# EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended October 31, 2024 of Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas, L.P., Ferrellgas Partners Finance Corp., and Ferrellgas Finance Corp. Unless stated otherwise or the context otherwise requires, references to "Ferrellgas Partners" refers to Ferrellgas Partners, L.P. itself, with its consolidated subsidiaries. References to the "operating partnership" mean Ferrellgas, L.P., together (except where the context indicates otherwise) with its consolidated subsidiaries, including Ferrellgas Finance Corp. The terms "us," "we," "our," "ours," "consolidated," the "Company" or "Ferrellgas Partners Finance Corp. and Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas, L.P., Ferrellgas Partners Finance Corp. and Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas, L.P., Ferrellgas Partners Finance Corp. and Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas, L.P., Ferrellgas Partners Finance Corp. and Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas, L.P., Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp., except when used in connection with "Class A Units" or "Class B Units," in which case these terms refer to Ferrellgas Partners, L.P. without its consolidated subsidiaries.

Ferrellgas Partners is a publicly traded Delaware limited partnership formed in 1994 and is primarily engaged in the retail distribution of propane and related equipment sales. Our Class A Units are traded on the OTC Pink Market under the symbol "FGPR." The operating partnership was formed on April 22, 1994, and accounts for substantially all of our consolidated assets, sales and operating earnings.

Ferrellgas Partners is a holding entity that conducts no operations and has two direct subsidiaries, the operating partnership and Ferrellgas Partners Finance Corp. Our activities are primarily conducted through the operating partnership. Ferrellgas Partners and the Preferred Unitholders are the only limited partners of the operating partnership. Ferrellgas, Inc. is the sole general partner of Ferrellgas Partners and the operating partnership and, excluding the economic interests attributable to the Class B Units and the Preferred Units, owns an approximate 1% general partner economic interest in each, and, therefore, an effective 2% general partner economic interest in the operating partnership. Excluding the economic interests attributable to the Preferred Units, Ferrellgas Partners owns an approximate 99% limited partner interest in the operating partnership.

Our general partner performs all management functions for us. The parent company of our general partner, Ferrell Companies, currently beneficially owns approximately 23.4% of our outstanding Class A Units. Ferrell Companies is owned 100% by an employee stock ownership trust.

We believe that combining the quarterly reports on Form 10-Q for these entities provides the following benefits:

- enhances investors' understanding of Ferrellgas Partners and the operating partnership by enabling investors to view the business as a whole in the same manner that management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation, since a substantial portion of the disclosure applies to both Ferrellgas Partners and the operating partnership; and
- creates time and cost efficiencies through the preparation of a combined presentation.

To help investors understand the differences between Ferrellgas Partners and the operating partnership, this report provides separate condensed consolidated financial statements for Ferrellgas Partners and the operating partnership. Noncontrolling interests, Class A Units, Class B Units, shareholders' equity (deficit) and partners' deficit are the main areas of difference between the condensed consolidated financial statements of Ferrellgas Partners and those of the operating partnership. A single set of notes to condensed consolidated financial statements is presented that includes separate discussions for Ferrellgas Partners and the operating partnership, when applicable. A combined Management's Discussion and Analysis of Financial Condition and Results of Operations section is also included that presents combined information and discrete information related to each entity, as applicable.

In order to highlight the differences between Ferrellgas Partners and the operating partnership, this report includes the following sections that provide separate financial information for Ferrellgas Partners and the operating partnership:

- condensed consolidated financial statements; and
- certain accompanying notes to condensed consolidated financial statements, which denote "Ferrellgas Partners" and "The operating partnership" in sections where applicable.

## FERRELLGAS PARTNERS, L.P. AND SUBSIDIARIES FERRELLGAS, L.P. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except per unit data, unless otherwise designated) (unaudited)

### A. Partnership organization and formation

## Ferrellgas Partners

Ferrellgas Partners, L.P. ("Ferrellgas Partners") was formed on April 19, 1994, and is a publicly traded limited partnership. Ferrellgas Partners is a holding entity that conducts no operations and has two direct subsidiaries, Ferrellgas Partners Finance Corp. and Ferrellgas, L.P. (the "operating partnership"). Ferrellgas Partners was formed to acquire and hold a limited partner interest in the operating partnership. Ferrellgas Partners owns a 100% equity interest in Ferrellgas Partners Finance Corp., whose only business activity is to act as the co-issuer and co-obligor of any debt securities issued by Ferrellgas Partners. Our activities are primarily conducted through the operating partnership. Ferrellgas Partners and the operating partnership, collectively referred to as "Ferrellgas," are both Delaware limited partnerships and are governed by their respective partnership agreements. These agreements contain specific provisions for the allocation of net earnings and loss to each of the partners for purposes of maintaining the partner capital accounts.

Ferrellgas, Inc. (the "general partner"), a Delaware corporation and a wholly-owned subsidiary of Ferrell Companies, is the sole general partner of Ferrellgas Partners and the operating partnership and, excluding the economic interests attributable to Ferrellgas Partners' Class B Units and the operating partnership's Preferred Units (as defined in Note F "Preferred units"), owns an approximate 1% general partner economic interest in each, and, therefore, an effective 2% general partner economic interest in the operating partnership. Excluding the economic interests attributable to the Preferred Units, Ferrellgas Partners owns an approximate 99% limited partner interest in the operating partnership. Our general partner performs all management functions for us. Unless contractually provided for, creditors of the operating partnership have no recourse with regards to Ferrellgas Partners. As of October 31, 2024, Ferrell Companies Inc., a Kansas corporation ("Ferrell Companies"), the parent company of our general partner, beneficially owns approximately 23.4% of Ferrellgas Partners' outstanding Class A Units. Ferrell Companies is owned 100% by an employee stock ownership trust.

#### The operating partnership

The operating partnership was formed on April 22, 1994, and accounts for substantially all of our consolidated assets, sales and operating earnings. The operating partnership is a limited partnership that owns and operates propane distribution and related assets. Ferrellgas Partners and the holders of the Preferred Units are the only limited partners of the operating partnership.

The operating partnership owns a 100% equity interest in Ferrellgas Finance Corp., whose only business activity is to act as the co-issuer and co-obligor of debt securities issued by the operating partnership.

The operating partnership is primarily engaged in the retail distribution of propane and related equipment sales. The propane distribution market is seasonal because propane is used primarily for heating in residential and commercial buildings. Ferrellgas serves residential, industrial/commercial, portable tank exchange, agricultural, wholesale and other customers in all 50 states, the District of Columbia, and Puerto Rico.

#### **Basis of presentation**

Due to seasonality, the results of operations for the three months ended October 31, 2024 are not necessarily indicative of the results to be expected for the full fiscal year ending July 31, 2025.

The condensed consolidated financial statements of Ferrellgas reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the interim periods presented. All adjustments to the condensed consolidated financial statements were of a normal recurring nature. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with (i) the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and (ii) the consolidated financial statements and accompanying notes included in Ferrellgas' Annual Report on Form 10-K for fiscal 2024.

#### B. Summary of significant accounting policies

## (1) Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from these estimates. Significant estimates impacting the condensed consolidated financial statements include accruals that have been established for contingent liabilities, pending claims and legal actions arising in the normal course of business, useful lives of property, plant and equipment, residual values of tanks, capitalization of customer tank installation costs, amortization methods of intangible assets, valuation methods used to value sales returns and allowances, allowance for expected credit losses, fair value of reporting unit, recoverability of long-lived assets, assumptions used to value business combinations, determination of incremental borrowing rate used to measure right-of-use assets ("ROU assets") and lease liability, and fair values of derivative contracts.

## (2) Goodwill, net

Goodwill is tested for impairment annually during the second fiscal quarter, or more frequently if events or changes in circumstances indicate that it is more likely than not the fair value of a reporting unit is less than the carrying value. Ferrellgas has determined that it has one reporting unit for goodwill impairment testing purposes. Ferrellgas completed its most recent annual goodwill impairment test on January 31, 2024 and did not incur an impairment loss.

## (3) Principles of consolidation and basis of presentation

Certain prior period amounts have been reclassified to conform to the current year presentation.

#### (4) New accounting standards

#### Recently adopted accounting pronouncements

No new accounting standards were adopted during the three months ended October 31, 2024.

#### Recently issued accounting pronouncements not yet adopted

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"), to improve segment disclosures, primarily through enhanced disclosures for significant segment expenses. ASU 2023-07 does not change how a public entity identifies its operating segments, aggregates those operating segments, or applies quantitative thresholds to determine its reportable segments. The update is effective on a retrospective basis for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The Company plans to adopt ASU 2023-07 starting with our Form 10-K for the year ended July 31, 2025, and our quarterly reports on Form 10-Q starting with our quarterly report for the quarter ended October 31, 2025. The adoption of this guidance will impact our disclosures only and we do not expect it to have a material impact.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"). In addition to new disclosures associated with the reconciliation of the effective tax rate to the statutory rate, ASU 2023-09 requires information related to taxes paid to be disaggregated for federal and state taxes and further disaggregated for specific jurisdictions to the extent they exceed a quantitative threshold. ASU 2023-09 is effective prospectively with an option for retrospective application for fiscal years beginning after December 15, 2024. Early adoption is permitted. The Company plans to adopt ASU 2023-09 as of August 1, 2025. The adoption of this guidance will only impact our disclosures and we do not expect it to have a material impact.

In November 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* ("ASU 2024-03"), which requires the disaggregation, in the notes to the financial statements, of certain cost and expense captions presented on the face of the Company's Statement of Operations, to provide enhanced transparency to investors. The update may be applied either prospectively or retrospectively. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. The Company plans to adopt ASU 2024-03 starting with our Form 10-K for the year ended July 31, 2028, and our quarterly reports on Form 10-Q starting with our quarterly report for the quarter ended October 31, 2028. The Company is currently evaluating the impact ASU 2024-03 will have on its disclosures.

## C. Supplemental financial statement information

#### Inventories

Inventories consist of the following:

	Octo	ber 31, 2024	July 31, 2024		
Propane gas and related products	\$	79,742	\$	74,122	
Appliances, parts and supplies, and other		21,313		21,910	
Inventories	\$	101,055	\$	96,032	

In addition to inventories on hand, Ferrellgas enters into contracts to take delivery of propane for supply procurement purposes with terms that generally do not exceed 36 months. Most of these contracts call for payment based on market prices at the date of delivery. As of October 31, 2024, Ferrellgas had committed, for supply procurement purposes, to deliver approximately 4.1 million gallons of propane at net fixed prices.

## Prepaid expenses and other current assets

#### Ferrellgas Partners

Prepaid expenses and other current assets consist of the following:

## Shipping and handling expenses

Shipping and handling expenses are classified in the following condensed consolidated statements of operations line items:

	 For the three Octob	s ended
	 2024	2023
Operating expense - personnel, vehicle, plant and other	\$ 70,347	\$ 73,969
Depreciation and amortization expense	3,871	3,366
Operating expense - equipment lease expense	3,195	3,436
Shipping and handling expenses	\$ 77,413	\$ 80,771

## Cash, cash equivalents and restricted cash

For purposes of the condensed consolidated statements of cash flows, Ferrellgas considers cash equivalents to include all highly liquid debt instruments purchased with an original maturity of three months or less. Restricted cash in the tables below as of October 31, 2024 and July 31, 2024 consists of the balance of a cash deposit made with the administrative agent under the operating partnership's senior secured credit facility that was terminated in April 2020, which may be used by the administrative agent to pay contingent obligations arising under the financing agreement that governed the terminated senior secured credit facility.

# Ferrellgas Partners

Cash, cash equivalents and restricted cash consist of the following:

	Octo	ber 31, 2024	July 31, 2024		
Cash and cash equivalents	\$	36,999	\$	113,482

Senior secured revolving credit facility

The operating partnership, the general partner and certain of the operating partnership's subsidiaries as guarantors are parties to a credit agreement dated March 30, 2021, as amended on July 2, 2024 (the "Credit Agreement"), with JPMorgan Chase Bank, N.A. as administrative agent and collateral agent, and the lenders and issuing lenders party thereto from time to time, which provides for a four-year revolving credit facility (the "Credit Facility"), with a maturity date of March 30, 2025, in an aggregate principal amount of up to \$350.0 million. The Credit Agreement includes a sublimit not to exceed \$300.0 million for the issuance of letters of credit.

On December 5, 2024, the Credit Agreement was amended to, among other things, extend the maturity date from March 30, 2025 to December 31, 2025. On March 31, 2025, in conjunction with the commencement of the Fifth Amendment, the commitment level for the Credit Facility will be reduced from \$350.0 million to \$308.8 million.

All borrowings under the Credit Facility are guaranteed by the general partner and the direct and indirect subsidiaries of the operating partnership (other than Ferrellgas Finance Corp. and Ferrellgas Receivables, LLC) and a limited-recourse guaranty from Ferrellgas Partners (limited to its equity interests in the operating partnership). Additionally, all borrowings are secured, on a first priority basis, by substantially all of the assets of the operating partnership and its subsidiaries and all of the equity interests in the operating partners.

Availability under the Credit Facility is, at any time, an amount equal to (a) the lesser of the revolving commitment and the Borrowing Base (as defined below) minus (b) the sum of the aggregate outstanding amount of borrowings under the Credit Facility plus the undrawn amount of outstanding letters of credit under the Credit Facility plus unreimbursed drawings in respect of letters of credit (unless otherwise converted into revolving loans). The "Borrowing Base" equals the sum of: (a) \$200.0 million, plus (b) 80% of the eligible accounts receivable of the operating partnership and its subsidiaries, plus (c) 70% of the eligible propane inventory of the operating partnership and its subsidiaries, valued at weighted average cost, less (d) certain reserves, as determined and subject to certain modifications by the administrative agent in its permitted discretion. On March 30, 2025, the Borrowing Base calculation will change in accordance with the December 2024 amendment.

Amounts borrowed under the Credit Facility bear interest, at the operating partnership's option, at either (a) for base rate loans, (i) a base rate determined by reference to the highest of (A) the rate of interest last quoted by The Wall Street Journal in the U.S. as the prime rate in effect, (B) the NYFRB Rate from time to time plus 0.50% per annum and (C) the Adjusted term Secured Overnight Financing Rate ("SOFR") for a one-month interest period plus 1.00% per annum plus (ii) a margin of 1.75% to 2.50% per annum depending on total net leverage or (b) for Eurodollar rate loans, (i) a rate determined by reference to the Adjusted term SOFR plus (ii) a margin of 2.75% to 3.50% per annum depending on total net leverage. The operating partnership will be required to pay an undrawn fee to the lenders on the average daily unused amount of the Credit Facility at a rate of 0.50% per annum.

The Credit Agreement contains customary representations, warranties, covenants and events of default and requires the operating partnership to maintain the following financial covenants:

Financial Covenant	Ratio
Minimum interest coverage ratio <sup>(1)</sup>	2.50x
Maximum secured leverage ratio <sup>(2)</sup>	2.50x
Maximum total net leverage ratio <sup>(3) (4)</sup>	5.25x

(1) Defined generally as the ratio of adjusted EBITDA to cash interest expense.

- (2) Defined generally as the ratio of total first priority secured indebtedness to adjusted EBITDA.
- (3) Defined generally as the ratio of total indebtedness (net of unrestricted cash, subject to certain limits) to adjusted EBITDA.
- (4) Ratio was 4.75x immediately prior to the quarter ended October 31, 2024. As amended, ratio is 5.25x beginning with the quarter ended October 31, 2024 through the quarter ended January 31, 2025, 4.75x for the quarter ending April 30, 2025 through the quarter ending July 31, 2025, 5.00x for the quarter ending October 31, 2025, and 4.75x for any quarter ending on or after January 31, 2026.

In addition to the financial covenants, the Credit Agreement includes covenants that may (or if not met will) restrict the ability of the operating partnership to take certain actions. In particular, under these covenants, subject to certain exceptions and additional requirements, the operating partnership is permitted to make cash distributions to holders of Preferred Units, redemptions of Preferred Units conditional to a refinancing event, and other restricted payments (i) only in limited amounts specified in the Credit Agreement and (ii) only if availability under the Credit Facility exceeds the greater of \$50.0 million and 15% of the Borrowing Base and the operating partnership's total net leverage ratio is not greater than 4.75 to 1.0. The Credit Agreement, as amended on July 2, 2024, restricts the transfer of cash from the operating partnership to Ferrellgas Partners to make distributions. Therefore, Ferrellgas Partners is currently unable to make distributions to its Class A and Class B unitholders. As of October 31, 2024, the operating partnership is in compliance with all of its debt covenants.

#### Senior unsecured notes

The operating partnership has \$650.0 million aggregate principal amount of 5.375% senior notes due 2026 (the "2026 Notes") and \$825.0 million aggregate principal amount of 5.875% senior notes due 2029 (the "2029 Notes") issued and outstanding pursuant to indentures each dated March 30, 2021. The 2026 Notes and 2029 Notes are the senior unsecured obligations of the operating partnership and Ferrellgas Finance Corp. and are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by the general partner and all domestic subsidiaries of the operating partnership other than Ferrellgas Receivables, LLC.

The 2026 Notes and 2029 Notes may be redeemed at the issuers' option, in whole or in part, at the redemption prices set forth in the indenture governing such notes, plus accrued and unpaid interest. Beginning on April 1, 2025 and April 1, 2026, the 2026 Notes and 2029 Notes, respectively, may be redeemed at par plus accrued and unpaid interest.

The indentures governing the 2026 Notes and 2029 Notes contain customary affirmative and negative covenants restricting, among other things, the ability of the operating partnership and its restricted subsidiaries to take certain actions. In particular, under these covenants, subject to certain exceptions and additional requirements, the operating partnership is permitted to make cash distributions to holders of Preferred Units, Ferrellgas Partners and the general partner, redemptions of Preferred Units and other restricted payments (i) only in limited amounts specified in the indentures and (ii) only if the operating partnership's net leverage ratio (defined generally to mean the ratio of consolidated total net debt to trailing four quarters consolidated EBITDA, both as adjusted for certain, specified items) is not greater than 5.0 to 1.0, on a pro forma basis giving effect to the restricted payment and, if applicable, certain other specified events. Further, if the operating partnership's consolidated fixed charge coverage ratio (defined generally to mean the ratio of trailing four quarters consolidated EBITDA to consolidated fixed charges, both as adjusted for certain, specified items) is equal to or less than 1.75 to 1.00 (on a pro forma basis giving effect to the restricted payments the operating partnership is permitted to make under the indentures is further limited. As of October 31, 2024, the operating partnership is in compliance with all of its debt covenants.

The scheduled annual principal payments on long-term debt are as follows:

Payment due by fiscal year	Scheduled principal payments
2025	\$ 1,282
2026	652,178
2027	1,310
2028	910
2029	825,550
Thereafter	610
Total	\$ 1,481,840

On July 10, 2024, letters of credit in an aggregate principal amount of \$124.5 million were issued to the surety providers under an appeal bond. See Note L "Contingencies and commitments" for further information. Letters of credit were also used to secure insurance arrangements, product purchases and commodity hedges. Letters of credit outstanding at October 31, 2024 and July 31, 2024 totaled \$200.6 million and \$193.4 million, respectively. Due to the timing of the March 30, 2025 maturity date of the Credit Facility noted above and the letters of credit which it secures, there was substantial doubt about the Company's ability to continue as a going concern for at least one year from the date of issuance of the Company's fiscal 2024 Annual Report. Our condensed financial statements were prepared under the assumption that we will continue as a going concern. As noted above, the maturity date was subsequently extended to December 31, 2025, which alleviated the substantial doubt about the Company's ability to continue as a going concern at least one year from the date of issuance of the date of issuance of this Quarterly Report.

As of October 31, 2024, Ferrellgas had available borrowing capacity under its Credit Facility of \$126.5 million. Assets subject to lien under the Credit Facility were \$333.3 million as of October 31, 2024.

## F. Preferred units

On March 30, 2021, pursuant to an Investment Agreement, the operating partnership issued an aggregate of 700,000 Preferred Units (the "Preferred Units"), having an aggregate initial liquidation preference of \$700.0 million.

Redemption of the Preferred Units in the near term is not probable because of the high redemption price in the first three to four years. As described in greater detail under "Issuer Redemption Right" below, the Redemption Price for the Preferred Units is based upon the greater of the amount that would result in a 1.47x MOIC (defined below) and the amount that would result in a 12.25% internal rate of return. If the Preferred Units were redeemed during the first three to four years after issuance, the 1.47x MOIC would require a large premium payment and that large premium payment would result in an internal rate of return far in excess of the minimum 12.25%. Consequently, it is unlikely that Ferrellgas would be able to achieve any savings in its cost of capital by redeeming the Preferred Units during the first three to four years after issuance.

"MOIC" means, with respect to a Preferred Unit, a multiple on invested capital equal to the quotient determined by dividing (A) the sum of (x) the aggregate amount of all distributions made in cash with respect to such Preferred Unit prior to the applicable date of determination, with certain exclusions, plus (y) each Redemption Price paid in cash in respect of such Preferred Unit, on or prior to the applicable date of determination, by (B) the Purchase Price (defined below) of such Preferred Unit.

The preferences, rights, privileges and other terms of the Preferred Units are set forth in the First Amendment to the Amended OpCo LPA (the "OpCo LPA Amendment") entered into by the general partner on March 30, 2021 (along with the Fifth Amended and Restated Agreement of Limited Partnership of Ferrellgas, L.P. (the "Amended OpCo LPA")) and are described below.

#### Issuer Redemption Right

The operating partnership has the right to redeem all or a portion of the Preferred Units for cash, pro rata and at any time and from time to time, including in connection with a Change of Control (as defined in the OpCo LPA Amendment), at an amount per Preferred Unit (the "Redemption Price") equal to, without duplication, the sum of (a) the greater of (i) the amount necessary to result in a MOIC of 1.47x in respect of the purchase price, before discount, of such Preferred Unit, which is \$1,000 per Preferred Unit (the "Purchase Price"), and (ii) the amount necessary to result in the applicable internal rate of return equal to 12.25%, which is increased by 150 basis points if the operating partnership has elected to pay more than four Quarterly Distributions (as defined below) in PIK Units (as defined below) and (b) the accumulated but unpaid Quarterly Distributions to the date of redemption, if any. A partial redemption of the Preferred Units is permitted only in the event the aggregate amount to be paid in respect of all Preferred Units included in such partial redemption is at least \$25.0 million.

#### Investor Redemption Right

In the event that (i) any Class B Units are outstanding, or (ii) (x) no Class B Units are outstanding and (y) no more than 233,300 Preferred Units are outstanding, at any time on and after March 30, 2031, the Required Holders may elect, by delivery of written notice, to have the operating partnership fully redeem each remaining outstanding Preferred Unit for an amount in cash equal to the Redemption Price. "Required Holders" refers to both (i) holders owning at least 33.3% of the total Preferred Units outstanding at any time and (ii) certain initial affiliated purchasers, for so long as such initial affiliated purchasers collectively own at least 25% of the Preferred Units outstanding at such time.

In the event that (i) no Class B Units are outstanding and (ii) more than 233,300 Preferred Units are outstanding, the Required Holders will have the right to trigger a sale of the operating partnership after March 30, 2031. If the operating partnership fails to consummate a sale that would pay the Redemption Price in full within 180 days of written notice requiring such sale, the Required Holders will have the right to appoint a majority of the members of the Board of Directors of the general partner and initiate a sale of the operating partnership.

#### Change of Control

Upon a Change of Control (as defined in the OpCo LPA Amendment), the Required Holders will have the option to require the redemption of all or a portion of the Preferred Units in cash in an amount equal to the Redemption Price; provided, that such Redemption Price shall not be payable unless the operating partnership shall have first made any required change of control offer pursuant to the indentures governing the 2026 Notes and the 2029 Notes and purchased all such 2026 Notes and 2029 Notes tendered pursuant to such offer (unless otherwise waived by such noteholders); provided, further that the Redemption Price shall be paid immediately following the purchase of such tendered Notes (if any).

#### Fair Value of Embedded Derivatives

Ferrellgas identified the investor redemption right and the change in control option as embedded derivatives that require bifurcation as they are not clearly and closely related to the debt host contract and has concluded that the fair values at issuance and at October 31, 2024 and July 31, 2024, are immaterial to the financial statements.

#### Distributions

Pursuant to the OpCo LPA Amendment, the operating partnership is required to pay to the holders of each Preferred Unit a cumulative, quarterly distribution (the "Quarterly Distribution") at the Distribution Rate (as defined below) on the Purchase Price.

"Distribution Rate" means, for the first five years after March 30, 2021, a rate per annum equal to 8.956%, with certain increases in the Distribution Rate on each of the  $5^{th}$ ,  $6^{th}$  and  $7^{th}$  anniversaries of March 30, 2021, subject to a maximum rate of 11.125% and certain other adjustments and exceptions.

The Quarterly Distribution may be paid in cash or, at the election of the operating partnership, "in kind" through the issuance of additional Preferred Units ("PIK Units") at the quarterly Distribution Rate plus an applicable premium that escalates each year from 75 bps to 300 bps so long as the Preferred Units remain outstanding. In the event the operating partnership fails to make any Quarterly Distribution in cash, such Quarterly Distribution will automatically be paid in PIK Units.

The Distribution Rate on the Preferred Units will increase upon violation of certain protective provisions for the benefit of Preferred Unit holders notwithstanding the cap mentioned above.

On November 15, 2024, \$15.4 million of the Quarterly Distribution was paid in cash to holders of Preferred Units. As of October 31, 2024, the Quarterly Distribution accrued was \$18.1 million. The remaining Quarterly Distribution accrual of \$2.7 million represents Additional Amounts payable to certain holders of Preferred Units pursuant to the side letters outlined in the OpCo LPA Amendment.

On November 15, 2023, \$15.4 million of the Quarterly Distribution was paid in cash to holders of Preferred Units. As of October 31, 2023, the Quarterly Distribution accrued was \$18.0 million. The remaining Quarterly Distribution accrual of \$2.6 million represents Additional Amounts payable to certain holders of Preferred Units pursuant to the side letters.

#### Tax Distributions

For any quarter in which the operating partnership makes a Quarterly Distribution in PIK Units in lieu of cash, it will be required to make a subsequent cash tax distribution for such quarter in an amount equal to the (i) the lesser of (x) 25% and (y) the highest combined federal, state and local tax rate applicable for corporations organized in New York, multiplied by (ii) the excess (if any) of (A) one-fourth (1/4th) of the estimated taxable income to be allocated to the holders of Preferred Units for the year in which the Quarterly Tax Payment Date (which refers to certain specified dates that next follow a Quarterly Distribution date on which PIK Units were issued) occurs, over (B) any cash paid on the Quarterly Distribution date immediately preceding the Quarterly Tax Payment Date on which a quarterly tax amount would otherwise be paid (such amount, the "Tax Distribution"). Tax Distributions are treated as advances against, and reduce, future cash distributions for any reason, including payments in redemption of Preferred Units or PIK Units, or payments to the holders in their capacity as such pursuant to any side letter or other agreement.

#### Additional Amounts for Certain Purchasers

The operating partnership is required to pay certain additional amounts of cash (the "Additional Amounts") as necessary to certain holders of Preferred Units that hold their interests through a "blocker," which is a U.S. entity that is owned and organized by certain original purchasers of Preferred Units who are non-U.S. persons or tax exempt for U.S. tax purposes and is treated as a corporation for U.S. tax purposes. Only certain original purchasers of Preferred Units who hold their Preferred Units through such blockers are, and none of their transferees is, entitled to Additional Amounts. Additional Amounts are capped at the lesser of: (a) the product of 20% multiplied by taxable income allocated to a "blocker" (as defined) divided by 0.8, and (b) the actual taxes payable by the "blocker" as a result of holding Senior Preferred Units.

## Board Rights

For so long as at least 140,000 Preferred Units remain outstanding, holders of the Preferred Units have the right to designate one director to the Board of the general partner, subject to approval by the general partner.

#### Protective Provisions

The OpCo LPA Amendment and the Sixth Amended and Restated Agreement of Limited Partnership of Ferrellgas Partners, L.P. (the "Amended Ferrellgas Partners LPA") include, among other things, certain covenants for the benefit of holders of Preferred Units applicable to the operating partnership and, in certain instances, Ferrellgas Partners, for so long as at least \$35 million of Preferred Units and PIK Units remain outstanding. These covenants include, among other things, limitations on (i) effecting a Change of Control, (ii) amending organizational documents, (iii) issuing certain equity securities, (iv) issuing Preferred Units, (v) filing for bankruptcy, (vi) non-ordinary course investments, and (vii) incurring certain levels of indebtedness.

#### Ranking and Liquidation Preference

The Preferred Units rank senior to any other class or series of equity interests of the operating partnership (including the partnership interests held by Ferrellgas Partners and the general partner). Upon a liquidation, dissolution or winding up of the operating partnership, each holder of Preferred Units will be entitled to receive, prior and in preference to any distribution of any assets of the operating partnership to the holders of any other class or series of equity interests in the operating partnership (including Ferrellgas Partners and the general partner), an amount per Preferred Unit equal to the Redemption Price.

#### Restrictions on Cash Distributions to Ferrellgas Partners and the General Partner

The operating partnership is permitted to make distributions of Available Cash (as defined in the Amended OpCo LPA) to Ferrellgas Partners only if (i) the operating partnership has made all required Quarterly Distributions (in cash or PIK Units), Tax Distributions and payments of Additional Amounts, (ii) the operating partnership has redeemed all PIK Units issued, (iii) the operating partnership's consolidated net leverage (defined generally to mean the ratio of the operating partnership's consolidated total net debt (including the total redemption price of all outstanding Preferred Units and PIK Units but excluding certain letters of credit and capital lease obligations) as of each Quarterly Distribution Date to trailing four quarters consolidated EBITDA, both as adjusted for certain, specified items) is below 7.00x, net of cash, immediately before and after giving effect to such distribution, (iv) the operating partnership has at least \$100 million of liquidity, consisting of unrestricted cash on hand and available capacity under the Credit Agreement or any replacement thereof, and (v) the operating partnership is in compliance with the other protective provisions in the OpCo LPA Amendment.

## G. Equity (Deficit)

#### Ferrellgas Partners

## Class B Units

On March 30, 2021, Ferrellgas Partners issued 1.3 million Class B Units to the holders of the \$357.0 million aggregate principal amount of its 8.625% senior unsecured notes due June 2020 (the "Ferrellgas Partners Notes") in exchange for such holders' contribution of the Ferrellgas Partners Notes to Ferrellgas Partners as a capital contribution and in satisfaction of such holders' claims in respect of the Ferrellgas Partners Notes. The terms of the Class B Units are set forth in the Amended Ferrellgas Partners LPA entered into by the general partner on March 30, 2021.

Ferrellgas Partners may, subject to certain conditions, issue additional Class A Units to such parties as determined at the discretion of Ferrellgas Partners, upon consent by the holders of the requisite percentage of Class B Units as specified in the Amended Ferrellgas Partners LPA (the "Requisite Class B Units"), which refers to: (i) if the initial majority holder of Class B Units holds at least 50% of Class B Units, holders of at least 50% of the outstanding Class B Units, or (ii) if the initial majority holder of the outstanding Class B Units holds less than 50% of Class B Units, holders of at least one-third of the outstanding Class B Units.

Pursuant to the Amended Ferrellgas Partners LPA, while any Class B Units remain outstanding, any distributions by Ferrellgas Partners to its partners must be made such that the ratio of (i) the amount of distributions made to holders of Class B Units to (ii) the amount of distributions made to holders of Class A Units and the general partner is not less than 6:1.

Once holders of Class B Units receive distributions in the aggregate amount of \$357.0 million (which was the outstanding principal amount of the Ferrellgas Partners Notes), the Class B Units will be (i) convertible into Class A Units at the option of Ferrellgas Partners, if that distribution threshold is reached prior to March 30, 2026, the fifth anniversary post-emergence, or (ii) converted automatically into Class A Units, if the distribution threshold is reached on or after March 30, 2026, in each case at the applicable conversion rate set forth in the following table:

Period	<b>Conversion Factor</b>
March 31, 2024 through March 30, 2025	4.00x
March 31, 2025 through March 30, 2026	5.00x
March 31, 2026 through March 30, 2027	6.00x
March 31, 2027 through March 30, 2028	7.00x
March 31, 2028 through March 30, 2029	10.00x
March 31, 2029 through March 30, 2030	12.00x
March 31, 2030 through March 30, 2031	25.00x

Ferrellgas Partners may redeem the Class B Units through March 30, 2026, in full, at a price equal to an amount that will result in an internal rate of return with respect to the Class B Units equal to the sum of (i) 300 basis points and (ii) the internal rate of return for the Preferred Units as specified in the Amended Ferrellgas Partners LPA, subject to the minimum redemption price of \$302.08 per unit. The total internal rate of return required to redeem the Class B Units is 15.85%, but that amount increases under certain circumstances, including if the operating partnership paid distributions on the Preferred Units in-kind rather than in cash for a certain number of quarters. There have not been any in-kind distributions through October 31, 2024.

During the period through March 30, 2026, after Ferrellgas Partners has distributed \$356 million in distributions to holders of the Class B Units, Ferrellgas Partners will have the option to hold cash for six months at either Ferrellgas Partners or Ferrellgas Partners Finance Corp. for the sole purpose of redeeming the Class B Units. However, if the funds held are not used to redeem the Class B Units, the funds must either be distributed to holders of the Class B Units and, if applicable, holders of the Class A Units and the general partner or returned to the operating partnership.

Ferrellgas Partners will only be able to redeem the Class B Units to the extent it receives sufficient distributions from the operating partnership, and the operating partnership is limited in its ability to make distributions by the indentures that govern the 2026 Notes and the 2029 Notes, the Credit Agreement and the OpCo LPA Amendment governing the Preferred Units.

The holders of the Class B Units will have the right to acquire the general partner interests in Ferrellgas Partners and the operating partnership, without the approval of the general partner, Ferrellgas Partners, the holders of the Class A Units or the operating partnership, if the Class B Units are still outstanding and have not been converted to Class A Units by the earlier of (i) a material breach of the covenants in favor of the Class B Units under the Amended Ferrellgas Partners LPA or the Amended OpCo LPA that is not cured within the time period specified therein and (ii) March 30, 2031.

## Board Rights

The holders of Class B Units will be permitted to designate one independent director to the Board of the general partner in accordance with a voting agreement among the general partner, Ferrell Companies, Inc. ("FCI"), the sole stockholder of the general partner, and the holders of the Class B Units and the general partner's bylaws.

Class A Units

As of October 31, 2024 and July 31, 2024, Class A Units were beneficially owned by the following:

	October 31, 2024	July 31, 2024
Public Class A Unitholders <sup>(1)</sup>	3,480,621	3,480,621
James E. Ferrell <sup>(2)</sup>	238,172	238,172
Ferrell Companies <sup>(3)</sup>	1,126,468	1,126,468
FCI Trading Corp. <sup>(4)</sup>	9,784	9,784
Ferrell Propane, Inc. <sup>(5)</sup>	2,560	2,560
Total	4,857,605	4,857,605

(1) These Class A Units are traded on the OTC Pink Market under the symbol "FGPR."

- (2) James E. Ferrell was the Executive Chairman of the Board of Directors of our general partner in fiscal 2024. Effective August 5, 2024, he was appointed to serve as Chairman of the Board of Directors of our general partner. He is a related party. JEF Capital Management owns 237,942 of these Class A Units and is owned by the James E. Ferrell Revocable Trust Two and other family trusts, all of which James E. Ferrell and/or his family members are the trustees and beneficiaries. James E. Ferrell holds all voting common stock of JEF Capital Management. The remaining 230 Class A Units are held by Ferrell Resources Holdings, Inc., which is wholly-owned by the James E. Ferrell Revocable Trust One, for which James E. Ferrell is the trustee and sole beneficiary.
- (3) Ferrell Companies is the owner of the general partner and an approximate 23% direct owner of Ferrellgas Partners' Class A Units and thus a related party. Ferrell Companies also beneficially owns 9,784 and 2,560 Class A Units of Ferrellgas Partners held by FCI Trading Corp. ("FCI Trading") and Ferrell Propane, Inc. ("Ferrell Propane"), respectively, bringing Ferrell Companies' total beneficial ownership of Class A Units to 23.4%.
- (4) FCI Trading is an affiliate of the general partner and thus a related party.
- (5) Ferrell Propane is controlled by the general partner and thus a related party.

Together these Class A Units represent (i) a 99% limited partner economic interest in Ferrellgas Partners, excluding the economic interest attributable to the Class B Units, and (ii) an effective 98% economic interest in the operating partnership, excluding the economic interests attributable to the Class B Units and the Preferred Units. In liquidation, allocations and distributions will be made in accordance with each Class A Unitholder's positive capital account.

The Class A Units of Ferrellgas Partners represent limited partner interests in Ferrellgas Partners, which give the holders thereof the right to participate in distributions made by Ferrellgas Partners, subject to the rights of holders of Class B Units, and to exercise the other rights or privileges available to such holders under the Amended Ferrellgas Partners LPA. Under the terms of the Amended Ferrellgas Partners LPA, holders of Class A Units have limited voting rights on matters affecting the business of Ferrellgas Partners. Generally, persons or groups owning 20% or more of Ferrellgas Partners' outstanding Class A Units cannot vote any of their Class A Units in excess of the 20% threshold. However, this limitation does not apply under certain circumstances and does not apply to Class A Units owned by Ferrell Companies, our general partner and its affiliates, and this limitation expires on the later of (a) March 30, 2026 and (b) the conversion of the Class B Units to Class A Units.

The Amended Ferrellgas Partners LPA allows the general partner to issue an unlimited number of additional general and limited partner interests of Ferrellgas Partners for such consideration and on such terms and conditions as shall be established by the general partner without the approval of any Class A Unitholders.

### Partnership distributions

Ferrellgas Partners did not declare or pay any distributions to its Class A Unitholders or the general partner during the three months ended October 31, 2024 and 2023. Under its Credit Agreement, Ferrellgas Partners is currently unable to make distributions to its Class A unitholders. See Note E "Debt" for more information.

Ferrellgas Partners made aggregate cash distributions of approximately \$250.0 million to our Class B Unitholders since inception of our Class B Units in fiscal 2022. Under its Credit Agreement, Ferrellgas Partners is currently unable to make distributions to its Class B unitholders. See Note E "Debt" and Note M "Net loss per unitholders' interest" for additional information.

## Accumulated other comprehensive income ("AOCI")

See Note J "Derivative instruments and hedging activities" for details regarding changes in fair value on risk management financial derivatives recorded within AOCI for the three months ended October 31, 2024 and 2023.

#### Ferrellgas Partners

#### General partner's commitment to maintain its capital account

Ferrellgas' partnership agreements allow the general partner to have an option to maintain its effective 2% general partner interest (excluding the interest attributable to the Class B Units and the Preferred Units) concurrent with the issuance of other additional equity.

During the three months ended October 31, 2024 and 2023, the general partner made non-cash contributions of \$17.0 thousand and \$14.0 thousand, respectively, to Ferrellgas to maintain its effective 2% general partner interest.

#### The operating partnership

#### Partnership distributions

Ferrellgas Partners did not declare or pay any distributions to its Class A Unitholders, Class B Unitholders, or the general partner during the three months ended October 31, 2024 and 2023.

See additional discussions about transactions with related parties in Note K "Transactions with related parties."

## General partner's commitment to maintain its capital account

Ferrellgas, L.P.'s partnership agreement allows the general partner to have an option to maintain its 1.0101% general partner interest (excluding the interest attributable to the Preferred Units) concurrent with the issuance of other additional equity.

During the three months ended October 31, 2024 and 2023, the general partner made non-cash contributions of \$9.0 thousand and \$7.0 thousand, respectively, to the operating partnership to maintain its 1.0101% general partner interest.

#### H. Revenue from contracts with customers

#### Disaggregation of revenue

Ferrellgas disaggregates revenues based upon the type of customer and on the type of revenue. The following table presents retail propane revenues, wholesale propane revenues and other revenues. Retail revenues result from sales to end use customers, wholesale revenues result from sales to or through resellers and all other revenues include sales of appliances and other materials, other fees charged to customers and equipment rental charges.

	For the three months ended October 31,				
		2024		2023	
Retail - Sales to End Users	\$	215,279	\$	227,860	
Wholesale - Sales to Resellers		113,849		105,523	
Other Gas Sales		7,670		5,551	
Other		27,287		32,079	
Propane and related equipment revenues	\$	364,085	\$	371,013	

## Contract assets and liabilities

Ferrellgas' performance obligations are generally limited to the delivery of propane for its retail and wholesale contracts. Ferrellgas' performance obligations with respect to sales of appliances and other materials and other revenues are limited to the delivery of the agreed upon good or service. Ferrellgas does not have material performance obligations that are delivered over time, thus all of its revenue is recognized at the time the goods, including propane, are delivered or installed. Ferrellgas offers "even pay" and other billing programs that can create customer deposits or advances, depending on whether Ferrellgas has delivered more propane than the customer has paid for or whether the customer has paid for more propane than what has been delivered. Revenue is recognized from these customer deposits or advances to customers at the time product is delivered. The advance or deposit is considered to be a contract asset or liability. Additionally, from time to time, we have customers that pay in advance for goods or services, and such amounts result in contract liabilities.

Ferrellgas incurs incremental commissions directly related to the acquisition or renewal of customer contracts. The commissions are calculated and paid based upon the number of gallons sold to the acquired or renewed customer. The total amount of commissions that we incur is not material, and the commissions are expensed commensurate with the deliveries to which they relate; therefore, we do not capitalize these costs.

The following table presents the opening and closing balances of our contract assets and contract liabilities:

	For the three	For the three months ended October 3				
	2024	2024 2023				
Contract assets	\$ 2,824	\$ 4,771	\$ 6,833			
Contract liabilities						
Deferred revenue <sup>(1)</sup>	\$ 57,722	\$ 59,147	\$ 57,423			

(1) Of the beginning balance of deferred revenue, \$14.9 million and \$16.1 million was recognized as revenue during the three months ended October 31, 2024 and 2023, respectively. The unrecognized balance relates to even-pay billing amounts, for which revenue is typically fully recognized in the following fiscal year and varies primarily due to weather conditions and customer orders.

## **Remaining performance obligations**

Ferrellgas' remaining performance obligations are generally limited to situations where customers have remitted payment but have not yet received deliveries of propane. This most commonly occurs in even pay billing programs and Ferrellgas expects that these balances will be recognized within a year or less as the customer takes delivery of propane.

## I. Fair value measurements

#### Derivative financial instruments

The following table presents Ferrellgas' financial assets and financial liabilities that are measured at fair value on a recurring basis for each of the fair value hierarchy levels, including both current and noncurrent portions, as of October 31, 2024 and July 31, 2024:

	Asset (Liability)							
	Quoted Pric Markets fo Assets and (Lev	Liabilities		nificant Other ervable Inputs (Level 2)	Unol	bservable Inputs (Level 3)		Total
October 31, 2024:				· · · ·		· · · · ·		
Assets:								
Derivative financial instruments:								
Commodity derivatives	\$	_	\$	10,435	\$		\$	10,435
Liabilities:								
Derivative financial instruments:								
Commodity derivatives	\$	—	\$	(3,499)	\$		\$	(3,499)
July 31, 2024:								
Assets:								
Derivative financial instruments:								
Commodity derivatives	\$		\$	6,519	\$		\$	6,519
Liabilities:								
Derivative financial instruments:								
Commodity derivatives	\$		\$	(4,460)	\$	—	\$	(4,460)

## Methodology

The fair values of Ferrellgas' non-exchange traded commodity derivative contracts are based upon indicative price quotations available through brokers, industry price publications or recent market transactions and related market indicators. There were no transfers between Levels 1, 2 or 3 during the three months ended October 31, 2024 and the fiscal year ended July 31, 2024.

### Other financial instruments

The carrying amounts of other financial instruments included in current assets and current liabilities (except for current maturities of long-term debt) approximate their fair values because of their short-term nature. At October 31, 2024 and July 31, 2024, the estimated fair value of Ferrellgas' long-term debt instruments was \$1,413.2 million and \$1,416.8 million, respectively. Ferrellgas estimates the fair value of long-term debt based on quoted market prices. The fair value of Ferrellgas' consolidated debt obligations is a Level 2 valuation based on the observable inputs used for similar liabilities.

Ferrellgas has other financial instruments such as trade accounts receivable which could expose it to concentrations of credit risk. The credit risk from trade accounts receivable is limited because of a large customer base which extends across many different U.S. markets.

## J. Derivative instruments and hedging activities

Ferrellgas is exposed to certain market risks related to its ongoing business operations. These risks include exposure to changing commodity prices as well as fluctuations in interest rates. Ferrellgas utilizes derivative instruments to manage its exposure to fluctuations in commodity prices. Of these, the propane commodity derivative instruments are designated as cash flow hedges.

#### Derivative instruments and hedging activity

During the three months ended October 31, 2024 and 2023, Ferrellgas did not recognize any gain or loss in earnings related to hedge ineffectiveness and did not exclude any component of financial derivative contract gains or losses from the assessment of hedge effectiveness related to commodity cash flow hedges.

The following tables provide a summary of the fair value of derivatives within Ferrellgas' condensed consolidated balance sheets as October 31, 2024 and July 31, 2024:

	Final	October 31, 2024					
	Maturity	Asset Derivatives	Liability De	rivat	ives		
Derivative Instrument	Date	Location	F	air value	Location	F	air value
Derivatives designated as hedging	December 202	6

Ferrellgas' exchange traded commodity derivative contracts require a cash margin deposit as collateral for contracts that are in a negative mark-to-market position. These cash margin deposits will be returned if mark-to-market conditions improve or will be applied against cash settlement when the contracts are settled. Liabilities represent cash margin deposits received by Ferrellgas for contracts that are in a positive mark-to-market position. The following tables provide a summary of cash margin balances as of October 31, 2024 and July 31, 2024:

	October 31, 2024					
	Assets	Assets				
Description	Location	Location Amount				
Margin Balances	Prepaid expense and other		Other current			
	current assets	\$ 5,959	liabilities	\$ 5,667		
	Other assets, net	929	Other liabilities	500		
	Total	\$ 6,888	Total	\$ 6,167		
		July 31 20				

	July 31, 2024						
		Liabili	ties				
Description	Location	Location Amount					
Margin Balances	Prepaid expense and other		Other current

Accumulated other comprehensive income (loss)

## Ferrellgas Partners

The changes in derivatives included in AOCI for the three months ended October 31, 2024 and 2023 were as follows:

	For the three months ended October 31,			
Gains and losses on derivatives included in AOCI		2024		2023
Beginning balance attributable to Ferrellgas Partners, L.P.	\$	2,025	\$	1,059
Change in value of risk management commodity derivatives		4,190		(13,472)
Reclassification of losses on commodity hedges to cost of sales - propane and other				
gas liquids sales, net		687		3,184
Less: amount attributable to noncontrolling interests		(49)		104
Ending balance attributable to Ferrellgas Partners, L.P.	\$	6,853	\$	(9,125)

#### The operating partnership

The changes in derivatives included in AOCI for the three months ended October 31, 2024 and 2023 were as follows:

	For the three months ended October 31,			
Gains and losses on derivatives included in AOCI		2024		2023
Beginning balance	\$	2,059	\$	1,083
Change in value of risk management commodity derivatives		4,190		(13,472)
Reclassification of losses on commodity hedges to cost of sales - propane and other				
gas liquids sales, net		687		3,184
Ending balance	\$	6,936	\$	(9,205)

Ferrellgas expects to reclassify net gains of approximately \$6.4 million to earnings during the next 12 months. These net gains are expected to be offset by decreased margins on propane sales commitments Ferrellgas has with its customers that qualify for the normal purchase normal sale exception.

During the three months ended October 31, 2024 and 2023, Ferrellgas had no reclassifications to operations resulting from the discontinuance of any cash flow hedges arising from the probability of the original forecasted transactions not occurring within the originally specified period of time defined within the hedging relationship.

As of October 31, 2024, Ferrellgas had financial derivative contracts covering 4.0 million barrels of propane that were entered into as cash flow hedges of forward and forecasted purchases of propane.

#### Derivative financial instruments credit risk

Ferrellgas is exposed to credit loss in the event of nonperformance by counterparties to derivative financial and commodity instruments. Ferrellgas' counterparties principally consist of major energy companies and major U.S. financial institutions. Ferrellgas maintains credit policies with regard to its counterparties that it believes reduces its overall credit risk. These policies include evaluating and monitoring its counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by Ferrellgas in the forms of letters of credit, parent guarantees or cash. Ferrellgas has concentrations of credit risk associated with derivative financial instruments held by certain derivative financial instrument counterparties. If these counterparties that make up the concentration failed to perform according to the terms of their contracts at October 31, 2024, the maximum amount of loss due to credit risk that Ferrellgas would incur based upon the gross fair values of the derivative financial instruments is zero.

From time to time Ferrellgas enters into derivative contracts that have credit-risk-related contingent features which dictate credit limits based upon Ferrellgas' debt rating. There were no open derivative contracts with credit-risk-related contingent features as of October 31, 2024.

#### K. Transactions with related parties

Ferrellgas has no employees and is managed and controlled by its general partner. Pursuant to Ferrellgas' partnership agreements, the general partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on behalf of Ferrellgas and all other necessary or appropriate expenses allocable to Ferrellgas or otherwise reasonably incurred by its general partner in connection with operating Ferrellgas' business. These costs primarily include compensation and benefits paid to employees of the general partner who perform services on Ferrellgas' behalf and are reported in the condensed consolidated statements of operations as follows:

	 For the three months ended October 31,				
	 2024		2023		
Operating expense	\$ 74,292	\$	76,859		
General and administrative expense	\$ 12,082	\$	9,329		

See additional discussions about transactions with the general partner and related parties in Note G "Equity (Deficit)."

#### Issuance of letters of credit on behalf of Ferrellgas Partners by the operating partnership

As described in Note E "Debt" and Note L "Contingencies and commitments," the operating partnership guaranteed the issuance of an aggregate principal amount of \$124.5 million in letters of credit to the surety providers under an appeal bond posted on behalf of Ferrellgas Partners.

#### L. Contingencies and commitments

#### Litigation

Ferrellgas' policy is to expense litigation costs as incurred. Ferrellgas' operations are subject to all operating hazards and risks normally incidental to the handling, storing, transporting and otherwise providing for use by consumers of combustible liquids such as propane. As a result, at any given time, we can be threatened with or named as a defendant in various lawsuits arising in the ordinary course of business. Other than as discussed below, we are not a party to any legal proceedings other than various claims and lawsuits arising in the ordinary course of business. It is not possible to determine the ultimate disposition of these matters; however, management is of the opinion that there are no known claims or contingent claims that are reasonably expected to have a material adverse effect on our consolidated financial condition, results of operations and cash flows, except that management is continuing to evaluate the potential effects of the recent judgement in the EDPA Lawsuit discussed below.

Ferrellgas and Bridger Logistics, LLC ("Bridger"), were named, along with two former officers ("Rios and Gamboa"), in a lawsuit (the "EDPA Lawsuit") filed by Eddystone Rail Company ("Eddystone") on February 2, 2017 in the U.S. District Court for the Eastern District of Pennsylvania (the "Court"). On December 10, 2021, the Court dismissed Eddystone's claims against Rios and Gamboa, pursuant to a settlement agreement with Eddystone. Eddystone indicated that it has prevailed in or settled an arbitration against Jamex Transfer Services ("JTS"), previously named Bridger Transfer Services, a former subsidiary of Bridger. The arbitration involved a claim against JTS for money due for deficiency payments under a contract for the use of an Eddystone facility used to offload crude from rail onto barges. Eddystone alleges that Ferrellgas transferred assets out of JTS prior to the sale of the membership interest in JTS to Jamex Transfer Holdings, and that those transfers should be avoided so that the assets can be used to satisfy the amount owed by JTS to Eddystone as a result of the arbitration. Eddystone also alleges that JTS was an "alter ego" of Bridger and Ferrellgas and that Bridger and Ferrellgas breached both an implicit contract as well as fiduciary duties allegedly owed to Eddystone as a creditor of JTS.

The Court decided summary judgment motions in March 2022 and the three segments of the bench trial were completed in September 2022, December 2022 and February 2023, respectively. As set by the Court, briefings were held through May 2023 and closing arguments were held in August 2023.

On June 7, 2024, the Court entered an Order and Judgment (the "Judgment") in the EDPA Lawsuit. The Judgment was in favor of all defendants on Eddystone's alter ego and fiduciary duty claims. Further, the Judgment was in favor of Ferrellgas, L.P. and certain other defendants on Eddystone's intentional and constructive fraudulent transfer claims. However, on Eddystone's intentional and constructive fraudulent transfer claims, Judgment was entered against Bridger Energy, LLC in the amount of \$0.9 million, Bridger Transportation, LLC in the amount of \$1.4 million, and Ferrellgas Partners, L.P and Bridger in the amount of \$169.3 million. Ferrellgas and the other defendants are evaluating the Judgment and considering their options and have begun the process to appeal the Judgment, as further described below.

Ferrellgas Partners, Bridger, Bridger Energy, LLC and Bridger Transportation, LLC (collectively, the "Appellants") filed their notice of appeal on July 3, 2024 to appeal the Judgment to the U.S. Court of Appeals for the Third Circuit. On July 9, 2024, the District Court approved an order approving an appeal bond on behalf of Ferrellgas Partners, Bridger Energy, and Bridger Transportation (the "Bonded Appellants") in the amount of \$190 million (the "Appeal Bond") and granting a stay of execution with respect to the Bonded Appellants.

As of October 31, 2024, we recorded an accrued liability of \$125 million, which is included in other current liabilities in our condensed consolidated balance sheet. This accrual is included in general and administrative expense in our condensed consolidated statement of operations. This amount reflects management's assessment of our best estimate of probable loss based on current information and after evaluation of various potential outcomes. It is reasonably possible that the estimate of probable loss could change based on the progression of the case, including the appeal process. We will adjust the accrual for any subsequent significant changes that may occur which could impact the estimate of liability.

#### Long-term debt related commitments

Ferrellgas has long and short-term payment obligations under agreements such as the indentures governing its senior notes. See Note E "Debt" for a description of these debt obligations and a schedule of future maturities.

#### Tax matters

During the fourth quarter of fiscal 2024, the Company received a tax assessment related to multiple years from a local taxing jurisdiction for underpaid use tax. We filed a Petition for Redetermination and Request for Reconsideration at the local tax administration office as we believed we had meritorious defenses. Subsequent to October 31, 2024, the Company entered into settlement discussions and accrued the loss contingency.

## M. Net loss per unitholders' interest

Below is a calculation of the basic and diluted net loss per Class A Unitholders' interest in the condensed consolidated statements of operations for the periods indicated:

	For the three months ended October 31,				
	2024			2023	
	(in	thousands, excep	ot per	unit amounts)	
Net loss attributable to Ferrellgas Partners, L.P.	\$	(146,668)	\$	(17,556)	
Less: Distributions to preferred unitholders		16,232		16,251	
Less: General partner's interest in net loss		(1,467)		(175)	
Undistributed net loss attributable to Class A unitholders	\$	(161,433)	\$	(33,632)	
Weighted average Class A Units outstanding (in thousands)		4,857.6		4,857.6	
Basic and diluted net loss per Class A Unit	\$	(33.23)	\$	(6.92)	

#### Class B Units considerations

The Class B Units meet the definition of a participating security and the two-class method is required. For any periods in which earnings are recognized, the earnings will first be allocated 100% to the Class B Units until the allocation equals the cumulative amount of all distributions paid to the Class B Units. Any remaining undistributed net earnings will be allocated between the Class B Units and the Class A Units on a six-to-one basis as if all undistributed earnings had been distributed to each class of units in accordance with their distribution rights. For any periods in which losses are recognized, no effect is given to the Class B Units as they do not contractually participate in the losses of Ferrellgas. In addition, Ferrellgas has the option to redeem all, but not less than all, of the Class B Units outstanding at any time on or prior to March 30, 2026 for cash. This call option does not impact the dilutive effect of net loss per Class A Unit due to the cash-only redemption provision, which is assumed, and therefore there would be no dilutive effect.

## N. Subsequent events

Ferrellgas has evaluated events and transactions occurring after the balance sheet date through the date Ferrellgas' condensed consolidated financial statements were issued and concluded that there were no events or transactions occurring during this period that required recognition or disclosure in its condensed consolidated financial statements, except for the subsequent event described in Note E "Debt" related to its Credit Agreement.

## NOTES TO CONDENSED FINANCIAL STATEMENTS

# A. Formation

Ferrellgas Partners Finance Corp. ("Partners Finance Corp."), a Delaware corporation, was formed on March 28, 1996 and is a wholly-owned subsidiary of Ferrellgas Partners, L.P. ("Ferrellgas Partners").

Ferrellgas Partners contributed \$1,000 to Partners Finance Corp. on April 8, 1996 in exchange for 1,000 shares of common stock.

Partners Finance Corp. has nominal assets, does not conduct any operations and has no employees.

# B. Contingencies and commitments

Partners Finance Corp. serves as co-issuer and co-obligor for debt securities of Ferrellgas Partners. As of October 31, 2024, Ferrellgas Partners had no debt securities outstanding, and Partners Finance Corp. therefore was not liable as co-issuer for any such debt securities.

## C. Subsequent events

Partners Finance Corp. has evaluated events and transactions occurring after the balance sheet date through the date Partners Finance Corp.'s consolidated financial statements were issued and concluded that there were no events or transactions occurring during this period that required recognition or disclosure in its condensed financial statements.

## FERRELLGAS FINANCE CORP. (a wholly-owned subsidiary of Ferrellgas, L.P.) (unaudited)

## NOTES TO CONDENSED FINANCIAL STATEMENTS

## A. Formation

Ferrellgas Finance Corp. ("Finance Corp."), a Delaware corporation, was formed on January 16, 2003 and is a whollyowned subsidiary of Ferrellgas, L.P. (the "operating partnership").

The operating partnership contributed \$1,000 to Finance Corp. on January 24, 2003 in exchange for 1,000 shares of common stock.

Finance Corp. has nominal assets, does not conduct any operations and has no employees.

# B. Contingencies and commitments

Finance Corp. serves as co-issuer and co-obligor for debt securities of the operating partnership. As of October 31, 2024 and July 31, 2024, Finance Corp. was liable as co-issuer and co-obligor for the operating partnership's (i) \$650 million aggregate principal amount of unsecured senior notes due 2026 and (ii) \$825 million aggregate principal amount of unsecured senior notes due 2026, each of which were issued on March 30, 2021. Finance Corp. is also liable for borrowings under the operating partnership's Credit Facility, which matures on March 30, 2025. Due to the timing of the maturity date of the Credit Facility and the \$193.4 million in letters of credit which it secures there was substantial doubt about the Company's ability to continue as a going concern for at least one year from the date of issuance of the Finance Corp.'s fiscal 2024 Annual Report. Its condensed financial statements were prepared under the assumption that it will continue as a going concern. On December 5, 2024, the maturity date was subsequently extended from March 30, 2025 to December 31, 2025, which alleviated the substantial doubt about Finance Corp.'s ability to continue as a going concern at least one year from the date of issuance of this Quarterly Report.

## C. Subsequent events

Finance Corp. has evaluated events and transactions occurring after the balance sheet date through the date Finance Corp.'s condensed financial statements were issued and concluded that there were no events or transactions occurring, except for the subsequent event described in Note B "Contingencies and commitments" related to its Credit Agreement.

# ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

# **References and Defined Terms**

In this Item 2 of this Quarterly Report on Form 10-Q, unless the context indicates otherwise:

- "us," "we," "our," "ours," "consolidated," the "Company" or "Ferrellgas" are references to Ferrellgas Partners, L.P. together with its consolidated subsidiaries, including Ferrellgas, L.P., Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp., except when used in connection with "Class A Units" or "Class B Units," in which case these terms refer to Ferrellgas Partners, L.P. without its consolidated subsidiaries;
- "Ferrellgas Partners" refers to Ferrellgas Partners, L.P. itself, with its consolidated subsidiaries;
- the "operating partnership" refers to Ferrellgas, L.P., together (except where the context indicates otherwise) with its consolidated subsidiaries, including Ferrellgas Finance Corp.;
- our "general partner" refers to Ferrellgas, Inc.;
- "Ferrell Companies" refers to Ferrell Companies, Inc., the sole shareholder of our general partner;
- "Board of Directors" or "Board" refers to the board of directors of our general partner;
- "GAAP" refers to accounting principles generally accepted in the United States;
- "retail sales" refers to Propane and other gas liquid sales: Retail Sales to End Users, or the volume of propane sold primarily to our residential, industrial/commercial and agricultural customers;
- "wholesale sales" refers to Propane and other gas liquid sales: Wholesale Sales to Resellers, or the volume of propane sold primarily to our portable tank exchange customers and bulk propane sold to wholesale customers;
- "other gas sales" refers to Propane and other gas liquid sales: Other Gas Sales, or the volume of bulk propane sold to other third-party propane distributors or marketers and the volume of refined fuel sold;
- "propane sales volume" refers to the volume of propane sold to our retail sales and wholesale sales customers;
- "Class A Units" refers to the Class A Units of Ferrellgas Partners, one of which was issued for every twenty of Ferrellgas Partners' then-outstanding common units in a 1-for-20 reverse unit split effected on March 30, 2021;
- "Class B Units" refers to the Class B Units of Ferrellgas Partners;
- "Preferred Units" refers to the Senior Preferred Units of the operating partnership;
- "Unitholders" or "unitholders" refers to holders of Class A Units, holders of Class B Units or holders of Preferred Units, as indicated or as the context requires for each such reference; and
- references to any fiscal year are to the fiscal year ended or ending on July 31 of the applicable year.

Also, the following terms are defined in this Item 2 of this Quarterly Report on Form 10-Q:

- Amended Ferrellgas Partners LPA
- Amended OpCo LPA
- Credit Agreement
- Credit Facility
- Ferrellgas Partners Notes
- OpCo LPA Amendment

## **Cautionary Note Regarding Forward-looking Statements**

Statements included in this report include forward-looking statements. These forward-looking statements are identified as any statement that does not relate strictly to historical or current facts. These statements often use words such as "anticipate," "believe," "intend," "plan," "projection," "forecast," "strategy," "position," "continue," "estimate," "expect," "may," "will," or the negative of those terms or other variations of them or comparable terminology. These statements often discuss plans, strategies, events or developments that we expect or anticipate will or may occur in the future and are based upon the beliefs and assumptions of our management and on the information currently available to them. In particular, statements, express or implied, concerning our future operating results or financial position or our ability to generate sales, income or cash flow are forward-looking statements.

Forward-looking statements are not guarantees of performance. You should not put undue reliance on any forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions that could cause our actual results to differ materially from those expressed in or implied by these forward-looking statements. Many of the factors that will affect our future results are beyond our ability to control or predict. Some of the risk factors that may affect our business, financial condition or results of operations include:

- the effect of weather conditions on the demand for propane;
- the prices of wholesale propane, motor fuel and crude oil;
- disruptions to the supply of propane;
- competition from other industry participants and other energy sources;
- energy efficiency and technology advances;
- significant delays in the collection of accounts or notes receivable;
- customer, counterparty, supplier or vendor defaults;
- changes in demand for, and production of, hydrocarbon products;
- increased trucking and rail regulations;
- inherent operating and litigation risks in gathering, transporting, handling and storing propane;
- our inability to complete acquisitions or to successfully integrate acquired operations;
- costs of complying with, or liabilities imposed under, environmental, health and safety laws;
- the impact of pending and future legal proceedings;
- the interruption, disruption, failure or malfunction of our information technology systems including due to cyberattack;
- the impact of changes in tax law that could adversely affect the tax treatment of Ferrellgas Partners for federal income tax purposes;
- economic and political instability, particularly in areas of the world tied to the energy industry, including the ongoing conflict between Russia and Ukraine and in the Middle East;
- disruptions in the capital and credit markets; and
- access to available capital to meet our operating and debt-service requirements.

When considering any forward-looking statement, you should also keep in mind the risk factors set forth in "Item 1A. Risk Factors" of our Annual Report on Form 10-K for fiscal 2024 and in any more recent filings with the SEC. Any of these risks could impair our business, financial condition or results of operations. Any such impairment may affect our ability to make distributions to our unitholders or pay interest on the principal of any of our debt securities. In addition, the trading price of our securities could decline as a result of any such impairment.

Except for our ongoing obligations to disclose material information as required by federal securities laws, we undertake no obligation to update any forward-looking statements or risk factors after the date of this Quarterly Report on Form 10-Q.

## Overview

Our management's discussion and analysis of financial condition and results of operations relates to Ferrellgas Partners and the operating partnership.

Ferrellgas Partners is a holding entity that conducts no operations and has two direct subsidiaries, the operating partnership and Ferrellgas Partners Finance Corp. Our activities are primarily conducted through the operating partnership. Ferrellgas Partners and the Preferred Unitholders are the only limited partners of the operating partnership. Ferrellgas, Inc. is the sole general partner of Ferrellgas Partners and the operating partnership and, excluding the economic interests attributable to the Class B Units and the Preferred Units, owns an approximate 1% general partner economic interest in each, and, therefore, an effective 2% general partner economic interest in the operating partnership. Excluding the economic interests attributable to the Preferred Units, Ferrellgas Partners owns an approximate 99% limited partner interest in the operating partnership. For information regarding the economic and other terms of the Class B Units and the Preferred Units, see Note G "Equity (Deficit)" and Note F "Preferred units" to our condensed consolidated financial statements included elsewhere herein.

Our general partner performs all management functions for us. The parent company of our general partner, Ferrell Companies, currently beneficially owns approximately 23.4% of our outstanding Class A units. Ferrell Companies is owned 100% by an employee stock ownership trust.

The operating partnership was formed on April 22, 1994, and accounts for substantially all of our consolidated assets, sales and operating earnings.

Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp. have nominal assets, do not conduct any operations and have no employees other than officers. Ferrellgas Partners Finance Corp. has served as co-issuer and co-obligor for debt securities of Ferrellgas Partners, while Ferrellgas Finance Corp., a subsidiary of the operating partnership, serves as co-issuer and co-obligor for debt securities of the operating partnership. Accordingly, and due to the reduced disclosure format, a discussion of the results of operations, liquidity and capital resources of Ferrellgas Partners Finance Corp. and Ferrellgas Finance Corp. is not presented in this section.

The Class A Units of Ferrellgas Partners are traded on the OTC Pink Market under the symbol "FGPR."

We file annual, quarterly, and current reports and other information with the Securities and Exchange Commission (the "SEC"). You may read and download our SEC filings over the Internet from several commercial document retrieval services as well as at the SEC's website at www.sec.gov. Our SEC filings are also available on our website at www.ferrellgas.com at no cost as soon as reasonably practicable after our electronic filing or furnishing thereof with the SEC. Please note that any Internet addresses provided in this Quarterly Report on Form 10-Q are for informational purposes only and are not intended to be hyperlinks. Accordingly, no information found and/or provided at such Internet addresses is intended or deemed to be incorporated by reference herein.

The following is a discussion of our historical financial condition and results of operations and should be read in conjunction with our audited historical consolidated financial statements and accompanying notes thereto included in our Annual Report on Form 10-K for fiscal 2024 and in our unaudited historical condensed consolidated financial statements and accompanying notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

The discussions set forth in the "Results of Operations" and "Liquidity and Capital Resources" sections generally refer to Ferrellgas Partners and its consolidated subsidiaries.

#### How We Evaluate Our Operations

We evaluate our overall business performance based primarily on a metric we refer to as "Adjusted EBITDA," which is not defined by GAAP and should not be considered an alternative to earnings measures defined by GAAP. We do not utilize depreciation, depletion and amortization expense in our key measures because we focus our performance management on cash flow generation and our revenue generating assets have long useful lives. For the definition of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to net loss attributable to Ferrellgas Partners, L.P., the most directly comparable GAAP measure, see the subheading "Non-GAAP Financial Measures" below.

#### Propane operations and related equipment sales

Based on our propane sales volumes in fiscal 2024, we believe that we are the second largest retail marketer of propane in the United States and a leading national provider of propane by portable tank exchange. We serve residential, industrial/commercial, portable tank exchange, agricultural, wholesale and other customers in all 50 states, the District of Columbia and Puerto Rico. Our operations primarily include the retail distribution and sale of propane and related equipment and supplies.

We use information on temperatures to understand how our results of operations are affected by temperatures that are warmer or colder than normal. Normal temperatures computed by us are the average of the last 10 years of information published by the National Oceanic and Atmospheric Administration ("NOAA"). Based on this information we calculate a ratio of actual heating degree days to normal heating degree days. Heating degree days are a general indicator of weather impacting propane usage.

Weather conditions have a significant impact on demand for propane for heating purposes primarily during the months of November through March (the "winter heating season"). Accordingly, the volume of propane used by our customers for this purpose is directly affected by the severity of the winter weather in the regions we serve and can vary substantially from year to year. In any given region, sustained warmer-than-normal temperatures will tend to result in reduced propane usage, while sustained colder-than-normal temperatures will tend to result in greater usage. Although there is a strong correlation between weather and customer usage, general economic conditions in the United States and the wholesale price of propane can have a significant impact on this correlation. Additionally, there is a natural time lag between the onset of cold weather and increased sales to customers. If the United States were to experience a cooling trend, we could expect nationwide demand for propane to increase which could lead to greater sales, income and cash flow. Conversely, if the United States were to experience a continued warming trend, we could expect nationwide demand for propane for heating purposes to decrease which could lead to a reduction in our sales, income and cash flow as well as impact our ability to maintain compliance with our debt covenants.

We employ risk management activities that attempt to mitigate price risks related to the purchase, storage, transport and sale of propane generally in the contract and spot markets from major domestic energy companies. We attempt to mitigate these price risks through the use of financial derivative instruments and forward propane purchase and sales contracts. We enter into propane sales commitments with a portion of our customers that provide for a contracted price agreement for a specified period of time. These commitments can expose us to product price risk if not immediately hedged with an offsetting propane purchase commitment.

Our open financial derivative propane purchase commitments are designated as hedges primarily for fiscal 2025 and 2026 sales commitments and, as of October 31, 2024, we have experienced net mark-to-market gains of approximately \$6.9 million. Because these financial derivative purchase commitments qualify for hedge accounting treatment, the resulting asset, liability and related mark-to-market gains or losses are recorded on the condensed consolidated balance sheets as "Prepaid expenses and other current assets," "Other assets, net," "Other current liabilities," "Other liabilities" and "Accumulated other comprehensive income," respectively, until settled. Upon settlement, realized gains or losses on these contracts will be reclassified to "Cost of sales-propane and other gas liquid sales" in the condensed consolidated statements of operations as the underlying inventory is sold. These financial derivative purchase commitment net gains are expected to be offset by decreased margins on propane sales commitments that qualify for the normal purchase normal sale exception. At October 31, 2024, we estimate 88% of currently open financial derivative purchase commitments, the related propane sales commitments and the resulting gross margin will be realized into earnings during the next twelve months.

## **Summary Discussion of Results of Operations:**

#### **Executive Overview**

#### For the three months ended October 31, 2024 and 2023

During the three months ended October 31, 2024 and 2023, we recognized a net loss attributable to Ferrellgas Partners, L.P. of \$146.6 million and \$17.5 million, respectively. The \$129.1 million change was primarily driven by increases of \$125.1 million in "General and administrative expense" primarily related to a legal accrual, \$3.5 million in "Operating expense – personnel, vehicle, plant and other" and \$1.9 million in "Interest expense." After adjusting for \$4.0 million in legal fees and settlements related to core businesses, we had a \$0.5 million decrease in "Operating expense – personnel, vehicle, plant and other." The \$1.9 million increase in "Interest expense" is comprised of a \$1.2 million increase for letters of credit fees and a \$0.7 million increase for amortization of debt issuance costs related to the fiscal 2024 amendment to the Company's revolving credit facility.

Distributable cash flow attributable to equity investors decreased to \$3.4 million for the three months ended October 31, 2024 compared to \$8.0 million for the prior year period, primarily due to increases of \$5.9 million in "Maintenance capital expenditures" and \$1.7 million in "Net cash interest expense," partially offset by a \$2.9 million increase in Adjusted EBITDA. The increase in "Maintenance capital expenditures" primarily relates to failed sale-leaseback arrangements and production plant upgrades.

During the three months ended October 31, 2024 and 2023, we had a distributable cash flow shortage of \$12.9 million and \$8.4 million, respectively. This \$4.5 million change was primarily due to the \$4.6 million decrease in distributable cash flow attributable to equity investors noted above.

## **Consolidated Results of Operations**

## **Non-GAAP Financial Measures**

In this Quarterly Report we present the following Non-GAAP financial measures: Adjusted EBITDA, Distributable cash flow attributable to equity investors, Distributable cash flow attributable to Class A and B Unitholders, and Distributable cash flow shortage.

Adjusted EBITDA. Adjusted EBITDA for Ferrellgas Partners is calculated as net loss attributable to Ferrellgas Partners, L.P., plus the sum of the following: income tax expense, interest expense, depreciation and amortization expense, non-cash employee stock ownership plan compensation charge, loss on asset sales and disposals, other income, net, legal fees and settlements related to non-core businesses, legal fees and settlements related to core businesses, business transformation costs, and net loss attributable to noncontrolling interest. Management believes the presentation of this measure is relevant and useful because it allows investors to view the partnership's performance in a manner similar to the method management uses, adjusted for items management believes make it easier to compare its results with other companies that have different financing and capital structures. Adjusted EBITDA, as management defines it, may not be comparable to similarly titled measurements used by other companies. Items added into our calculation of Adjusted EBITDA that will not occur on a continuing basis may have associated cash payments. This method of calculating Adjusted EBITDA should be viewed in conjunction with measurements that are computed in accordance with GAAP.

Distributable Cash Flow Attributable to Equity Investors. Distributable cash flow attributable to equity investors is calculated as Adjusted EBITDA minus net cash interest expense, maintenance capital expenditures and cash paid for income taxes, plus proceeds from certain asset sales. Management considers distributable cash flow attributable to equity investors, including holders of the operating partnership's Preferred Units. Distributable cash flow attributable to equity investors, as management defines it, may not be comparable to similarly titled measurements used by other companies. Items added into our calculation of distributable cash flow attributable to equity investors that will not occur on a continuing basis may have associated cash payments. Distributable cash flow attributable to equity investors should be viewed in conjunction with measurements that are computed in accordance with GAAP.

Distributable Cash Flow Attributable to Class A and B Unitholders. Distributable cash flow attributable to Class A and B Unitholders is calculated as Distributable cash flow attributable to equity investors minus distributions accrued or paid to Preferred Unitholders and distributable cash flow attributable to general partner and noncontrolling interest. Management considers Distributable cash flow attributable to Class A and B Unitholders a meaningful measure of the partnership's ability to declare and pay quarterly distributions to Class A and B Unitholders. Distributable cash flow attributable to Class A and B Unitholders. Distributable cash flow attributable to Class A and B Unitholders. Distributable cash flow attributable to Class A and B Unitholders. Distributable cash flow attributable to Class A and B Unitholders, as management defines it, may not be comparable to similarly titled measurements used by other companies. Items added into our calculation of distributable cash flow attributable to Class A and B Unitholders that will not occur on a continuing basis may have associated cash payments. Distributable cash flow attributable to Class A and B Unitholders should be viewed in conjunction with measurements that are computed in accordance with GAAP.

*Distributable Cash Flow Shortage*. Distributable cash flow shortage is calculated as Distributable cash flow attributable to Class A and B Unitholders minus Distributions paid to Class A and B Unitholders. Distributable cash flow excess, if any, is retained to establish reserves, to reduce debt, to fund capital expenditures and for other partnership purposes, and any shortage is funded from previously established reserves, cash on hand or borrowings under our Credit Facility. Management considers Distributable cash flow excess a meaningful measure of the partnership's ability to effectuate those purposes. Distributable cash flow shortage, as management defines it, may not be comparable to similarly titled measurements used by other companies. Items added into our calculation of distributable cash flow shortage that will not occur on a continuing basis may have associated cash payments. Distributable cash flow shortage should be viewed in conjunction with measurements that are computed in accordance with GAAP.

The following table reconciles Adjusted EBITDA, Distributable cash flow attributable to equity investors, Distributable cash flow attributable to Class A and B Unitholders and Distributable cash flow shortage to Net loss attributable to Ferrellgas Partners, L.P., the most directly comparable GAAP measure, for the three months ended October 31, 2024 and 2023:

(amounts in thousands)	Three months ended October 3 2024 2023	
Net loss attributable to Ferrellgas Partners, L.P.	\$ (146,668)	\$ (17,556)
Income tax expense	180	162
Interest expense	26,081	24,161
Depreciation and amortization expense	24,325	24,404
EBITDA	(96,082)	31,171
Non-cash employee stock ownership plan compensation charge	853	720
Loss on asset sales and disposals	1,427	1,335
Other income, net	(857)	(1,336)
Legal fees and settlements related to non-core businesses	127,386	1,054
Legal fees and settlements related to core businesses	4,040	—
Business transformation costs <sup>(1)</sup>	706	274
Net loss attributable to noncontrolling interest	(1,662)	(345)
Adjusted EBITDA	35,811	32,873
Net cash interest expense <sup>(2)</sup>	(22,473)	(20,747)
Maintenance capital expenditures <sup>(3)</sup>	(10,414)	(4,530)
Cash paid for income taxes	(77)	(103)
Proceeds from certain asset sales	556	480
Distributable cash flow attributable to equity investors	3,403	7,973
Less: Distributions accrued or paid to preferred unitholders	16,232	16,251
Distributable cash flow attributable to general partner and non-controlling interest	(68)	(159)
Distributable cash flow attributable to Class A and B unitholders	(12,897)	(8,437)
Less: Distributions paid to Class A and B unitholders (4)	_	
Distributable cash flow shortage	\$ (12,897)	\$ (8,437)

(1) Non-recurring costs included in "Operating, general and administrative expense" primarily related to the implementation of an Enterprise Resource Planning ("ERP") system as part of our business transformation initiatives.

(2) Net cash interest expense is the sum of interest expense less non-cash interest expense and other income, net.

(3) Maintenance capital expenditures include capitalized expenditures for betterment and replacement of property, plant and equipment, and may from time to time include the purchase of assets that are typically leased.

(4) The Company did not pay any distributions to Class A unitholders during fiscal 2025 or fiscal 2024.

# Operating Results for the three months ended October 31, 2024 and 2023

The following table summarizes propane sales volumes and Adjusted EBITDA results for the periods indicated:

As of October 31, Retail customers       615,996       638,003       (22,007)       (3)%         Tank exchange selling locations       68,164       62,676       5,488       9 %         (mounts in thousands)       Intere months anded October 31, Propane sales volumes (gallons):       Intere months mended October 31, Propane sales to End Users       106,731       114,440       (7,709)       (7)%         Wholesale - Sales to Resellers       1157,971       162,205       (4,234)       (3)%         Retail - Sales to Resellers       113,849       105,523       8,326       8 %         Other Gas Sales (1)       7,670       5,51       2,119       38 %       0       (6)%         Wholesale - Sales to Resellers       113,849       105,523       8,326       8 %       0       (12,920)       (15)%         Other Gas Sales (1)       7,670       5,51       2,119       38 %       (12,920)       (15)%       (15)%         Propane and related equipment revenues       §       364,085       § 371,013       § (6,928)       (2)%         Gross Margin -       Propane and other gas liquids sales gross margin: (3)       (14)%       (14)%       (17)%         Propane and related equipment gross profit       § 119,073       \$ 104,885       \$ 14,188       14 % <t< th=""><th></th><th>2024</th><th>2023</th><th>Increase (Dec</th><th>rease)</th></t<>		2024	2023	Increase (Dec	rease)

NM – Not meaningful

(1) Gross margin for "Other Gas Sales" is allocated to Gross margin "Retail - Sales to End Users" and "Wholesale - Sales to Resellers" based on the volumes in each respective category.

(2) "Other" primarily includes various customer fee income and to a lesser extent appliance and material sales.

(3) Gross margin from "Propane and other gas liquids sales" represents "Revenues - Propane and other gas liquids sales" less "Cost of sales - Propane and other gas liquids sales" and does not include depreciation and amortization.

(4) "Operating, general and administrative expense" above includes both the "Operating expense – personnel, vehicle, plant and other" and the "General and administrative expense" captions in the condensed consolidated statement of operations.

(5) Non-recurring costs included in "Operating, general and administrative expense" primarily related to the implementation of an ERP system as part of our business transformation initiatives.

Propane sales volumes during the three months ended October 31, 2024 decreased 4.2 million gallons, or 3%, compared to the prior year period. Average temperatures (measured by heating degree days) were 20% warmer than normal (based on NOAA's ten-year average) and 16% warmer than the prior year period during the three months ended October 31, 2024. In addition to warmer weather, severe weather events on small businesses resulting in their closings and the effects of inflation, contributed to a 3% decrease in retail customers compared to the prior year period, which also impacted sales volumes.

Our wholesale sales price per gallon partially correlates to the change in the wholesale market price of propane. The wholesale market price at major supply points in Mt. Belvieu, Texas during the three months ended October 31, 2024 averaged the same as the prior year period, while at the Conway, Kansas major supply point prices averaged 4.4% more than the prior year period. The wholesale market price at Mt. Belvieu, Texas averaged \$0.70 per gallon during the three months ended October 31, 2024 and 2023, while the wholesale market price at Conway, Kansas averaged \$0.71 and \$0.68 per gallon during the three months ended October 31, 2024 and 2023, respectively. However, in the Pacific Northwest region and some of the Mountain region in which we operate, prices averaged 2.7% less per gallon during the three months ended October 31, 2024 compared to the prior year period due to Los Angeles and the Bay Area pricing. These regional pricing differentials accounted for additional decreases in revenue noted below compared to the volume decrease.

#### **Revenues**

Retail sales decreased \$12.6 million, or 6%, compared to the prior year period and correlates to the decrease in gallons sold of 7.7 million gallons, or 7%. Business closings due to severe weather events, the effects of inflation, and weather that was 16% warmer than the prior year quarter were all factors contributing to the decrease in retail gallons sold. As a nationwide logistics provider, we continue to expand our footprint outside of our midwest core, realizing organic growth in our customer base both in the west and southeast during the first fiscal quarter. Our business development team continues to deliver strategic opportunities, such as the acquisition of Kilhoffer Propane, located in Oklahoma, in October 2024. Our retail business also benefits from the strength of its national accounts team. Standing out from their wins this quarter are three key new national accounts, providing more than 700,000 gallons annually.

Wholesale sales increased \$8.3 million, or 8%, compared to the prior year period with a corresponding increase of 3.5 million gallons, or 7%, compared to the prior year period. The favorable increase was driven by an \$8.8 million increase in tank exchange sales due to organic growth primarily driven by new customer wins. Storm preparation and response to Hurricane Helene and Hurricane Milton during the current year quarter also added growth. Tank exchange selling locations increased 9% compared to the prior year period as new major accounts accounted for the majority of the increase of approximately 5,500 tank exchange selling locations compared to the prior year period.

Other gas sales increased \$2.1 million, or 38%, compared to the prior year period primarily due to an increase in sales volume.

Other revenues decreased \$4.8 million, or 15%, compared to the prior year period. The change was primarily due to a decrease of \$5.8 million in transport revenue, partially offset by an increase in miscellaneous revenues and fees.

#### Gross margin - Propane and other gas liquids sales

Gross margin increased \$5.7 million as the \$14.2 million increase in retail gross margin was partially offset by an \$8.5 million decrease in wholesale gross margin. The overall change was driven by a \$7.8 million decrease in cost of sales, which was partially offset by a \$2.1 million decrease in revenue. Our telematics technology provides a platform under which we can manage our fleet to reduce fuel costs and boost route efficiencies such as reducing idling time, which drove the decrease in cost of sales as compared to the prior year period.

Margin per gallon for the quarter increased by \$0.06, or 6%, compared to the prior year period. The volume on our Platinum Plus fixed cost program for residential customers and national account wins as well as west coast gains were primary factors in margin improvement during the quarter.

#### Gross margin - other

Gross margin decreased \$4.8 million, or 17%, compared to the prior year period.

#### Operating (loss) income

We had an operating loss of \$122.9 million during the three months ended October 31, 2024 compared to operating income of \$5.1 million during the three months ended October 31, 2023. The \$128.0 million change was primarily due to a \$128.6 million increase in "Operating, general and administrative expense," partially offset by the \$0.9 million increase in gross margin noted above. The \$128.6 million increase in "Operating, general and administrative expense" and administrative expense is comprised of increases of \$125.1 million in "General and administrative expense" and \$3.5 million increase in "Operating expense – personnel, vehicle, plant and other."

After adjusting for \$4.0 million in legal fees and settlements related to core businesses, "Operating expense – personnel, vehicle, plant and other" decreased \$0.5 million.

After adjusting for increases of \$126.3 million in legal fees and settlements related to non-core businesses and \$0.4 million for business transformation activities, "General and administrative expense" decreased \$1.6 million. See Note L "Contingencies and commitments" in the notes to our condensed consolidated financial statements for information on a \$125.0 million legal accrual.

#### Adjusted EBITDA

Adjusted EBITDA increased \$2.9 million primarily due to a decrease of \$2.2 million in "Operating, general and administrative expense," after adjusting for an increase of \$130.8 million in EBITDA adjustments, and a \$0.9 million increase in gross margin as described above.

# Liquidity and Capital Resources

#### General

Our primary sources of liquidity and capital resources are cash flows from operating activities, our Credit Facility and funds received from sales of debt and equity securities. The operating partnership, the general partner and certain of the operating partnership's subsidiaries as guarantors are parties to a credit agreement dated March 30, 2021, as amended on July 2, 2024 (the "Credit Agreement"), with JPMorgan Chase Bank, N.A. as administrative agent and collateral agent, and the lenders and issuing lenders party thereto from time to time, which provides for a four-year revolving credit facility (the "Credit Facility"), with a maturity date of March 30, 2025, in an aggregate principal amount of up to \$350.0 million. The Credit Agreement includes a sublimit not to exceed \$300.0 million for the issuance of letters of credit. On December 5, 2024, the Credit Agreement was amended to, among other things, extend the maturity date from March 30, 2025 to December 31, 2025. On March 31, 2025, in conjunction with the commencement of the Fifth Amendment, the commitment level for the credit facility will be reduced from \$350.0 million. For additional discussion, see Note E "Debt" in the notes to our condensed consolidated financial statements.

As of October 31, 2024, our total liquidity was \$163.5 million, which was comprised of \$37.0 million in unrestricted cash and \$126.5 million of availability under our Credit Facility. These sources of liquidity and short-term capital resources are intended to fund our working capital requirements, acquisitions and capital expenditures. As of October 31, 2024, letters of credit outstanding totaled \$200.6 million. Our access to long-term capital resources, to the extent needed to refinance debt or for other purposes, may be affected by our ability to access the capital markets, covenants in our debt agreements and other financial obligations, unforeseen demands on cash, or other events beyond our control.

As of October 31, 2024, we had \$10.6 million of restricted cash consisting of a cash deposit made with the administrative agent under our prior secured credit facility that was terminated in April 2020.

Our working capital requirements are subject to, among other things, the price of propane, delays in the collection of receivables, volatility in energy commodity prices, liquidity imposed by insurance providers, downgrades in our credit ratings, decreased trade credit, significant acquisitions, the weather, customer retention and purchasing patterns and other changes in the demand for propane. Relatively colder weather or higher propane prices during the winter heating season are factors that could significantly increase our working capital requirements.

Our ability to satisfy our obligations is dependent upon our future performance, which will be subject to prevailing weather, economic, financial and business conditions and other factors, many of which are beyond our control. Due to the seasonality of the retail propane distribution business, a significant portion of our propane operations and related products cash flows from operations is generated during the winter heating season. Our net cash provided by operating activities primarily reflects earnings from our business activities adjusted for depreciation and amortization and changes in our working capital accounts. Historically, we generate significantly lower net cash from operating activities in our first and fourth fiscal quarters as compared to the second and third fiscal quarters due to the seasonality of our propane operations and related equipment sales operations.

During periods of high volatility, our risk management activities may expose us to the risk of counterparty margin calls in amounts greater than we have the capacity to fund. Likewise, our counterparties may not be able to fulfill their margin calls from us or may default on the settlement of positions with us.

Due to the timing of the March 30, 2025 maturity date of the Credit Facility noted above and the letters of credit which it secures, there was substantial doubt about the Company's ability to continue as a going concern for at least one year from the date of issuance of the Company's fiscal 2024 Annual Report. Our condensed financial statements were prepared under the assumption that we will continue as a going concern. As noted above, the maturity date was subsequently extended to December 31, 2025, which alleviated the substantial doubt about the Company's ability to continue as a going concern at least one year from the date of issuance of this Quarterly Report. Therefore, we believe that the liquidity available from cash flows from operating activities, unrestricted cash and the Credit Facility will be sufficient to meet our capital expenditure, working capital and letter of credit requirements for the foreseeable future.

## **Distributable Cash Flow**

Distributable cash flow attributable to equity investors is reconciled to net loss attributable to Ferrellgas Partners, L.P., the most directly comparable GAAP measure, in this Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations under the subheading "Non-GAAP Financial Measures" above. A comparison of distributable cash flow attributable to equity investors to cash distributions accrued or paid to equity investors for the twelve months ended October 31, 2024 to the twelve months ended July 31, 2024 is as follows (in thousands):

	Cash reserves Distributable (deficiency) cash flow attributable approved by our to equity investors General Partner			accr	n distributions ued or paid to uity investors	DCF ratio <sup>(1)</sup>	
Three months ended October 31, 2024	\$	3,403	\$	(12,829)	\$	16,232	
Fiscal 2024		212,265		147,487		64,778	
Less: Three months ended October 31, 2023		7,973		(8,278)		16,251	
Twelve months ended October 31, 2024	\$	207,695	\$	142,936	\$	64,759	3.2x
Twelve months ended July 31, 2024		212,265		147,487		64,778	3.3x
Change	\$	(4,570)	\$	(4,551)	\$	(19)	(0.1)x

(1) DCF ratio is calculated as Distributable cash flow attributable to equity investors divided by Cash distributions accrued or paid to equity investors.

For the twelve months ended October 31, 2024, distributable cash flow attributable to equity investors decreased \$4.6 million compared to the twelve months ended July 31, 2024 primarily due to increases of \$5.9 million in "Maintenance capital expenditures" and \$1.7 million in "Net cash interest expense," partially offset by a \$2.9 million increase in Adjusted EBITDA. The increase in "Maintenance capital expenditures" relates to failed sale-leaseback arrangements and production plant upgrades. As of October 31, 2024, the accrued quarterly distribution to Preferred Unitholders was \$18.1 million. We paid \$15.4 million of this distribution on November 15, 2024. The remaining \$2.7 million represents Additional Amounts payable to certain holders of Preferred Units, pursuant to the side letters outlined in the OpCo LPA Amendment.

We did not pay any cash distributions to our Class A Unitholders or the general partner during the three months ended October 31, 2024 or 2023. We have made aggregate cash distributions of approximately \$250.0 million to our Class B Unitholders since inception of our Class B Units. Under its Credit Agreement, Ferrellgas Partners is currently unable to make distributions to its Class A and Class B unitholders. See Note E "Debt" for more information. Cash reserves, which we utilize to meet future anticipated expenditures, were \$142.9 million and \$147.5 million for the twelve months ended October 31, 2024 and July 31, 2024, respectively.

#### **Operating Activities**

## Ferrellgas Partners

Net cash used in operating activities was \$34.3 million and \$18.9 million for the three months ended October 31, 2024 and 2023, respectively. The \$15.4 million increase in cash used in operating activities was primarily due to a \$130.1 million decrease in cash flow from operations and a \$23.3 million increase in working capital requirements. These changes were partially offset by a \$130.9 million decrease in requirements for other current liabilities.

The \$130.1 million decrease in cash flow from operations was primarily due to an increase of \$125.1 million in "General and administrative expense" related to a legal accrual, as described in Note L "Contingencies and commitments." The \$23.3 million increase in working capital requirements was primarily due to a \$27.5 million increase in requirements for accounts and notes receivable, net. This was partially offset by decreases of \$2.7 million in inventory requirements and \$1.5 million in requirements for accounts payable.

The \$130.9 million decrease in net cash requirements for other current liabilities was primarily driven by the legal accrual, as described above.

#### The operating partnership

The operating activities discussed above also apply to the operating partnership.

#### **Investing Activities**

## Ferrellgas Partners

#### **Capital Requirements**

Our business requires continual investments to upgrade or enhance existing operations and to ensure compliance with safety and environmental regulations. Capital expenditures for our business consist primarily of:

- Maintenance capital expenditures These capital expenditures include expenditures for betterment and
  replacement of property, plant and equipment, and may from time to time include the purchase of assets that are
  typically leased, rather than to generate incremental distributable cash flow. Examples of maintenance capital
  expenditures include a routine replacement of a worn-out asset or replacement of major vehicle components; and
- Growth capital expenditures These expenditures are undertaken primarily to generate incremental distributable cash flow. Examples include expenditures for purchases of both bulk and portable propane tanks and other equipment to facilitate expansion of our customer base and operating capacity.

Net cash used in investing activities was \$25.1 million and \$23.1 million for the three months ended October 31, 2024 and 2023, respectively. The \$2.0 million increase in net cash used in investing activities was primarily due to a \$3.7 million increase in "Business acquisitions, net of cash acquired," partially offset by a \$1.5 million decrease in "Capital expenditures" as our tank exchange brand's supply chain initiatives reduced the need for cylinder purchases. We had one acquisition during the three months ended October 31, 2024 compared to none during the three months ended October 31, 2023.

Due to the mature nature of our operations, we do not anticipate significant fluctuations in maintenance capital expenditures, with the exception of future decisions regarding lease versus buy financing options. However, future fluctuations in growth capital expenditures could occur due to the opportunistic nature of these projects.

#### The operating partnership

The investing activities discussed above also apply to the operating partnership.

#### **Financing Activities**

#### Ferrellgas Partners

Net cash used in financing activities was \$17.1 million and \$18.6 million for the three months ended October 31, 2024 and 2023, respectively. The \$1.5 million decrease in cash used in financing activities was primarily due to an increase of \$2.9 million in "Other, net," which was primarily related to the liability related to failed sale-leaseback arrangements.

On July 10, 2024, letters of credit in an aggregate principal amount of \$124.5 million were issued to the surety providers under an appeal bond posted on behalf of Ferrellgas Partners. See Note L "Contingencies and commitments" to the consolidated financial statements for further information. Letters of credit were also used to secure insurance arrangements, product purchases and commodity hedges. Letters of credit outstanding at October 31, 2024 and July 31, 2024 totaled \$200.6 and \$193.4 million, respectively. As of October 31, 2024, we had available borrowing capacity under our Credit Facility of \$126.5 million. Assets subject to lien under the Credit Facility were \$333.3 million as of October 31, 2024.

#### The operating partnership

The financing activities discussed above also apply to the operating partnership.

#### **Distributions**

#### Partnership distributions

The Sixth Amended and Restated Agreement of Limited Partnership of Ferrellgas Partners, L.P. (the "Amended Ferrellgas Partners LPA") requires Ferrellgas Partners to make quarterly cash distributions of all of its "available cash". Available cash is defined in the Amended Ferrellgas Partners LPA as, generally, the sum of Ferrellgas Partners' cash receipts less consolidated cash disbursements and net changes in reserves established by our general partner for future requirements. In general, the amount of Ferrellgas Partners' available cash depends primarily on whether and the extent to which Ferrellgas Partners receives cash distributions from the operating partnership, as such distributions generally would be Ferrellgas Partners' only significant cash receipts.

The Fifth Amended and Restated Agreement of Limited Partnership of Ferrellgas, L.P. (the "Amended OpCo LPA"), which amended and restated in its entirety the Fourth Amended and Restated Agreement of Limited Partnership of Ferrellgas L.P., and a First Amendment to the Amended OpCo LPA (the "OpCo LPA Amendment"), sets forth the preferences, rights, privileges and other terms of the Preferred Units.

Pursuant to the Amended Ferrellgas Partners LPA, while any Class B Units remain outstanding, any distributions by Ferrellgas Partners to its partners must be made such that the ratio of (i) the amount of distributions made to holders of Class B Units to (ii) the amount of distributions made to holders of Class A Units and the general partner is not less than 6:1. The Amended Ferrellgas Partners LPA permits Ferrellgas Partners, in the general partner's discretion, to make distributions to the Class B Unitholders in a greater proportion than the minimum 6:1 ratio, including paying 100% of any such distribution to Class B Unitholders. The Class B Units will not be convertible into Class A Units until Class B Unitholders receive distributions in the aggregate amount of \$357.0 million, which was the \$357.0 million aggregate principal amount of Ferrellgas Partners' unsecured senior notes due June 15, 2020 (the "Ferrellgas Partners Notes"), and the rate at which Class B Units will convert into Class A Units increases annually. Additionally, the price at which Ferrellgas Partners may redeem the Class B Units during the first five years after March 30, 2021 is based on the Class B Unitholders' receipt of a specified internal rate of return in respect of their Class B Units. This specified internal rate of return in respect of the Class B Units is 15.85%, but that amount increases under certain circumstances, including if the operating partnership paid distributions on the Preferred Units in-kind rather than in cash for a certain number of quarters. Accordingly, distributing cash to the Class B Unitholders in a greater proportion than the minimum 6:1 ratio could result in the Class B Units becoming convertible into Class A Units more quickly or at a lower conversion rate or reduce the redemption price for the Class B Units. For additional discussion of the terms of the Class B Units, see Note G "Equity (Deficit)" in the notes to our consolidated financial statements.

For these reasons, although the general partner has not made any decisions or adopted any policy with respect to the allocation of future distributions by Ferrellgas Partners to its partners, the general partner may determine that it is advisable to pay more than the minimum amount of any distribution, up to 100% of the amount of such distribution, to Class B Unitholders. We have made aggregate cash distributions of approximately \$250.0 million to our Class B Unitholders since inception of our Class B Units. Under its Credit Agreement, Ferrellgas Partners is currently unable to make distributions to its Class A and Class B unitholders. See Note E "Debt" and Note M "Net loss per Unitholders' interest" for additional information. See "Risk Factors —Risks Inherent in an Investment in our Class A or Class B Units or our Debt Securities and Other Risks Related to Our Capital Structure and Financing Arrangements—If Ferrellgas Partners is permitted to make and makes distributions to its partners, while any Class B Units remain outstanding, Class B Unitholders collectively will receive at least approximately \$5.7% of the aggregate amount of each such distribution and may receive up to 100% of any such distributions. Accordingly, while any Class B Units remain outstanding, Class A Unitholders may not receive any distributions and, in any case, will not receive collectively more than approximately 14.1% of any distribution" in our Annual Report on Form 10-K for fiscal 2024.

Ferrellgas Partners did not pay any distributions to Class A Unitholders, Class B Unitholders or the general partner during the three months ended October 31, 2024 or 2023.

The ability of Ferrellgas Partners to make cash distributions to its Class A Unitholders and Class B Unitholders is dependent on the receipt by Ferrellgas Partners of cash distributions from the operating partnership. For so long as any Preferred Units remain outstanding, the amount of cash that otherwise would be available for distribution by the operating partnership to Ferrellgas Partners will be reduced by the amount of cash distributions and other payments made by the operating partnership in respect of the Preferred Units, including payments to redeem Preferred Units. Further, the indentures governing the 2026 Notes and the 2029 Notes (together with the 2026 Notes, the "OpCo Notes"), the Credit Agreement and the OpCo LPA Amendment governing the Preferred Units contain covenants that limit the ability of the operating partnership to make distributions to Ferrellgas Partners and therefore effectively limit the ability of Ferrellgas Partners to make distributions to its Class A Unitholders and Class B Unitholders. See Note E "Debt" and Note F "Preferred units" for a discussion of these limitations. In our Annual Report on Form 10-K for fiscal 2024, see also "Risk Factors—Risks Inherent in an Investment in our Class A or Class B Units or our Debt Securities and Other Risks Related to Our Capital Structure and Financing Arrangements—Restrictive covenants in the Indentures, the Credit Agreement and the agreements governing our other future indebtedness and other financial obligations may reduce our operating flexibility and ability to make cash distributions to holders of Class A Units and Class B Units. The Indentures, the Credit Agreement and the OpCo LPA Amendment contain important exceptions to these covenants."

#### Preferred unit distributions

Pursuant to the OpCo LPA Amendment, the operating partnership is required to pay to the holders of each Preferred Unit a cumulative, quarterly distribution (the "Quarterly Distribution") at the Distribution Rate (as defined below) on the unit purchase price of such Preferred Unit, which is \$1,000 per unit.

"Distribution Rate" means, for the first five years after March 30, 2021, a rate per annum equal to 8.956%, with certain increases in the Distribution Rate on each of the 5<sup>th</sup>, 6<sup>th</sup> and 7<sup>th</sup> anniversaries of March 30, 2021, subject to a maximum rate of 11.125% and certain other adjustments and exceptions.

The Quarterly Distribution may be paid in cash or, at the election of the operating partnership, "in kind" through the issuance of additional Preferred Units ("PIK Units") at the quarterly Distribution Rate plus an applicable premium that escalates each year from 75 bps to 300 bps so long as the Preferred Units remain outstanding. In the event the operating partnership fails to make any Quarterly Distribution in cash, such Quarterly Distribution will automatically be paid in PIK Units.

The Distribution Rate on the Preferred Units will increase upon violation of certain protective provisions for the benefit of Preferred Unitholders notwithstanding the cap mentioned above.

As of October 31, 2024, the Quarterly Distribution accrued was \$18.1 million. During the three months ended October 31, 2024, one quarterly payment of \$15.4 million relating to Quarterly Distributions was paid in cash to holders of Preferred Units. The remaining Quarterly Distribution accrual of \$2.7 million represents Additional Amounts payable to certain holders of Preferred Units pursuant to the side letters outlined in the OpCo LPA Amendment.

As of October 31, 2023, the Quarterly Distribution accrued was \$18.0 million. During the three months ended October 31, 2023, one quarterly payment of \$15.4 relating to Quarterly Distributions was paid in cash to holders of Preferred Units. The remaining Quarterly Distribution accrued of \$2.6 million represented Additional Amounts payable to certain holders of Preferred Units pursuant to the side letters.

#### Preferred unit tax distributions

For any quarter in which the operating partnership makes a Quarterly Distribution in PIK Units in lieu of cash, it shall make a subsequent cash tax distribution for such quarter in an amount equal to the (i) the lesser of (x) 25% and (y) the highest combined federal, state and local tax rate applicable for corporations organized in New York, multiplied by (ii) the excess (if any) of (A) one-fourth (1/4th) of the estimated taxable income to be allocated to the holders of Preferred Units for the year in which the Quarterly Tax Payment Date (which refers to certain specified dates that next follow a Quarterly Distribution date on which PIK Units were issued) occurs, over (B) any cash paid on the Quarterly Distribution date immediately preceding the Quarterly Tax Payment Date on which a quarterly tax amount would otherwise be paid (such amount, the "Tax Distribution"). Tax Distributions are treated as advances against, and reduce, future cash distributions for any reason, including payments in redemption of Preferred Units or PIK Units, or payments to the holders in their capacity as such pursuant to any side letter or other agreement.

#### Cash distributions paid

Ferrellgas Partners did not pay any cash distributions to its Class A Unitholders, Class B Unitholders or the general partner during the three months ended October 31, 2024 or 2023.

The operating partnership paid cash distributions for the three months ended October 31, 2024 and 2023 in respect of its Preferred Units as discussed above under "—Preferred unit distributions."

#### The operating partnership

The financing activities discussed above also apply to the operating partnership.

#### **Disclosures about Effects of Transactions with Related Parties**

We have no employees and are managed and controlled by our general partner. Pursuant to our partnership agreements, our general partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on our behalf, and all other necessary or appropriate expenses allocable to us or otherwise reasonably incurred by our general partner in connection with operating our business. These reimbursable costs, which totaled \$86.4 million for the three months ended October 31, 2024, include operating expenses such as compensation and benefits paid to employees of our general partner who perform services on our behalf as well as related general and administrative expenses.

During the three months ended October 31, 2024 and 2023, the operating partnership paid distributions to Ferrellgas Partners as described above.

#### **Material Cash Requirements**

As of October 31, 2024, there have been no material changes to our material cash requirements from those described under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Material Cash Requirements" in our Annual Report on Form 10-K for fiscal 2024. For additional information regarding our debt obligations, see Note E "Debt" to our condensed consolidated financial statements.

## The operating partnership

The contractual obligations discussed above also apply to the operating partnership.

# ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We did not enter into any risk management trading activities during the three months ended October 31, 2024. Our remaining market risk sensitive instruments and positions have been determined to be "other than trading."

#### Commodity price risk management

Our risk management activities primarily attempt to mitigate price risks related to the purchase, storage, transport and sale of propane generally in the contract and spot markets from major domestic energy companies. We attempt to mitigate these price risks through the use of financial derivative instruments and forward propane purchase and sales contracts.

Our risk management strategy involves taking positions in the forward or financial markets that are equal and opposite to our positions in the physical products market in order to minimize the risk of financial loss from an adverse price change. This risk management strategy is successful when our gains or losses in the physical product markets are offset by our losses or gains in the forward or financial markets. Our propane related financial derivatives are designated as cash flow hedges.

Our risk management activities include the use of financial derivative instruments including, but not limited to, futures, swaps, and options to seek protection from adverse price movements and to minimize potential losses. We enter into these financial derivative instruments with brokers who are clearing members with the Intercontinental Exchange or the Chicago Mercantile Exchange and, to a lesser extent, directly with third parties in the over-the-counter market. We also enter into forward propane purchase and sales contracts with counterparties. These forward contracts qualify for the normal purchase normal sales exception within GAAP guidance and are therefore not recorded on our financial statements until settled.

#### Risk Policy and Sensitivity Analysis

Market risks associated with energy commodities are monitored daily by senior management for compliance with our commodity risk management policy. This policy includes an aggregate dollar loss limit and limits on the term of various contracts. We also utilize volume limits for various energy commodities and review our positions daily where we remain exposed to market risk, so as to manage exposures to changing market prices.

We have prepared a sensitivity analysis to estimate the exposure to market risk of our energy commodity positions. Forward contracts, futures, swaps and options outstanding as of October 31, 2024 and July 31, 2024 that were used in our risk management activities were analyzed assuming a hypothetical 10% adverse change in prices for the delivery month for all energy commodities. The potential loss in future earnings from these positions due to a 10% adverse movement in market prices of the underlying energy commodities was estimated at \$12.8 million and \$10.0 million as of October 31, 2024 and July 31, 2024, respectively. The preceding hypothetical analysis is limited because changes in prices may or may not equal 10%, thus actual results may differ. Our sensitivity analysis does not include the anticipated transactions associated with these transactions, which we anticipate will be 100% effective.

#### Credit risk

We maintain credit policies with regard to our counterparties that we believe significantly reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition (including credit ratings), and entering into agreements with counterparties that govern credit guidelines.

Our other counterparties principally consist of major energy companies that are suppliers, marketers, wholesalers, retailers and end users; and major U.S. financial institutions. The overall impact due to certain changes in economic, regulatory and other events may impact our overall exposure to credit risk, either positively or negatively in that counterparties may be similarly impacted. Based on our policies, exposures, credit and other reserves, management does not anticipate a material adverse effect on financial position or results of operations as a result of counterparty performance.

#### Interest rate risk

We had variable rate indebtedness outstanding related to our letters of credit under our Credit Facility of \$200.6 million and \$193.4 million as of October 31, 2024 and July 31, 2024, respectively. Our results of operations, cash flows and financial condition could be materially adversely affected by significant increases in interest rates to the extent that we have variable rate indebtedness (including any disbursements or payments related to letters of credit) outstanding under our Credit Facility.

#### Critical accounting estimates

Our critical accounting estimates are disclosed under "Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates" in our Form 10-K for fiscal 2024. During the three months ended October 31, 2024, no modifications were made to these critical accounting estimates.

#### ITEM 4. CONTROLS AND PROCEDURES

An evaluation was performed by the management of Ferrellgas Partners, L.P., Ferrellgas, L.P., Ferrellgas Partners Finance Corp., and Ferrellgas Finance Corp., with the participation of the principal executive officer and principal financial officer of our general partner, of the effectiveness of our disclosure controls and procedures. Based on that evaluation, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures, as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act, were effective as of October 31, 2024.

The management of Ferrellgas Partners, L.P., Ferrellgas, L.P., Ferrellgas Partners Finance Corp., and Ferrellgas Finance Corp. does not expect that our disclosure controls and procedures will prevent all errors and all fraud. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Based on the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the above mentioned partnerships and corporations have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events. Therefore, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide such reasonable assurances of achieving our desired control objectives, and the principal executive officer and principal financial officer of our general partner have concluded, as of October 31, 2024, that our disclosure controls and procedures are effective in achieving that level of reasonable assurance.

During the most recent fiscal quarter ended October 31, 2024, there have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) or Rule 15d-15(f) of the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

# PART II – OTHER INFORMATION

#### ITEM 1. LEGAL PROCEEDINGS

For information regarding legal proceedings, see Note L "Contingencies and commitments" in our condensed consolidated financial statements included in Item 1. "Financial Statements."

# ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors set forth under Part I, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for fiscal 2024 and in our subsequent SEC filings.

# ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

# ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

# ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

# ITEM 5. OTHER INFORMATION

During the quarter ended October 31, 2024, none of our directors or officers (as defined in Rule 16a-1(f) of the Exchange Act) adopted, terminated or modified a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (as such terms are defined in Item 408 of Regulation S-K).

# ITEM 6. EXHIBITS

The exhibits listed below are furnished as part of this Quarterly Report on Form 10-Q. Exhibits required by Item 601 of Regulation S-K of the Securities Act, which are not listed, are not applicable.

Exhibit Number	Description
10.1	Fifth Amendment to Credit Agreement, dated as of December 5, 2024, among Ferrellgas, L.P., Ferrellgas,
10.1	Inc., certain subsidiaries of Ferrellgas, L.P., as guarantors, JPMorgan Chase Bank, N.A., as administrative
	agent and collateral agent, and certain lenders and issuing lenders party thereto. Incorporated by reference
	to Exhibit 10.1 to our Current Report on Form 8-K filed December 10, 2024.
* 31.1	Certification of Ferrellgas Partners, L.P. pursuant to Rule 13a-14(a) or Rule 15d-14(a) of the Exchange Act.
* 31.2	Certification of Ferrellgas Partners Finance Corp. pursuant to Rule 13a-14(a) or Rule 15d-14(a) of the
51.2	Exchange Act.
* 31.3	Certification of Ferrellgas, L.P. pursuant to Rule 13a-14(a) or Rule 15d-14(a) of the Exchange Act.
* 31.4	Certification of Ferrellgas Finance Corp. pursuant to Rule 13a-14(a) or Rule 15d-14(a) of the Exchange
	Act.
* 32.1	Certification of Ferrellgas Partners, L.P. pursuant to 18 U.S.C. Section 1350.
* 32.2	Certification of Ferrellgas Partners Finance Corp. pursuant to 18 U.S.C. Section 1350.
* 32.3	Certification of Ferrellgas, L.P. pursuant to 18 U.S.C. Section 1350.
* 32.4	Certification of Ferrellgas Finance Corp. pursuant to 18 U.S.C. Section 1350.
* 101.INS	XBRL Instance Document (the instance document does not appear in the Interactive Data File because its
	XBRL tags are embedded within the Inline XBRL document).

# CERTIFICATIONS FERRELLGAS PARTNERS, L.P.

I, Tamria A. Zertuche, certify that:

- 1. I have reviewed this report on Form 10-Q for the period ended October 31, 2024 of Ferrellgas Partners, L.P. (the "Registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
- 4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
  - Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
- 5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Date: December 20, 2024

/s/ Tamria A. Zertuche

Tamria A. Zertuche Chief Executive Officer and President of Ferrellgas, Inc., general partner of the Registrant

# CERTIFICATIONS FERRELLGAS PARTNERS, L.P.

I, Michael E. Cole, certify that:

- 1. I have reviewed this report on Form 10-Q for the period ended October 31, 2024 of Ferrellgas Partners, L.P. (the "Registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
- 4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
- 5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

In connection with the accompanying Quarterly Report on Form 10-Q of Ferrellgas Partners, L.P. (the "Registrant") for the period ended October 31, 2024, as filed with the Securities and Exchange Commission (the "SEC") on the date hereof (the "Report"), the undersigned, in the capacity and on the date indicated below, hereby certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- 1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"); and
- 2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Registrant.

The foregoing certification is made solely for purposes of 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and is subject to the "knowledge" and "willfulness" qualifications contained in 18 U.S.C. Section 1350(c).

This certification is being furnished to the SEC and is not to be deemed "filed" with the SEC for purposes of Section 18 of the Exchange Act or otherwise subject to the liability of Section 18. In addition, this certification is not to be deemed incorporated by reference into any registration statement of the Registrant or other filing of the Registrant made pursuant to the Exchange Act or Securities Act of 1933, as amended, unless specifically identified as being incorporated therein by reference.
