 million of performance based incentive expense. Operating expense decreased primarily due to a \$1.9 million decrease in performance based incentive expense, partially offset by \$0.9 million of increased fuel costs.

Operating income (loss)

Operating income (loss) decreased \$8.4 million compared to the prior year period primarily due to the \$11.7 million decrease in "Adjusted EBITDA" as discussed above," partially offset by a \$1.9 million decrease in "Loss (gain) on disposal of assets and other" and a decrease of \$1.7 million in non-cash stock option issuance expense allocated from Ferrell Companies.

"Loss (gain) on disposal of assets and other" decreased \$1.1 million due to the timing of asset disposals and write-offs and \$0.8 million due to a change in accounting principle which requires us, on a prospective basis, to no longer disclose accounts receivable securitization facility income and expense as "Loss on transfer of accounts receivable related to the accounts receivable securitization" or "Service income related to the accounts receivable securitization."

Interest expense - consolidated

Interest expense increased \$4.2 million primarily due to a \$1.5 million increase due to the issuance of new senior debt at higher interest rates than the senior debt it retired, a \$1.1 million increase due to the amortization of new debt issuance costs, and a \$0.6 million increase due to a change in accounting principle which requires us to, on a prospective basis, disclose fees associated with our accounts receivable securitization facility as interest expense.

Interest expense - operating partnership

Interest expense increased \$3.9 million primarily due to a \$1.9 million increase due to the issuance of new senior debt at higher interest rates than the senior debt it retired, a \$1.0 million increase due to the amortization of new debt issuance costs, and a \$0.6 million increase due to a change in accounting principle which requires us to, on a prospective basis, disclose fees associated with our accounts receivable securitization facility as interest expense.

Loss on extinguishment of debt

During October 2009, we prepaid the outstanding principal amount on our \$82.0 million 7.24% series D notes due August 1, 2010 and our \$70.0 million 7.42% series E notes due August 1, 2013, incurring a "Loss on extinguishment of debt" of \$17.3 million.

[Table of Contents](#)

Liquidity and Capital Resources

General

Our liquidity and capital resources enable us to fund our working capital requirements, letter of credit requirements, debt service payments, acquisition and capital expenditures and distributions to our unitholders. Our liquidity may be affected by an inability to access the capital markets or by unforeseen demands on cash, or other events beyond our control, such as the general market disruption experienced during fiscal 2009. We believe a return of the general market disruption discussed above could limit our future access to capital markets or to access those markets at rates acceptable to us. Conversely, if general market conditions were to continue improving, we would expect our access to capital markets and rates associated with those markets to continue toward normal as well.

During November 2010, we issued \$500.0 million in aggregate principal amount of new 6.50% senior notes due 2021 at an offering price equal to par. We received \$491.3 million of net proceeds after deducting initial purchase discounts and estimated expenses of the offering. We applied the net proceeds to a cash tender offer to purchase any and all of our \$450.0 million 6.75% fixed rate senior notes due May 1, 2014 and to redeem any such notes that remain outstanding after November 30, 2010. As of November 30, 2010, we had purchased \$368.6 million of the senior notes pursuant to the cash tender offer. We

used the remaining proceeds to reduce outstanding indebtedness under the credit facility by \$111.9 million and to pay the related make whole and interest payments of \$10.8 million. We then issued an irrevocable notice to redeem prior to the end of December 2010 the remaining \$81.4 million outstanding principal amount of the 6.75% senior notes due 2014 and their related make-whole payments. Additionally, we issued \$30.0 million of common units for which the proceeds were used to reduce outstanding indebtedness under the credit facility. With these financings and the application of the proceeds, we will have addressed all of our significant outstanding public debt maturities through 2017 and increased our liquidity to finance ongoing business strategies. Furthermore, our only interest rate sensitive financing will be borrowings on our \$400.0 million revolving credit facility and our accounts receivable securitization facility scheduled to expire in 2012 and 2013, respectively.

Currently, we believe we will continue to have sufficient access to capital markets at yields acceptable to us to support our expected growth expenditures and refinancing of debt maturities. Our disciplined approach to fund necessary capital spending and other partnership needs, combined with sufficient trade credit to operate our business efficiently and available credit under our secured credit facility and our accounts receivable securitization facility should provide us the means to meet our anticipated liquidity and capital resource requirements.

During periods of high volatility our risk management activities may expose us to the risk of counterparty margin calls in amounts greater than we have the capacity to fund. Likewise our counterparties may not be able to fulfill their margin calls from us or may default on the settlement of positions with us.

Our working capital requirements are subject to, among other things, the price of propane, delays in the collection of receivables, volatility in energy commodity prices, liquidity imposed by insurance providers, downgrades in our credit ratings, decreased trade credit, significant acquisitions, the weather and other changes in the demand for propane. Relatively colder weather or higher propane prices during the winter heating season are factors that could significantly increase our working capital requirements.

Our ability to satisfy our obligations is dependent upon our future performance, which will be subject to prevailing economic, financial, business and weather conditions and other factors, many of which are beyond our control. Due to the seasonality of the retail propane distribution business, a significant portion of our cash flow from operations is generated during the winter heating season. Our net cash provided by operating activities primarily reflects earnings from our business activities adjusted for depreciation and amortization and changes in our working capital accounts. Historically, we generate significantly lower net cash from operating activities in our first and fourth fiscal quarters as compared to the second and third fiscal quarters due to the seasonality of our business. Subject to meeting the financial tests discussed below, our general partner believes that the operating partnership will have sufficient funds available to meet its obligations, and to distribute to Ferrellgas Partners sufficient funds to permit Ferrellgas Partners

[Table of Contents](#)

to meet its obligations in the remainder of fiscal 2011.

Subject to the risk factors identified in “Item 1A. Risk Factors” of our Annual Report on Form 10-K, our general partner believes the operating partnership will have sufficient funds in the remainder of fiscal 2011 available to distribute to Ferrellgas Partners sufficient cash to pay the minimum quarterly distribution on all of its common units. A quarterly distribution of \$0.50 is expected to be paid on December 15, 2010, to all common units that were outstanding on December 8, 2010. This represents the sixty-fifth consecutive minimum quarterly distribution paid to our common unitholders dating back to October 1994.

Our secured credit facility, public debt, private debt and accounts receivable securitization facility contain several financial tests and covenants restricting our ability to pay distributions, incur debt and engage in certain other business transactions. In general, these tests are based on our debt-to-cash flow ratio and cash flow-to-interest expense ratio. Our general partner currently believes that the most restrictive of these tests are debt incurrence limitations under the terms of our credit and accounts receivable securitization facilities and limitations on the payment of distributions within our 8.625% senior notes due 2020. The credit and accounts receivable securitization facilities generally limit the operating partnership’s ability to incur debt if it exceeds prescribed ratios of either debt to cash flow or cash flow to interest expense. Our 8.625% senior notes restrict payments if a minimum ratio of cash flow to interest expense is not met, assuming certain exceptions to this ratio limit have previously been exhausted. This restriction places limitations on our ability to make restricted payments such as the payment of cash distributions to our unitholders. The cash flow used to determine these financial tests generally is based upon our most recent cash flow performance giving pro forma effect for acquisitions and divestitures made during the test period. Our secured credit facility, public debt, private debt and accounts receivable securitization facility do not contain early repayment provisions related to a potential decline in our credit rating.

As of October 31, 2010, we met all of our required quarterly financial tests and covenants. Based upon current estimates of our cash flow, our general partner believes that we will be able to continue to meet all of our required quarterly financial tests and covenants during the remainder of fiscal 2011. However, we may not meet the applicable financial tests in future quarters if we were to experience:

- significantly warmer than normal winter temperatures;
- a continued volatile energy commodity cost environment;
- an unexpected downturn in business operations;
- a change in customer purchasing patterns due to economic factors in the United States; or
- a material downturn in the credit and/or equity markets.

Failure to meet applicable financial tests could have a materially adverse effect on our operating capacity and cash flows and could restrict our ability to incur debt or to make cash distributions to our unitholders, even if sufficient funds were available. Depending on the circumstances, we may consider alternatives to permit the incurrence of debt or the continued payment of the quarterly cash distribution to our unitholders. No assurances can be given, however, that such alternatives can or will be implemented with respect to any given quarter.

We expect our future capital expenditures and working capital needs to be provided by a combination of cash generated from future operations, existing cash balances, the secured credit facility or the accounts receivable securitization facility. See additional information about the accounts receivable securitization facility in “Financing Activities — Accounts receivable securitization.” In order to reduce existing indebtedness, fund future acquisitions and expansive capital projects, we may obtain funds from our facilities, we may issue additional debt to the extent permitted under existing financing arrangements or we may issue additional equity securities, including, among others, common units.

Toward this purpose, the following registration statements were effective upon filing or declared effective by the SEC:

[Table of Contents](#)

- a shelf registration statement for the periodic sale of up to \$750.0 million in common units, debt securities and/or other securities; Ferrellgas Partners Finance Corp. may, at our election, be the co-issuer and co-obligor on any debt securities issued by Ferrellgas Partners under this shelf registration statement; as of November 30, 2010, we had \$420.0 million available under this shelf registration statement; and
- an “acquisition” shelf registration statement for the periodic sale of up to \$250.0 million in common units to fund acquisitions; as of November 30, 2010, we had \$229.9 million available under this shelf agreement.

Operating Activities

Net cash used in operating activities was \$6.5 million for the three months ended October 31, 2010, compared to net cash used in operating activities of \$12.0 million for the prior year period. This decrease in cash used in operating activities was primarily due to a \$14.1 million decrease in working capital requirements and a \$2.5 million increase in cash flow from operations which were partially offset by an \$11.0 million decrease in net funding from our accounts receivable securitization facility.

The decrease in working capital requirements was primarily due to \$33.9 million from the timing of inventory purchases and exchanges. These decreases in working capital requirements were somewhat offset by \$9.0 million due to the impact of weather on sales volumes as well as the timing of billings and collections on accounts receivable, \$7.5 million due to the timing of accounts payable disbursements and \$5.2 million due to the timing of deposits made toward the purchase of propane appliances.

The increase in cash flow from operations is primarily due to \$17.3 of loss on extinguishment of debt paid in the prior year period that was not repeated in the current year period, which was somewhat offset by a \$14.6 million decrease in gross margin from propane and other gas liquids sales primarily due to decreased sales volumes.

The \$11.0 million decrease in net funding from our accounts receivable securitization facility is due to a change in accounting principle which requires us to, on a prospective basis, disclose cash flows related to the accounts receivable securitization facility as “net additions to collateralized short-term borrowings” in the “Cash flows from financing activities” section of the condensed consolidated statements of cash flows.

The operating partnership

Net cash used in operating activities was \$6.5 million for the three months ended October 31, 2010, compared to net cash used in operating activities of \$11.9 million for the prior year period. This decrease in cash used in operating activities was primarily due to a \$14.0 million decrease in working capital requirements and a \$2.6 million increase in cash flow from operations which were partially offset by an \$11.0 million decrease in net funding from our accounts receivable securitization facility.

The decrease in working capital requirements was primarily due to \$33.9 million from the timing of inventory purchases and exchanges. These decreases in working capital requirements were somewhat offset by \$9.0 million due to the impact of weather on sales volumes as well as the timing of billings and collections on accounts receivable, \$7.5 million due to the timing of accounts payable disbursements and \$5.2 million due to the timing of deposits made toward the purchase of propane appliances.

The increase in cash flow from operations is primarily due to \$17.3 of loss on extinguishment of debt paid in the prior year period that were not repeated in the current year period, which was somewhat offset by a \$14.6 million decrease in gross margin from propane and other gas liquids sales primarily due to decreased sales volumes.

The \$11.0 million decrease in net funding from our accounts receivable securitization facility is due to a change in accounting principle which requires us to, on a prospective basis, disclose cash flows related to the accounts receivable securitization facility as net additions to collateralized short-term borrowings in

[Table of Contents](#)

the “Cash flows from financing activities” section of the condensed consolidated statements of cash flows.

Investing Activities

Net cash used in investing activities was \$11.3 million for the three months ended October 31, 2010, compared to net cash used in investing activities of \$53.3 million for the prior year period. This decrease in net cash used in investing activities is primarily due to a \$34.5 million decrease in capital expenditures related to the acquisition of propane distribution assets and a \$6.5 million decrease in growth and maintenance capital expenditures.

Financing Activities

Net cash provided by financing activities was \$16.0 million for the three months ended October 31, 2010, compared to net cash provided by financing activities of \$68.4 million for the prior year period. The decrease in net cash provided by financing activities was primarily due to a \$40.0 million net decrease in long-term borrowings, a \$20.0 million decrease in proceeds from equity offerings and a \$17.6 million decrease in short term borrowings to fund working capital requirements. These cash decreases were somewhat offset by a \$19.0 million increase in net additions to collateralized short-term borrowings due to a change in accounting principle which requires us to, on a prospective basis, no longer disclose cash flows related to the accounts receivable securitization facility as “Accounts receivable securitization” in the “Cash flows from operating activities” section of the condensed consolidated statements of cash flows and a \$7.0 million decrease in cash used to fund transaction costs.

Distributions

Ferrellgas Partners paid a \$0.50 per unit quarterly distribution on all common units, as well as the related general partner distributions, totaling \$35.1 million during the three months ended October 31, 2010 in connection with the distributions declared for the three months ended July 31, 2010. The quarterly distribution on all common units and the related general partner distributions for the three months ended October 31, 2010 of \$35.8 million is expected to be paid on December 15, 2010 to holders of record on December 8, 2010.

Secured credit facility

Our secured credit facility provides \$400.0 million in revolving credit for loans and has a \$200.0 million sublimit for letters of credit. This credit facility matures in November 2012.

The credit facility contains various affirmative and negative covenants and default provisions, as well as requirements with respect to the maintenance of specified financial ratios and limitations on the making of loans and investments.

As of October 31, 2010, we had total borrowings outstanding under this credit facility of \$200.3 million, of which \$109.8 million was classified as long-term debt.

Borrowings under the credit facility had a weighted average interest rate of 4.31% at October 31, 2010. All borrowings under the credit facility bear interest, at our option, at a rate equal to either:

- for Base Rate Loans or Swing Line Loans, the Base Rate, which is defined as the higher of i) the federal funds rate plus 0.50%, ii) Bank of America's prime rate; or iii) the Eurodollar Rate plus 1%; plus a margin varying from 2.50% to 3.25% (as of October 31, 2010, the margin was 2.75%); or
- for Eurodollar Rate Loans, the Eurodollar Rate, which is defined as the LIBOR Rate plus a margin varying from 3.50% to 4.25% (as of October 31, 2010, the margin was 3.75%).

As of October 31, 2010, the federal funds rate and Bank of America's prime rate were 0.20% and 3.25%, respectively. As of October 31, 2010, the one-month and three-month Eurodollar Rates were

[Table of Contents](#)

0.33% and 0.40%, respectively.

An annual commitment fee is payable at a per annum rate of 0.50% times the actual daily amount by which the facility exceeds the sum of (i) the outstanding amount of revolving credit loans and (ii) the outstanding amount of letter of credit obligations.

The obligations under this credit facility are secured by substantially all assets of the operating partnership, the general partner and certain subsidiaries of the operating partnership but specifically excluding (a) assets that are subject to the operating partnership's accounts receivable securitization facility, (b) the general partner's equity interest in Ferrellgas Partners and (c) equity interest in certain unrestricted subsidiaries. Such obligations are also guaranteed by the general partner and certain subsidiaries of the operating partnership.

Letters of credit outstanding at October 31, 2010 totaled \$49.9 million and were used primarily to secure insurance arrangements and to a lesser extent, product purchases. At October 31, 2010, we had available letter of credit remaining capacity of \$149.8 million.

All standby letter of credit commitments under our credit facility bear a per annum rate varying from 3.5% to 4.25% (as of October 31, 2010, the rate was 3.75%) times the daily maximum amount available to be drawn under such letter of credit. Letter of credit fees are computed on a quarterly basis in arrears.

Accounts receivable securitization

In June 2009, the Financial Accounting Standards Board ("FASB") issued two amendments to existing GAAP, one of which eliminates the concept of a qualifying special-purpose-entity (QSPEs). The second amends guidance applicable to variable interest entities (VIEs). The provisions of these amendments require us to evaluate all VIE's to determine whether they must be consolidated.

As a result of the prospective adoption of these amendments on August 1, 2010, Ferrellgas Receivables is now accounted for as a consolidated subsidiary. Upon adoption, we recognized \$107.9 million of "Accounts receivable pledged as collateral, net," \$0.6 million of "Other assets, net" and \$47.0 million of "Collateralized notes payable," derecognized \$44.9 million of "Notes receivable from Ferrellgas Receivables" and \$15.3 million of "Retained interest in Ferrellgas Receivables" and recorded a \$1.3 million "Cumulative effect of a change in accounting principle."

Subsequent to adoption, expenses associated with these transactions are now recorded in "Interest expense" and are no longer recorded in "Loss on transfer of accounts receivable related to the accounts receivable securitization" or "Service income related to the accounts receivable securitization" in the condensed consolidated statements of earnings. Additionally, borrowings and repayments associated with these transactions are now recorded in "Cash flows from financing activities" and no longer recorded in "Cash flows from operating activities" in the condensed consolidated statements of cash flows. The adoption of these amendments did not have a significant impact on our debt covenant agreements.

Cash flows from our accounts receivable securitization facility increased \$8.0 million. We received net funding of \$19.0 million from this facility during the three months ended October 31, 2010 as compared to receiving net funding of \$11.0 million from this facility in the prior year period.

Our strategy is to maximize liquidity by utilizing the accounts receivable securitization facility along with borrowings under the secured credit facility. See additional discussion about the secured credit facility in "Financing Activities — Secured credit facility." Our utilization of the accounts receivable securitization facility is limited by the amount of accounts receivable that we are permitted to securitize according to the facility agreement. This agreement allows for the proceeds of up to \$145.0 million from the securitization of accounts receivable, depending on the available undivided interests in our accounts receivable from certain customers. At October 31, 2010, we had received cash proceeds of \$66.0 million related to the securitization of our trade accounts receivable with

[Table of Contents](#)

the ability to receive cash proceeds, at our option, of an additional \$6.0 million. As our trade accounts receivable increase during the winter heating season, the securitization facility permits us to receive greater proceeds as eligible trade accounts receivable increases, thereby providing additional cash for working capital needs.

Common unit issuances

Ferrellgas issued \$1.6 million of common units in connection with the acquisition of propane distribution assets.

During November 2010, we entered into an agreement with an institutional investor relating to a non-brokered registered direct offering of 1.2 million common units. Net proceeds of approximately \$30.0 million were used to reduce outstanding indebtedness under the credit facility.

Debt issuances and repayments

During November 2010, we issued \$500.0 million in aggregate principal amount of new 6.50% senior notes due 2021 at an offering price equal to par. We received \$491.3 million of net proceeds after deducting initial purchase discounts and estimated expenses of the offering. We applied the net proceeds to a cash tender offer to purchase any and all of our \$450.0 million 6.75% fixed rate senior notes due May 1, 2014 and to redeem any such notes that remain outstanding after November 30, 2010. As of November 30, 2010, we had purchased \$368.6 million of the senior notes pursuant to the cash tender offer. We used the remaining proceeds to reduce outstanding indebtedness under the credit facility by \$111.9 million and to pay the related make whole and interest payments of \$10.8 million. We then issued an irrevocable notice to redeem prior to the end of December 2010 the remaining \$81.4 million outstanding principal amount of the 6.75% senior notes due 2014 and their related make-whole payments.

We believe that the liquidity available from our credit facility and the accounts receivable securitization facility will be sufficient to meet our capital expenditure, working capital and letter of credit requirements for fiscal 2011. See "Accounts Receivable Securitization" for discussion about our accounts receivable securitization facility. However, if we were to experience an unexpected significant increase in these requirements, our needs could exceed our immediately available resources. Events that could cause increases in these requirements include, but are not limited to the following:

- a significant increase in the wholesale cost of propane;
- a significant delay in the collections of accounts receivable;
- increased volatility in energy commodity prices related to risk management activities;
- increased liquidity requirements imposed by insurance providers;
- a significant downgrade in our credit rating leading to decreased trade credit; or
- a significant acquisition.

If one or more of these or other events caused a significant use of available funding, we may consider alternatives to provide increased liquidity and capital funding. No assurances can be given, however, that such alternatives would be available, or, if available, could be implemented. See discussion of related risk factors in Item 1A. "Risk Factors" in our Annual Report on Form 10-K.

The operating partnership

The financing activities discussed above also apply to the operating partnership except for cash flows related to distributions and contributions received, as discussed below.

[Table of Contents](#)

Distributions

The operating partnership paid cash distributions of \$35.5 million during the three months ended October 31, 2010. The operating partnership expects to pay cash distributions of \$48.3 million on December 15, 2010.

Contributions received by the operating partnership

During October 2010, the operating partnership received asset contributions of \$1.6 million in connection with the acquisition of propane distribution assets.

Disclosures about Effects of Transactions with Related Parties

We have no employees and are managed and controlled by our general partner. Pursuant to our partnership agreement, our general partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on our behalf, and all other necessary or appropriate expenses allocable to us or otherwise reasonably incurred by our general partner in connection with operating our business. These reimbursable costs, which totaled \$56.5 million for the three months ended October 31, 2010, include operating expenses such as compensation and benefits paid to employees of our general partner who perform services on our behalf, as well as related general and administrative expenses.

Related party common unitholder information consisted of the following:

	Common unit ownership at October 31, 2010	Distributions paid during the three months ended October 31, 2010	
Ferrell Companies (1)	20,080,776	\$	10,040

FCI Trading Corp. (2)	195,686	98
Ferrell Propane, Inc. (3)	51,204	26
James E. Ferrell (4)	4,353,475	2,177

- (1) Ferrell Companies is the sole shareholder of our general partner.
- (2) FCI Trading Corp. is an affiliate of the general partner and is wholly-owned by Ferrell Companies.
- (3) Ferrell Propane, Inc. is wholly-owned by our general partner.
- (4) James E. Ferrell is the Executive Chairman and Chairman of the Board of Directors of our general partner.

During the three months ended October 31, 2010, Ferrellgas Partners and the operating partnership together paid the general partner distributions of \$0.7 million.

On December 15, 2010, Ferrellgas Partners expects to pay distributions to Ferrell Companies, FCI Trading Corp., Ferrell Propane, Inc., James E. Ferrell (indirectly), and the general partner of \$10.0 million, \$0.1 million, \$26 thousand, \$2.2 million and \$0.4 million, respectively.

During the three months ended October 31, 2010, we paid Fleishman-Hillard Inc. \$33 thousand for marketing and communications services. Elizabeth Solberg, a member of our general partner's Board of Directors, serves as the General Manager of Fleishman-Hillard Inc.

Contractual Obligations

In the performance of our operations, we are bound by certain contractual obligations.

The following table summarizes our contractual obligations at October 31, 2010, adjusted for the November 2010 effect of the following: a \$30.0 million common unit offering with the proceeds used to reduce outstanding indebtedness under our credit facility; an issuance of \$500.0 million in aggregate principal amount of new 6.50% senior notes due 2021 at an offering price equal to par; and an early redemption notice to the holders of our \$450.0 million 6.75% fixed rate senior notes due May 1, 2014.

48

[Table of Contents](#)

(in thousands)	Payment or settlement due by fiscal year						Total
	2011	2012	2013	2014	2015	Thereafter	
Long-term debt, including current portion (1)	\$ 31,405	\$ 2,394	\$ 32,101	\$ 1,747	\$ 1,760	\$ 1,082,556	\$ 1,151,963
Fixed rate interest obligations (2)	70,198	85,255	85,176	85,140	85,121	366,799	777,689

- (1) We have long and short-term payment obligations under agreements such as our senior notes and our credit facility. Amounts shown in the table represent our scheduled future maturities of long-term debt (including current maturities thereof) for the periods indicated. For additional information regarding our debt obligations, please see "Liquidity and Capital Resources — Financing Activities."
- (2) Fixed rate interest obligations represent the amount of interest due on fixed rate long-term debt. These amounts do not include interest on our credit facility, a variable rate debt obligation. As of October 31, 2010, variable rate interest on our outstanding balance of variable rate debt of \$200.3 million would be \$8.6 million on an annual basis. Actual variable rate interest amounts will differ due to changes in interest rates and actual seasonal borrowings under our credit facility.

The operating partnership

The contractual obligation table above also applies to the operating partnership, except for long-term debt, including current portion and fixed rate interest obligations, which are summarized in the table below:

(in thousands)	Payment or settlement due by fiscal year						Total
	2011	2012	2013	2014	2015	Thereafter	
Long-term debt, including current portion (1)	\$ 31,405	\$ 2,394	\$ 32,101	\$ 1,747	\$ 1,760	\$ 802,556	\$ 871,963
Fixed rate interest obligations (2)	46,048	61,105	61,026	60,990	60,971	250,074	540,214

- (1) The operating partnership has long and short-term payment obligations under agreements such as the operating partnership's senior notes and credit facility. Amounts shown in the table represent the operating partnership's scheduled future maturities of long-term debt (including current maturities thereof) for the periods indicated. For additional information regarding the operating partnership's debt obligations, please see "Liquidity and Capital Resources — Financing Activities."
- (2) Fixed rate interest obligations represent the amount of interest due on fixed rate long-term debt. These amounts do not include interest on our credit facility, a variable rate debt obligation. As of October 31, 2010, variable rate interest on our outstanding balance of variable rate debt of \$200.3 million would be \$8.6 million on an annual basis. Actual variable rate interest amounts will differ due to changes in interest rates and actual seasonal borrowings under our credit facility.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We did not enter into any risk management trading activities during the three months ended October 31, 2010. Our remaining market risk sensitive instruments and positions have been determined to be "other than trading."

[Table of Contents](#)

Commodity Price Risk Management

Our risk management activities primarily attempt to mitigate price risks related to the purchase, storage, transport and sale of propane generally in the contract and spot markets from major domestic energy companies on a short-term basis. We attempt to mitigate these price risks through the use of financial derivative instruments and forward propane purchase and sales contracts.

Our risk management strategy involves taking positions in the forward or financial markets that are equal and opposite to our positions in the physical products market in order to minimize the risk of financial loss from an adverse price change. This risk management strategy is successful when our gains or losses in the physical product markets are offset by our losses or gains in the forward or financial markets. These financial derivatives are designated as cash flow hedges.

Our risk management activities include the use of financial derivative instruments including, but not limited to, price swaps, options, futures and basis swaps to seek protection from adverse price movements and to minimize potential losses. We enter into these financial derivative instruments directly with third parties in the over-the-counter market and with brokers who are clearing members with the New York Mercantile Exchange. We also enter into forward propane purchase and sales contracts with counterparties. These forward contracts qualify for the normal purchase normal sales exception within GAAP guidance and are therefore not recorded prior to settlement on our financial statements.

Market risks associated with energy commodities are monitored daily by senior management for compliance with our commodity risk management policy. This policy includes an aggregate dollar loss limit and limits on the term of various contracts. We also utilize volume limits for various energy commodities and review our positions daily where we remain exposed to market risk, so as to manage exposures to changing market prices.

We have prepared a sensitivity analysis to estimate the exposure to market risk of our energy commodity positions. Forward contracts, futures, swaps and options outstanding as of October 31, 2010 and July 31, 2010, that were used in our risk management activities were analyzed assuming a hypothetical 10% adverse change in prices for the delivery month for all energy commodities. The potential loss in future earnings from these positions due to a 10% adverse movement in market prices of the underlying energy commodities was estimated at \$12.7 million and \$7.8 million as of October 31, 2010 and July 31, 2010, respectively. The preceding hypothetical analysis is limited because changes in prices may or may not equal 10%, thus actual results may differ.

Our sensitivity analysis includes designated hedging and the anticipated transactions associated with these hedging transactions. These hedging transactions are anticipated to be 100% effective; therefore, there is no effect on our sensitivity analysis from these hedging transactions. To the extent option contracts are used as hedging instruments for anticipated transactions we have included the offsetting effect of the anticipated transactions, only to the extent the option contracts are in the money, or would become in the money as a result of the 10% hypothetical movement in prices. All other anticipated transactions for risk management activities have been excluded from our sensitivity analysis.

Credit Risk

We maintain credit policies with regard to our counterparties for propane procurement that we believe significantly minimize overall credit risk. These policies include an evaluation of counterparties' financial condition (including credit ratings), and entering into agreements with counterparties that govern credit guidelines.

These counterparties consist of major energy companies who are suppliers, wholesalers, retailers, end users and financial institutions. The overall impact due to certain changes in economic, regulatory and other events may impact our overall exposure to credit risk, either positively or negatively in that

[Table of Contents](#)

counterparties may be similarly impacted. Based on our policies, exposures, credit and other reserves, management does not anticipate a material adverse effect on financial position or results of operations as a result of counterparty performance.

Interest Rate Risk

At October 31, 2010 and July 31, 2010, we had \$200.3 million and \$167.0 million, respectively, in variable rate credit facility borrowings. Thus, assuming a one percent increase in our variable interest rate, our interest rate risk related to the borrowings on our variable rate credit facility would result in a loss in future earnings of \$2.0 million for the twelve months ending October 31, 2011. The preceding hypothetical analysis is limited because changes in interest rates may or may not equal one percent, thus actual results may differ.

ITEM 4. CONTROLS AND PROCEDURES.

An evaluation was performed by the management of Ferrellgas Partners, L.P., Ferrellgas Partners Finance Corp., Ferrellgas, L.P., and Ferrellgas Finance Corp., with the participation of the principal executive officer and principal financial officer of our general partner, of the effectiveness of our disclosure controls and procedures. Based on that evaluation, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures, as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act, were effective.

The management of Ferrellgas Partners, L.P., Ferrellgas Partners Finance Corp., Ferrellgas, L.P., and Ferrellgas Finance Corp. does not expect that our disclosure controls and procedures will prevent all errors and all fraud. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Based on the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the above mentioned Partnerships and Corporations have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events. Therefore, a control

system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide such reasonable assurances of achieving our desired control objectives, and the principal executive officer and principal financial officer of our general partner have concluded, as of October 31, 2010, that our disclosure controls and procedures are effective in achieving that level of reasonable assurance.

During the most recent fiscal quarter ended October 31, 2010, there have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) or Rule 15d-15(f) of the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Our operations are subject to all operating hazards and risks normally incidental to handling, storing, transporting and otherwise providing for use by consumers of combustible liquids such as propane. As a result, at any given time, we are threatened with or named as a defendant in various lawsuits arising in the ordinary course of business. Other than as discussed below, we are not a party to any legal proceedings other than various claims and lawsuits arising in the ordinary course of business. It is not possible to determine the ultimate disposition of these matters; however, management is of the opinion that there are

51

[Table of Contents](#)

no known claims or contingent claims that are reasonably expected to have a material adverse effect on our financial condition, results of operations and cash flows.

We have been named as a defendant in lawsuits filed in multiple federal and state courts that seek to certify nationwide or statewide classes related to our Blue Rhino branded propane tank exchange activities. The plaintiffs in each case generally allege that we failed to inform consumers of the amount of propane contained in propane tanks they purchased and that we violated anti-trust laws by allegedly conspiring with a competitor. The federal cases have been coordinated for multidistrict treatment in the United States District Court for the Western District of Missouri. Based on our business and consumer notification practices in our Blue Rhino tank exchange operations, we believe that all of these claims are without merit and intend to defend the claims vigorously.

We have also been named as a defendant in a class action lawsuit filed in the United States District Court in Kansas. The complaint alleges that we violate consumer protection laws in the manner we set prices and fees for our customers. Based on our business practices, we believe that the claims are without merit and intend to defend the claims vigorously.

CERTIFICATIONS
FERRELLGAS PARTNERS, L.P.

I, Stephen L. Wambold, certify that:

1. I have reviewed this report on Form 10-Q for the period ended October 31, 2010 of Ferrellgas Partners, L.P. (the "Registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely

to materially affect, the Registrant's internal control over financial reporting; and

5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
- a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. 1350,
AS ADOPTED PURSUANT TO
SECTION 906
OF THE
SARBANES-OXLEY ACT OF 2002**

In connection with the accompanying Quarterly Report on Form 10-Q of Ferrellgas Partners, L.P. (the "Partnership") for the three months ended October 31, 2010, as filed with the Securities and Exchange Commission (the "SEC") on the date hereof (the "Report"), the undersigned, in the capacity and on the date indicated below, hereby certify pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of Section 13(a) or 15(d), as applicable, of the Securities Exchange Act of 1934, as amended (the "Exchange Act"); and

2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Partnership at the dates and for the periods indicated within the Report.

The foregoing certification is made solely for purposes of 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and is subject to the "knowledge" and "willfulness" qualifications contained in 18 U.S.C. 1350(c).

This certification is being furnished to the SEC and is not to be deemed "filed" with the SEC for purposes of Section 18 of the Exchange Act or otherwise subject to the liability of Section 18. In addition, this certification is not to be incorporated by reference into any registration statement of the Partnership or other filing of the Partnership made pursuant to the Exchange Act or Securities Act of 1933, as amended, unless specifically identified as being incorporated therein by reference.
